BUSY DAYS ALL OVER THE STORE

A most successful clearing sale—Satisfying assortments and values absolutely unbeatable.

It is an established custom with this store to hold a clearing sale of seasonable merchandise semi-annually, and they are planned on broad lines, offering assortments that are hard to equal and values absolutely unbeatable; but never before during any season, have we found trade conditions so advantageous for remarkable values as for this year's clearing event. All through the winter stocks you will find prices sharply lowered—scores of instances where you can buy the very things you want at a saving of one-third and some in which prices are exactly half regular.

Each assortment listed here has been carefully examined and the verdict rendered that the quantity in each will stand the pressure of extraordinary selling. We therefore advise everyone to put aside all obstacles and attend—at the most convenient time during the week of course—for we have enough to supply a big demand and to fully justify us in promising that you'll not be disappointed.

JUST A HINT OF THE SAVINGS AND NO MORE.

Out Goes the Bedding—Splendid Chances to Save.

It's an exceptional occurrence to have such comfortable bedding reduced to the extent this is now, and at the coldest season too—when these very blankets and comforters are in greatest demand. But it's clearance time, and no matter what demand there may be for any article in the store, none are given preference now—nothing will be put on the inventory sheets that we can find other owners for before that time—the advantage is yours.

WITH T

J. B. HOLDEN MEETS FARMERS
J. B. Holden, M.P.P., for the constituency address of the Local Canadian Society of Edmonton on January 6th. He expressed his pleasure at meeting the members of the society and discussed with them questions of importance to farmers. He hoped that their demands for legislation in the of a petition and the legislation to meet would respect it. He found that the majority of his constituents wanted government action in making plans, but insurance, he support them but he would not legislate the government as well as a government. Re government making plans Mr. Holden thought the farmers' eratic policy in Denmark would best with government assistance was then pointed out to him by a member that the Danish policy had introduced before the industry had come a trust monopoly, and that did not have such an organized content with, and furthermore, farmers were victims of our banking eds because of lack of finance, and dustry would stand the reduction of 8 or 10 per cent. interest, where increase of wealth by actual production would seldom average 7 per cent. but if the government issued the currency—medium of exchange—own financed, as well as industry, it liberate the government as well as dustry from such exploitation and not be called upon to build public plants.
At the meeting Elmer Hallberg chosen delegate to represent the C.S. of E. convention to be held in Edmonton, Jan. 19th and the joint session of A.P.A. and C.S. of E. Jan. 14th and 15th. He was instructed by his best efforts for amalgamation. Karges, vice-president of the society occupied the chair.

REPORT ON SHEEP INDUSTRY

According to the report of the Sheep Breeders' Association, the breeding industry in Alberta is much on the decline and the decline is regular and rapid.
Last year there were only sheep compared with 129,580 in year 1905.
About 90 per cent. of the sheep in the province belong to the southern district. The figures for the year and southern districts during the four years are—
1905. 129,580
1906. 123,760
1907. 118,800
1908. 113,840
Much attention will be given in future to this sheep industry, effort will be made to check the decline. For this purpose a
