TORONTO WHOLESALE MARKETS-WEERLI REVIEW. THURSDAY, May 4.

PRODUCE. The past week has been a very dull period in lour and grain. There has been very little of anything offered, and the dullness prevalent outside has caused buyers to hold aloof from that little, Prices, however, cannot be said to have shown any considerable break in any case, and in some cases have shown none at all, as holders have steadily refused to make any concessions. Freights have shown a considerable decline, and this also has probably helped to avert a fall. Stocks have decreased since our tast, and larger shipments are expected during the present week. Stocks stood on Monday as follows :- Flour, 7.030 bbls .: fall wheat, 111,745 bush.; spring wheat, 119,096 bush.; oats, 1,900 bush.; barley, 139,528 bush.; peas, 61,822 bush., and rye, 7,626 bush.; against on the same date last year-Flour, 9,465 bbls.; fall wheat, 184,384 bush.; spring wheat, 139,995 bush.; oats, 22,800 bush.; barley, 48,284 bush.; peas, 57,817 bush., and rye, nil bush. English advices show a fall of 2d. on spring, and 1d. on other sorts of wheat, with 11d. on corn, and 6d. on the inside price of flour since our last. Markets were very dull and very weak on Monday and Tuesday; the fall to-day seems to have been checked, but the situa-tion seems to have remained dull and weak. During last week markets were very quiet. Flour seems to have been specially flat, in consequence of increasing imports from this side; indeed it is said that these have reached proportions which have "revolutionised the British milling trade." But wheat also has been slow. It is stated that of twenty-seven wheat cargoes which arrived at ports of call during last week only seven were reported sold, and that forty more vessels were due for orders during the present reek. It seems to us, however, that buyers must be conducting their business strictly on th must be conducting their business strictly on the "hand-to-mouth" principle. For although it is true that in the week ending on the 23rd ult., the bupply showed an increase on that of the preceding week and was considerably over the average consumption, it is also true that on a wider view the result is entirely the other way, with the key and down to an experience like the with stocks run down to an exceptionally lov point. Thus supply for the eight weeks ended April 9, 1881, comprising the farmers' deliveries of home-grown wheat, plus imports of foreign, has been 2,980,082 quarters, against 3,632,952 quarters consumption, showing a deficiency under the consumption in eight weeks of 652,870 quarters, though the supply for the eight weeks ended April 9, 1881, was 372,079 quarters more than for the corresponding weeks in 1880. The supply last week showed a decrease on that of the preceding one, but was still in excess of the consumption. The imports amounted to 255,-000 to 260,000 quarters of wheat, and 185,000 to 190,000 bbls. of flour, and home deliveries to 199,000 bbls. or hour, and nome deriveres to 119,672 quarters, making a total supply equal to 478,734 to 486,547 quarters of wheat, against an average weekly consumption of 454,000 quarters. The quantity of wheat and flour in transit on the 28th ult. was 2,475,000 quarters, against

2,539,000 quarters on the 21st ult., and 1,989,000 on the corresponding date last year. Continental advices state that in France markets were rather quiet. The supplies from farmers, although a little more important in a few markets around Paris were small in the North and Northeast and prices of grain unchanged. Marsellies announced firmness in price, with more business doing. Affairs were dull at Bordeaux, and sountry wheat, as well as red winter, and flour, had declined. Business was almost at a standstill at Nantes, and prices were sustained with difficulty, for home grown as well as for foreign. At Havre buyers were few on the 14th ult., and there was a decline upon red winter and Michigan wheat. Reports from 94 markets in the second week of April showed 22 advanced; 14

