Mary Sounds a Warning.

A General Budget, and the Difference Between the Old Age Pension and Pauper Relief.

Editor Evening Telegram.

Dear Sir,—Tom was speaking to a gentleman from St. John's the other day, and after gossiping about everything else (you know what gossip is) they drifted to politics, and the St. John's man attempted to draw Tom out as to the "feeling" in Harbour Grace. After a time it was Tom was non-plussed for an instant, but only an instant, as he answered, "A female, I suppose." The St. John's man thought Mary's letters were very interesting and were much spoken of in the city, but he would enjoy them much more if she would leave politics out of them. I would be just delighted to please him, but I owe my country a debt, and that is to hit out from the shoulder when I see an occasion. It matters not to Tom or myself which party is in power. We are going to have our say when we see an occasion. Our country is at stake with the present Party of Forgetful Placid-loving gentry in power. The revenue, wrung from the hardy toilers, who are ever risking their lives to secure bread for their children, often bravely dying while seeking comforts for their little ones, as witness the many sorrowful cases of this nature during the present year, and all this, Mr. Editor, while Sir Edward and his army of Government officials are being overworked (?) with many of them only three hours a day in their laborious (?) work, their health generally breaks down, and they are compelled to seek leave of absence for a couple of weeks or maybe months to recuperate, as they call it, and their pay going on all the while.

No, Mr. Editor, I cannot cut politics out of my letters, nor can I please a few of the city folks, such as the one Tom was speaking to.

There is quite a lot of interesting news to tell you, and as Tom has not got much else to do now for a couple of weeks until potato-digging time, he is going to get all the crumbs he can and bring them home for me to send along.

That outport Magistrate who had his shop burned a few days ago has caused a lot of talk. These people who are living out of the revenue collected from labourers, fishermen, and business men generally, should not, and I believe are not allowed to, go into business. Why, my dear sir, if that was allowed there would be no

end of mischief, as they could under-sell all others seeing that they are not wholly depending on any one thing for the bread that perisheth. But right here in this town we have our Inspector of Police keeping a boarding house, and that to the disadvantage of a few struggling hotel keepers. I have it on pretty good authority that it was at the Bailey Hotel that Inspector General Sullivan put up while here. Now, my Tom, wanted me to "take a house" on the street for boarders, but what's the use?

We have had policemen here keeping cows, and supplying a lot of people with milk, and we have another Government official here who is running a large farm and supplying vegetables to people on Bell Island ten per cent. cheaper than our farmers can do it. All this to the disadvantage of the poor farmer.

A People's Party man who is apparently sick of the Party is mentioned as raising a pair of wings so as to be able to fly over to the Liberal side the first chance. But Tom says he will never vote for anything with a smell of Toryism about him, and there are others of his calibre (I saw that word in a sporting advertisement) and not a few.

Before I close there is another matter I want to touch on so as to put people on their guard, and a subject I want to refer to at greater length before long, and that is the Old Pension Scheme. From what I can learn there is more in that than many people may imagine. A report comes to me by wireless that an old man here applied to headquarters for the pension, and being a little under age his plea was that he was not well able to work. After a little consideration it was decided to give him a little allowance—four dollars a month I think, but not the pension. In this case, of course it is, (wrongfully I am sure) called pauper relief, and he is thus deprived of his vote. The chances are that all such allowances will be reserved for Liberals, so my husband, wise old man that he is, requests me to draw attention to this fact and warn all Liberals that if they accept an allowance in lieu of the pension they will be disfranchised, perhaps I ought to make it plainer, they will be paupers and not allowed to vote.

Yours sincerely,

MARY.

Harbour Grace, Sept. 28, 1912.

MORE MEN EMPLOYED.—Both companies at Bell Island are rushing matters at present and upwards of 300 men who had been fishing were put to work. The fall shipments of ore will be frequent and heavy and it is expected that the total output this year will be the largest yet recorded.

Special Evening Telegram.

LONDON, Sept. 30.

