ing will be held shortly, and a reduction in the quarterly payment seems inevitable. Stock in the current calendar year will show a surplus available for common stock dividend equal to practically 15 per cent, and net earnings will be about \$3,500,000 larger than for 1906. While railroad earnings for July, as compared with those of April, show regular changes. Aggregate results seem to indicate that net profits are increasing, despite handicap of higher wages and other operating difficulties. The Pennsylvania earnings for the year ending June 30 show a surplus of over \$8,500,000 above dividend requirements. The Soo lines earned last year 24 per cent, on both common and preferred shares. One interesting fact is that the stocks borrowed for months past have been returned in some quantities. While this facilitates borrowing by the short interest, it also suggests that, in the opinion of large investors, the principal opinion of large interests is that the decline is over. By starting this reactionary period should shortly yield good profits.—Ennis & Stoppani.

DIPHTHERIA IN QUEBEC VILLAGE.

Priest's Solemn Admonition on Referring to Death of a Parishioner.

Ottawa, Sept. 25.—An epidemic of diphtheria is raging at Quyon, Quebec, near here. There have been two deaths there in a week. Three families are now down with the disease, the schools and churches are closed, the Provincial Health Officer was asked to go there, and the village may possibly have to be quarantined.

At the Kennedy Hotel, the whole family of 12 had it.

Miss Nellie Casey, a relative who was there on a visit, contracted the disease. She came down to the Water Street Hospital, but it was stated at the institution that she was immediately sent to the Isolation Hospital, where she died.

There appears to have been gross negligence somewhere, and it is alleged, Rev. Father Kierman, Sunday, said that whoever was responsible for handing death to his neighbor was equal to a murderer.

The disease has been in the village for five or six weeks.

LIGHTNING DOES DAMAGE.

Barn Destroyed at North Augusta—Hop House Gone.

Brookville, Sept. 25.—Lightning struck the barn of George Wright, North Augusta, during the night, destroying the building and the season's crop.

In the same storm the hop house of G. W. Mallory, an extensive grower, of Mallorytown, went up in smoke, burning eight large bales of hops. These, with the house, were fully insured.

Mr. Wright only carried \$250 insurance, and his loss is heavy.

WOMAN'S SUDDEN DEATH.

Taken Ill in Church and Died Tuesday From Appendicitis.

Colours, Sept. 25.—Taken suddenly ill in church on Sunday evening, Miss Minnie Munro died yesterday afternoon in Dr. John R. Lewis' office, where she had been first carried. Death was due to appendicitis. Her illness was at first thought to be due to a severe attack of indigestion.

The remains were to-day forwarded to Seaford for interment. Miss Munro had been employed in the woolen mills here and was about 29 years of age.

"A great many people sleep beneath this roof," remarked the vergor, showing the cathedral to a party of tourists. "Indeed!" said the gentleman from America. "It's the same with us. Why don't you get a more rousing preacher?"