2,539,000 quarters on the 21st ult., and 1,989,-

the "term" markets rather improving for both wheat and rye, in spite of the dull reports from England. At Berlin wheat was dearer both on the spot and forward, with a good demand for summer delivery. At Danzig business was very small, owing to the inferior quality of offerings. At Hamburg, on the 16th ult., wheat was quiet at firm prices, good yellow Helstein and Mecklenburg seiling at 60s. 6d. to 53s. 6d. per 50l lbs., fo.b.; American winter wheat 48s. 6d. to 49s. 6d. per 480 lbs. delivered; term wheat, April-May, 46s. 6d. In Hungary the heavy rainfall and disastrous inundations had damaged the autumn-sown cereals in certain parts. The Pesth wheat market was very firm for fine wheats, which were very searce, but secondary sorts very slow. The flourmarket also was firm, but not active. From Russia there is reported a firm market at St. Petersburg and some animaa firm market at St. Petersburg and some anima-tion at Odessa with a demand for soft wheats. Advices from Chill to the 25th of February re-port the new crop to be turning out much smaller than expected, with markets inactive. States markets have been decidedly easy all week. This has been due chiefly to a decided improvement in crop prospects but also to the improvement in crop prospects, but also to the downward tendency in English markets, and lastly to increased receipts on the sca-board, which enable "shorts" to cover their sales. At New York there have been few buyers for July or August delivery; but the feeling generally seemed firmerat the close yesterday. The total exports from the States from July 1 to April 30 are stated to have been over 160 million bushels, of which about 23,000,000 bushels have been from California and Oregon, being 137,000,000 bushels for the exports from Atlantic ports since July ist last. The visible supply of grain, comprising the stocks in granary at the principal points of ac-cumulation at lake and seaboard ports, and on rail from Western lake and river

PROVISIONS.

for small lots, which have been selling fairly well.

EGGS—Receipts have been coming in freely, and prices going down rapidly all week; round lots were not worth over lic. to-day. Street prices have declined to 12 to 18c.

PORK—Has been firmer, with small lots selling fairly well at \$30.50 to \$21, and cars offered at \$30, but no sales of them reported.

BACON—There has been less excitement ruling, and less demand heard. The only movement in car-lots of which we have heard is the sale in the latter part of last week of a car of long-clear at \$3.55, and a car of Cumberland at \$9.10 laid down in Toronto; tons and under have been selling quietly at 9½ to 9½c. for Cumberland, and 10½ to 10½c. for long-clear. Rolls and bellies have been firmer at 12c.

HAMS—Seem to have been quiet but firm; there is no movement in round lots reported, but they are wanted at 11½c; small lots of smoked have sold at 12c, and of canvassed at 12½c. Pickled unchanged at 10½ to 10½c.

LARD—Prices have been firm, but the move-

have sold at 12c, and of canvassed at 12dc. Pickied unchanged at 10t to 10dc.

Lard-Prices have been firm, but the movement seems to have been small; tinnets and pails have brought it to 14c. for small lots, and tierces 13 to 13dc. The low prices of butter, however, are generally expected to check any further rise. Hogs—Have been offered and selling readily at \$3 to \$8.25, with more wanted at these prices.

SALT-Unchanged; Goderich has been selling well at the late decline, or \$5 to \$0c. for cars, and \$1 for small lots; hand-salt for \$2.50, and clean salt for \$3.00 per ton at the works. Liverpool has been quiet and unchanged; cars are held at 78c.; small lots usually bring \$5 to \$74c.; dairy has ranged from \$1.25 to \$1.40, according to quantity and quality of the bags.

DRIED APPLES.—Country lots inactive, with buyers and sellers apart; there has been 34c. bid freely and refused steadily. Dealers sell barrelled as before at \$4 to \$c, for small lots.

Hors—Inactive; the only movement reported is the sale of half-bales and bales of choice at about 18c.

it. Prices are inchanged, with small lots selling at outside quotations. Good old currants are in demand at about 5½c. Quotations are as follows, the outside prices for retailers lots:—Raisins, layers, \$2.30 to \$2.50; London, do., new, \$2.75 to \$3; loose Muscatelle, \$2.50 to \$2.55; Valencias, 10½ to 11c.; currants, 1879, ordinary to fine, in barrels, 6½ to 7½c.; seldess, 10 to 10½c. in kegs; Sultanas, 10½ to 11c.; currants, 1879, ordinary to fine, in barrels, 6½ to 7½c.; filberts, 6½ to 9½c.; valauts, 8 to 8½c.; almonds, Ivica, 1½ to 15c.; Tarragona, 16 to 17c.; prunes, 5½ to 6½c.; Brazil nuts, 7 to 8c.; lemon peel, 18 to 20c.; orange do.; 19 to 20c.; citron do., 35 to 39c.

Riczs—Quiet and easy, with job-lots to be had about 4c., and small low selling at \$4.25 to \$4.37.

Fish—Unchanged: there is scarcely anything except cod held, and it has been selling as before; quotations for other sorts may be regarded as nominal. CATTLE.

