MAGISTRATE SPEAKS FOR ZAM-BUK

Magistrate Perry, of Goldfields, B.C., believes in making a good thing known. Writing of Zam-Buk, the great household balm, he says:—"After a very fair trial I have proved Zam-Buk eminently satisfactory. In my case it cured a skin rash of five years' standing which no doctor had been able to do any good for. I would certainly encourage any person to keep Zam-Buk in his home." The magistrate is quite right. Every home needs Zam-Buk! Unequalled for cuts, burns, bruises, eczema, blood poisoning and all skin diseases. All stores and druggists sell it at 50 cents a box. Sure cure for piles.

DON'T NEGLECT THAT SORE!

A Chicago man has just died from blood poisoning arising from neglect of a small sore. Don't neglect a cut, a patch of eczema, or an open sore of any kind. The air is full of poison germs, waiting to start up their evil results in neglected sores, wounds, etc. In Zam-Buk is safety. Zam-Buk is so highly antiseptic that applied to any skindisease or injury it makes blood poisoning impossible. In using Zam-Buk you have three processes going on at once for Zam-Buk is healing, soothing and antiseptic. Try it without delay.

A GENUINE OFFER.

TEST ZAM-BUK AT OUR EXPENSE!

We appreciate the position taken by the man or woman who says:—"If your preparation is what you claim, you should have no objection to letting us try it before spending our money on it." To every person taking this view we say, send one cent stamp (to pay return postage) and name and date of this paper to Zam-Buk Co., Toronto, and we will mail you a free trial box of Zam-Buk. Zam-Buk is purely herbal, suitable for the delicate skin of little children, yet powerful enough to heal chronic sores of long years' standing. All druggists and stores, 50c. per box, 3 for \$1.25.

Every Home Needs Zam-Buk

The Kind You Have Always Bought

Signature of J. C. F. Fitch

Steamer Stranded.

MONTREAL Thursday. — The cargo of the steamer Lake Michigan from Montreal to London is reported stranded near Margate, and is valued at \$500,000 and is composed of lumber, provisions and cattle. There were no passengers. The Lake Michigan is a comparatively new boat of the C. P. R. line of 12,500 tons.

Tickling or dry Cough will quickly loosen when using Dr. Shoop's Cough Remedy. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a lung healing mountainous shrub give the curative properties to Dr. Shoop's Cough Remedy. It cures the cough and heals the sensitive bronchial membranes. Noopium, no chloroform, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Accept no other Sold by all dealers.

An emunctive treatment has been discovered which allows a patient to smile on the operating table. All that is wanted now is another treatment which will enable the patient to smile when the bill is presented.

G. T. P. IMPROVEMENT.

The construction of the Grand Trunk Pacific Railway will make available for settlement and bring into potential productivity one hundred millions of acres of land, comparative-ly of no value, without facilities for access and egress and marketing of products. It is estimated that this one hundred million acres acquires a value of three dollars per acre by the building of the Transcontinental Railway. Thus we have a national asset of three hundred millions value out of nothing so to speak, which would not have been brought into existence, but for the enterprise and statesmanship of Sir Wilfrid Laurier in building the people's railway—the National Transcontinental—Exchange.

Five is the sacred number of the Chinese, who have five planets, five cardinal points, five virtues, five tastes, five musical notes, five ranks of nobility and five colors.

"But if my jacket and trousers, my hat and shoes, are fit to worship God in, they will do; will they not?" asks Thebeau. Maybe, but that logic doesn't apply to a woman's hat.

Yeans for Nationhood.

LONDON, Thursday.—Judge Longley writes the standard of Empire stating that however loyal Canadians may be in heart all are yearning for national recognition. A colony in the ordinary sense of the word, Canada cannot much longer be a part of the empire. He hopes she will always be.

French Catch German Spy.

ORLEANS, France. — The police have arrested a German spy while attempting to take a French soldier to abstract important parts of a rifle gun. An individual describing himself as an agent of a German brewer, recently got into communications with an artilleryman, who, however, informed his commander of the German's proposition, with the result that a trap was set, and the German was caught red-handed. The police who attach much importance to the capture, are maintaining the greatest secrecy.

