(By the Man in the Moon.)

One death was caused by heat in  
San Francisco on the 31st May.

Dr. David Allison, president of the  
Mount Allison University has resign-  
ed.

A New York physician says that go-  
ing to bed is the surest and quickest  
way of curing any illness.

The Hon. L. P. Brodeur was sworn  
in as Minister in charge of the Cana-  
dian Naval service on the 3rd inst.

During May fifty-eight undesirable  
were deported from the Province of  
Ontario. They all came from the  
United States.

Britain's trade with her colonies in  
1909 reached £283,123,571, or about  
\$1,415,617,855. Enough to make some  
nations sit up!

It is said that there are two hun-  
dred and seventy active volcanoes in  
the world, but most of them are too  
small to be dangerous.

A man in Schenectady, N. Y., built  
a house recently without any chim-  
neys, furnace or gas fixtures. He in-  
tends using electricity for everything.

One hundred and ninety people re-  
cently built a church in ten hours in  
Peoria, Tex. The building was 64 feet  
long by 24 feet wide and was perfect  
in its completion.

An Egyptian paper has character-  
ized Mr. Roosevelt a tyrant, full of  
gall and a diabolical man and a  
bloodthirsty butcher. Strong language  
with a sting in it, this. But Teddy  
will likely survive it.

The Sydney Record says that Mr.  
L. H. Shetter has sold his carriage  
horse to Dr. Mitchell, of this city, a  
handsome price being paid for the  
animal, which is known as "Al. D."  
It is said to be a fine carriage horse  
and was the admiration of all Sydney  
horsemen.

Rev. Dr. Carman speaking at the  
Methodist Conference in Montreal  
said in reference to Church Union: "I  
cannot enter any union that will  
slacken up on Methodist evangelism;  
but we must rejoice that the other  
churches are moving mightily in  
evangelistic endeavour."

According to the individual census  
cards received at the United States  
census bureau, the population of the  
country will be in the neighbourhood  
of one hundred million. The cards  
received if piled one upon another  
would make a stack sixteen miles  
high.

Jean Baptiste Duberger, after ten  
years labor, has succeeded in pro-  
ducing a model of Quebec city as it  
was in 1800. The work is more than  
three hundred feet square and is  
finished with most exquisite detail. It  
is considered to be the most wonder-  
ful piece of wood carving that Canada  
can produce.

**SPORTSMEN ARRIVE.**—About a  
dozen sportsmen landed from the  
Bruce at Port aux Basques yesterday  
and came up the country by train to  
South Branch, Doyle and Robinson,  
to fish, two detained at Deer Lake  
and four at Grand Falls.

## **Accident at the Machine Shop.**

James Jackman, working at the R.  
N. Co. machine shop this morning, had  
the top cut off the thumb of his left  
hand. The thumb was caught in the  
machinery and crushed to the inside  
of the first joint. He was taken to  
Mr. P. O'Mara's drug store where he  
was given first aid till Dr. Anderson  
came along. The wound was then  
bound up and the patient sent to Hos-  
pital where the thumb may be ampu-  
tated.

## **Rector of St. Paul's, Exeter.**

In an English paper we find a cut  
of the Rev. Edward Reid, a native of  
this city, and a well known football  
and under it:—

The photograph given above is that  
of the Rev. Edward Reid, who has  
just been appointed to the joint liv-  
ings of Saints Paul, Pancras, and All-  
hallows', Exeter. Mr. Reid has for  
some years been senior curate at St.  
James', Exeter, and has also had  
charge of a mission church in that  
parish. He leaves that part of the  
city to the regret of all, but what will  
be St. James's loss will be St. Paul's  
gain, for in these comparatively poor  
parishes a clergyman of energy and  
resource, as Mr. Reid is, will find  
plenty of scope for missionary work,  
which is his special forte.

Apart from being a good Christian  
worker, Mr. Reid has put in some of  
the best work seen on football fields,  
and he played for Swindon and Plym-  
outh Argyle Clubs. On going to Exe-  
ter he joined the amateur Exeter  
City team, and played regularly for  
them. The increased demands on his  
time, and the fact that the latter club  
adopted professionalism, compelled  
him to sever his connection with it,  
but even now he is an enthusiastic  
supporter of the code.