TRADE—Has been light, but prices firmer.
BEEVES—The unfavourable reports of last week had a depressing effect on the market, and the offerings were light, only eight car-loads coming in during the week. One lot of export cattle averaging 1,518 sold at \$5.49, and \$5.29 was asked for a lot suitable for Montreal. First-class butchers' cattle were worth 4½ to 50., second-class 4½ to 4½c., and third-class were not wanted.

[Note.—The rules governing the sale of cattle for the Toronto market are as follows:—Export cattle are required to weigh not less than 1,300 lbs; first-class butchers' cattle from 1,200 to 1,300; second-class from 1,100 to 1,200, and third-class are not expected to reach so high a standard. These when sold live weight are taken at 5 per cent. off, or twelve hours' fast. without food or water in a dry yard.

SHEEP—Were still very scarce, and found ready buyers when offered. Prices were firm and unchanged, unless for exceptionally good ones, which were picked up at higher prices than the quotations, which are as follows:—For export, averaging 10 be. 14% weight. \$5.50 per cental. would be a first class for the home.

ENGLISH GRAIN MARKET. LIVE STOCK MARKETS.

ENGLISH GRAIN MARKET.

A cable despatch of Monday to New York quotes from the Mark Lane Express in its review of the British grain trade during last week as follows:—The more genial weather has had a beneficial effect. Wheatlooks healthy, though still very back ward. The supplies of English wheat have been somewhat more liberal. Prices have been nominally maintained at a few of the previncial markets, but in London and generally elsewhere trade has been slow and drooping. Buyers refused to do business in foreign breadstuffs except at a concession. The tension has now become very great, and in view of the supply on the spec and affect it would appear that lower rates are imminent. Of 27 wheat cargoes which arrived at ports of call during the past week only 7 are reported sold, and 40 more vessels are due for orders during the ensuing week. Flour has been lower and in verygliberal supply. The importation of American flour has assumed proportions which have completely revolutionized the British milling trade, and has been a dead weight on the wheat trade from the commencement of the cereal year. Maze has been easier. Barley has been firmly held; foreign is scarce and date is deed to the supplied of the sales of English wheat during the last week user. Outs are dull and unchanged. The sales of English wheat during the last week user. Sale quarrers at 41s. 40. ENGLISH GRAIN MARKET.

NOW OFFER FOR SALE OVER 1,350,000 ACRES, Of the Choicest FARMING and TIMBERED LANDS in the Northern Peninsuls of Michigan,

estined to be the best wheat-producing region in the world. These lands are situated in the counties of Chippewa. Mackinac, Schoolcraft, and Marquette, and embrace many thousands of acres of the est agricultural lands in the State of Michigan.

Among those in the counties of Chippewa and Mackinac are tracts of what are known as the burnt or cleared lands." These lands offer many advantages over the prairie lands of the West, as he timber lands adjoining insure a supply of fuel at little cost. The soil being a rich clay loam of the counties depth. The timber remaining upon the land being generally sufficient for the settlers' use in utilities and fencing. Among those in the counties of Chippewa and Mackinac are tracts of what are known as the "burnt or cleared lands." These lands offer many advantages over the preairie lands of the West, as the timber lands adjoining insure a supply of fuel at little cost. The soil being a rich clay loam of great depth. The timber remaining upon the land being generally sufficient for the settlers' use in building and fencing.

The se partially cleared lands are now offered at the low price of from \$t to \$4.50 per acre, one-fourth cash, and the remainder at purchaser's option, at any time within nine years, with interest payable annually at seven per cent.

Road's are being opened through these lands, and no better opportunity has ever been offered to men of si nall means to secure a good farm, and intending purchasers will be wise by availing themselves of this chance before prices advance, as the lands are being rapidly taken and settled upon. The lands more immediately on the line of the Detroit, Mackinac, and Marquette Railroad, from the Straits of Mackinac to Marquette, are more heavily timbered, and are almost universally good agricultural lands, leaving splendid farms when the timber is removed.

The from and lumber interests of the upper peninsula are of such magnitude as to call for all the charcoal and lumber interests of the upper peninsula are of such magnitude as to call for all the settler to make good wages while clearing the land.

Lumber Mills and Charcoal Kilns will be built at various points along the line, and Furnaces are now being created along the line of the road at Point St. Ignace.

The great demand and good prices for labour, both in winter and summer, make these lands particularly destrable as homes for the poor man. The lands adjacent the railroad are offered at prices from \$5 upwards, according to location, value of timber, etc. The lands are at your very door, and are being rapidly settled by Canadians.