St. Joseph, Lewis, July 14, 1908. Minard's Liniment Co., Limited. Gentlemen,—I was badly kicked by my horse last May and after using several preparations on my leg nothing would do. My leg was black as jet, and I was laid up in bed for a fortnight and could not walk. After using three bottles of your MINARD'S LINIMENT I was perfectly cured so that I could start on the road.

Women like a long glass to look at themselves; men, when they have a long glass, are contented to be "looking at" some other fellow.

"Salada" Tea remains in favor year after year with enormously increasing sales, simply because it is always true to its high standard of quality.

The fact that the Imperial Government is taking such active interest in Canada is evidence of a healthy awakening.

It is not often that General Booth, the Salvation Army leader, lays down anything which he takes up. He has however, withdrawn his Ethiopian immigration scheme. The expense of it was too great for him.

NEW TELEPHONE MARVEL EXHIBITED IN LONDON

Invention by Which Speaking and Handwriting May be Transmitted Simultaneously and With Little Trouble

THE marvel of the telephone has become commonplace through daily use.

Fresh interest, however, is likely to be aroused in its wonderful possibilities by a new invention, of which a demonstration has just been witnessed in this city.

The inventor is a German, Herr Gustav Graanna, and his mission to this country is an outcome of the new patent laws. His marvellous apparatus has already been exhibited in Germany, where it has aroused profound interest.

Herr Graanna can transmit handwriting, sketches, etc., over an ordinary telephone wire for very considerable distances and within the period of a few seconds, thus making a considerable advance on the old system of sending writing at a distance. He uses a few thousand current-volts in the transmitting and receiving boxes. His apparatus can be made an auxiliary of common telephonic communication, and, therefore, its commercial utilization is ready to hand.

Passed Through Quickly.

Herr Graanna's messages are passed through as fast as they are written, and the transmitter uses the pencil naturally. Other systems require somewhat laborious handling of the transmitting mechanism, so that it takes about half an hour to send and receive even a short sentence. In fact, the Graanna instrument is the autographic double of the voice in telephonic communication. One can actually speak and write or draw at the same time through the same wires, the telephone being connected with the apparatus through a condenser of two condensers.

By an engineer is ordering material by telephone from a manufacturer. He can furnish plans, set the bolts, plates,

rails, etc., which he requires. Similarly a newspaper artist can sketch an event on the spot—a railway disaster, for instance—and transmit it to his editor hundreds of miles away, accompanying it with a verbal description as he draws, or, if the correspondent be a reporter, he can make use of a photograph by tracing its outlines. In military operations maps, plans or diagrams illustrating the enemy's movements as they unfold themselves can be wired back to headquarters.

How the Instrument Works.

The system of telegraphy is accomplished by means of a light ray travelling over sensitized paper. The graphite pencil at the transmitter end has two electrical contacts, one for horizontal movement and the other for vertical movement, a curve being made up of the component parts of one or the other. On taking the pencil from off its rest a tiny electric glow lamp in the receiver box is illuminated. The light from this lamp is conducted to a prism from which it is reflected on to two little pivoted mirrors, one of which corresponds with the circuit of horizontal movement and the other with that of the vertical.

The light ray produced by the mirrors is absolutely identical with the movements of the pencil, and it is thrown upon the section of a spool of sensitized paper, set to receive it. By unrolling the attachment to the receiver box containing the photographic film, and substituting a focusing glass, the evolutions of the light ray can be watched. It appears as a tiny pinhead of light, travelling in all directions over the glass—really imitating exactly the handwriting or drawing of the transmitter.

On laying the pencil down, the lamp is extinguished, and a little electromotor pushes forward the sensitized paper, on which the message has just been photographed, passes it through a chemical bath, in which it is developed, and in ten seconds the writing or sketch becomes visible; while another film is unwound from the spool and placed in position to receive the next message. All these processes are automatic. The receiver has now but to cut off the film bearing the message and "fix" it in the photographic sense.

BOAT LOST WITH ALL HANDS.