The Near East situation is considered in diplomatic circles here, as distinctly serious, although officials are disposed to be optimistic. This feeling is widely shared, in consequence of the lateness of the season, and the fact that the Powers are working in concert, and tendering advice to the Balkan States to keep the peace. The stoppage of the passage of Serbian ammunition by the Turks is regarded as the most serious incident so far recorded. The Serbians take this as a grave affront, and demand its immediate release. The Serbian charge d'affaires here states that Serbia is just as anxious as the point of demanding reforms in Macedonia. Turco-Grecian relations have improved since Turkey apologized to Greece for firing by Turkish troops on a Greek steamer. The Bulgarian proclamation of general mobilization has, on the other hand, added fuel to the Balkan fire.

Klark-Urban Co.

Will Open Next Monday Evening.

No company traveling to-day has a more enviable reputation than the well known and popular company bearing the name of Klark-Urban who will appear at the Casino Theatre for a limited engagement commencing next Monday evening. It is an organization that is accepted throughout the country as a standard of excellence, and the reputation it has acquired during the past ten years of unvarying success will be more than sustained during the present season. The company is headed by Miss Maisie Cecil and Harlan Klark, and the supporting company is large and well balanced, containing in its roster some of the best artists in the theatrical profession. It is perfectly equipped with all the attributes necessary for first-class performances, every play being presented with all special scenery and electrical effects. The following high class vaudeville acts will be introduced at each and every performance. The great "Irving" society magician; Billy Hebb, comedian and dancer; Al Canton, comedy singer; and Klark Urban and Schreiber, musical artists. The opening play for Monday and Tuesday evenings will be the great New York success, "The Man of the Hour," and will be produced with all special scenery and electrical effects the same as the original production. Seats at the Atlantic Book store, Friday morning.

A Lively Time.

When the Fogata was at Fredericton this trip her anchor became unsekked and she drifted down on the schooner Era, both bursting one of her chains. The people on board her in slacking the vessel's other chain let it all run out, when she drove ashore on the Point, just off Benister's wharf. So that the Fogata would not do further damage Capt. Barbour ran a "spring" aboard Benister's schr. "Ethel G." and this held the ship but for which much damage would have been done. To get the Fogata out of her dangerous predicament, Capt. Barbour ran a cable on board Robt. Wheaton's schooner as he could not use his steam without doing further damage. The Wheatons became indignant, went off to their schooner and ordered Capt. Barbour to let go his cable from the vessel. They then let it go themselves, would not let him fasten his cable any more to the craft and used some hard language to the captain and crew and then ordered Capt. Barbour out of the harbor. The scene created some excitement and only by skillful maneuvering did Capt. Barbour get the Fogata out of a rather tight corner.

Whales Scarce.

Whales at Cape Broyle have been very scarce this summer and the Hawk for near four weeks has not taken a fish. She has only captured six which is a very poor showing. At Hawke's Harbour the Cachelot has not done so bad and has 21 to date, including several sulphur bottoms. It is hoped she will pass the 30 mark before the season closes.

THE DIANA HERE.—The Diana arrived here at 1:30 p.m. yesterday from the Straits where she was. She had been all the summer. She brought up Mr. Grant's crew and landed them at various places, except for some hook and line work the fishery is over and is reported as being very poor.

Sciatica and Lumbago

Sciatica, neuralgia and sciatic rheumatism are the result of a run down nervous system. For this reason all treatments must necessarily fail which do not build up the nervous system.

Mr. W. T. Collins, Morpeth, Ont. writes: "I afford me pleasure to be able to speak favorably of two of Dr. Chase's medicines—the Nerve Food and Kidney-Liver Pills. I had been a sufferer for twenty-five years from sciatica, lumbago and neuralgia and tried almost all the medicines I could hear of, without one particle of benefit, until I commenced to use Dr. Chase's. I noticed an improvement before I had used two boxes, and the benefits obtained by continued use have been wonderful. I have so much confidence in these two medicines that I have recommended them to dozens of my friends, and I have yet to hear of a single case in which they failed to give satisfaction."

Dr. Chase's medicines are for sale by all dealers, or Edmar W. Bates & Co., Limited, Toronto.