## **\$400,000 Fire at Pictou.**

Logan's Tannery and other Buildings  
Destroyed—Stock on hand valued at  
a Quarter of a Million.

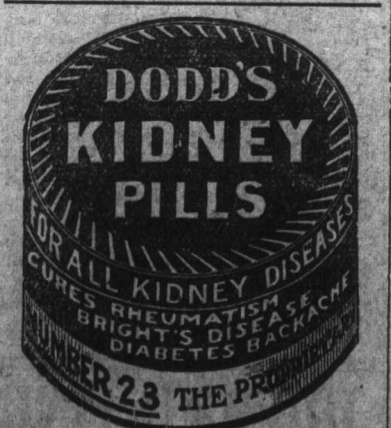

Pictou, N. S., June 4.—Logan's tan-  
nery, the largest tannery east of Mon-  
treal, situated at Lyon's Brook Village  
on the West River and Short Line  
Branch of the Intercolonial Railway,  
four miles from Pictou, is totally de-  
stroyed as a result of a fire which  
started at 12.15 this morning, and was  
not under control until near 5 o'clock  
this a.m.

The store of Dougall Logan, a large  
shareholder in the tannery, home of  
Mr. Logan, and home of Mr. Stewart,  
manager of the tannery, were burned  
to the ground, as well as barns and  
sheds belonging to tannery, hide  
houses, piles of bark and several box  
cars containing a bark. The total  
loss is now estimated close to four  
hundred thousand dollars. One hun-  
dred and fifty thousand dollars would  
be a conservative estimate of the  
plant's value, and stock of hides,  
bark, etc., on hand was valued at  
\$250,000, this being at the time of year  
at which stock is heaviest. Logan's

loss of store and goods would be  
about \$5,000 with \$2,500 for dwelling.  
The house occupied by Mr. Stewart  
and owned by the Tannery Co. was  
valued at \$5,000.

## **How to Reduce the Cost of Living**

We hasten to present a few methods  
by which the cost of living can be  
greatly reduced, says the Literary

Magazine. They are the following:

1. Keep a garden. A man with his  
backyard full of turnips can tell the  
butcher to go to thunder any time.
2. Walk instead of using a street  
car. This saves carfare and besides  
it makes you so hungry that you will  
enjoy the turnips.
3. Wear your last year's clothes.  
This will be saving in two ways. You  
will save the price of new ones and  
because of the hole in the old ones  
you will stay at home from the the-  
atre, thus making a large saving.
4. Get up early and work in your  
garden. This will compel you to go  
to bed early at night and will reduce  
your light bill by \$1 a week.
5. Adopt the fresh air fad and leave  
your windows open. After a little  
practice you will be able to exist in  
only tolerable discomfort at a tem-  
perature of 50 degrees. You have  
no idea how much cool this will save.
6. Make your own breakfast food.  
Buy the handsomest colored paper  
box you can find and keep it filled  
with oatmeal. This will save you half  
the price of your breakfast foods.
7. Discover that coffee and tea are  
highly injurious. People who discov-

er this fact save enough in ten years  
in narcotics and cream to go to Eu-  
rope—or would if the steamer rates  
did not go up every year.

8. When your vacation comes put  
it in exploring the city and country  
in which you live. You will get better  
food at home for less money, and the  
railroad fares you will save will al-  
most make up the loss caused by the  
raise in eggs and butter.

## **Poor Fishery North.**

By the Prospero we learn that the  
fishery down North is very poor and  
the outlook is far from encouraging.  
The Twillingate schooners on the N.  
B. Coast are doing practically noth-  
ing. Caplin has made its appear-  
ance but it is significant that the cod  
is not following it to the shore.  
Messrs. Howell and Gillett, at Cren-  
laire, on the French Shore, were the  
only ones who had any fish under salt  
and they had secured only 50 quintals  
each. Salmon is very plentiful all  
along, and a man named Pilgrim had  
49 fine fish at St. Anthony on Monday  
last.