FORT FRANCES, Ont., Tuesday.—Indians going up the lake brought in word this morning that a gasoline launch had been seen to blow up and sink with all hands near Jackfish Narrows yesterday afternoon. One of the gasoline fish boats from the International Falls is missing with the owner, Mr. Infelt and two men and it is feared that they are the victims.

TOO MUCH NOISE.

Campbellton for its size has more noise to the square inch than any town in New Brunswick. What with drums and cymbals and the strident cry of "shine 'em up only a dime" the people of this town have more than a sufficient of nerve racking sounds. No objection can be raised to an occasional parade of bands, but to devote the greater part of Saturday evening and Sunday to senseless drum pounding is entirely unfair to the public in general and especially annoying to sick and nervous people who long for quiet and rest.—Morning Graphic.

THE PASSING OF BIGOTRY.

(Morning Graphic.)

A further proof, if one were needed, of the wonderful future of Canada is the decay of religious prejudices among the people of this country. We have come to realize that a man may be a Emperor William says that so long as Germany has the most powerful army in Europe, the old world may rest assured. In other words, the Kaiser will have peace if he has to fight for it.

RAILWAY TO BE SOLD

OTTAWA, Thursday. — Today at the Exchequer courts orders were issued for the sale of the Bail des Chateaux and Atlantic and Lake Superior Railway. There were only two bidders: both from the Royal Trust Company, Montreal. The Bail des Chateaux bid amounted to \$1,500,000; that of the Atlantic and Lake Superior amounted to \$350,000.

GUSTAF ADOLF AFLOAT. The steamer Gustaf Adolf, which ran ashore at Goose Island, is now in Quebec. The vessel was not damaged as her forepeak rested on sand.

Mayor Oliver and City Treasurer Coady, of Toronto, are in New York trying to raise \$5,000,000 necessary for the construction of an electrical distribution plant and the filtration and sewerage disposal plants. Mayor Oliver wants these works to go on at once, being anxious to provide as much employment as possible this winter.

New Jersey has a negro 137 years old. He boasts of having had Washington's horse. His great-grandfather has applied for the position of porter in the Grand Trunk Hotel, Ottawa, Canada. The aged ancestor wants to hang around till he sees the descendant assassinated.

PERSIAN CAPITAL RULED BY RUSSIAN COSSACKS

Dictator of Teheran Introduces Drastic Methods That Prevail in Czar's Empire.

MUCH MONEY FOR SHAH

The special correspondent of the Berliner Tageblatt at Teheran telegraphs yesterday's date:

"The Russian colonel of Cossacks, Linkhoff, whom the shah appointed as military governor when he placed Teheran as a state of siege, publishes a proclamation prohibiting the use of firearms under a penalty of severe punishment. Incidents of disorderly conduct will also be rigorously punished. The activity of the 'dictator' extends even to measures for cleaning the streets, the sale of bread and meat and the location of cab ranks. The 'dictator's' commands create widespread popular resentment. It is rumored that the Cossack brigade will shortly be strengthened to 25,000 men.

"Tea and sugar taxes are intended to provide the necessary revenue, and for their levy Russia has given her assent. In conjunction with England, Russia entered an energetic protest against similar taxes when they were recently proposed by Parliament for general financial objects.

"The shah has now removed his chief antagonist, Prince Zill-es-Sultan, from the governorship of the province of Shiraz, and named Asaf-es-Saltaneh as his successor. The new Cabinet is not yet named. As the parliamentary elections will not take place for three months, it is believed that the shah will employ the time in effecting new treaties with Russia.

"During the prevailing crisis unlimited money flows into the shah's hands. The chief of telegraphs has given him about \$50,000, while the shah, without applying to the minister of finance, appropriated about \$25,000 from the custom house."

Record Fish. — One of the finest pollock ever caught has been taken by C. E. Morrish off Penzance. It scaled twenty-two pounds.

This woman says that Lydia E. Pinkham's Vegetable Compound saved her life.

Mrs. Emma Chatel, Valleyfield, Bellefleur, Quebec, writes to Mrs. Pinkham:

"I want to tell you that without Lydia E. Pinkham's Vegetable Compound, I would not be alive. For
