**GERMANS PRESSING HARD.**  
Special to Evening Telegram:  
LONDON, Oct. 7.  
The official Press Bureau tonight issued the following: North of the Oise and at Lens there is hard fighting. Elsewhere slight advance or retreat varies throughout the line. The reports are generally satisfactory. The French army is fighting with great brilliancy and bravery. The Germans, attacking Antwerp, have made forward their positions against considerable resistance by the garrison.

**OFFICIAL FROM PARIS.**  
PARIS, Oct. 7.  
The following official communication was given out in Paris this afternoon: On our left wing the battle still continues with great violence. The opposing fronts extend into the region between Lens, nine miles northeast of Arras, and Labasse, 13 miles southeast of Lille, and are lengthened by masses of cavalry which are in grips as far as the vicinity of Valenciennes, nine miles northwest of Lille, and virtually on the Belgian frontier, extending from Somme to the Meuse. There is nothing to report in the Woerwaer district. The enemy made a new effort to stop our progress but their attacks again failed. In Russia the German army was defeated in the battle of Augustow, which lasted from Sept. 25 to Oct. 3. Despite the endeavor to arrest the Russian pursuit at prepared positions along the line of the Wirballen frontier at Lyck, the Russian troops continued their advance, and at several places they have penetrated into East Prussia. To sum up, the German offensive on the Niemen has been brought to an end by a complete check, accompanied by very considerable losses.

**ST. PIERRE BULLETIN.**  
PARIS, Oct. 7.—(Official).  
On our left wing the battle continues with great violence. The opposing fronts reach right up to the vicinity of Lens-La-Basse and heavy troops of cavalry extend and are engaged along the line up in the region of Arras. On the front from the Somme to the Meuse nothing is to be noted. In Woerwaer the enemy made another effort to stop our progress, but their attacks have again failed.  
Prussia.—The German army was beaten in Augustow battle, which lasted from 25th September to 3rd of October. Now the enemy are making a heavy effort to check the Russian pursuit, and are fortifying positions on the frontier from Wirballen to

Lyck. The Russian troops continue their invasion and have crossed the Prussian border on several points. To sum up, the situation of the German offensive on the River Niemen has turned out a complete defeat with very heavy losses.

**GERMAN TORPEDO BOAT MINED.**  
LONDON, Oct. 7.  
A despatch received here from Amsterdam, says that a German torpedo boat destroyer is reported to have been sunk by a mine off the Estuary of the Ems between the Netherlands and East Friesland in the North Sea.

**SUBMARINE'S GOOD WORK.**  
LONDON, Oct. 7.  
The Admiralty tonight issued an official announcement that the British submarine E 9 had successfully returned to her base after sinking a German destroyer off the mouth of the Ems river. The E 9 is commanded by Lieut. Commander Horton, and this was his second successful raid into German waters. Earlier she sank the German cruiser Hecla in the North Sea.

**CANADA'S ADDITIONAL FORCE.**  
OTTAWA, Oct. 7.  
The character of the additional expeditionary force of 23,000 men, whose mobilisation the Government has announced, will depend on advice from the War Office. It will probably include a large quota of Mounted Infantry, raised in the West and Infantry drawn mostly from the East. Mobilisation and equipment will take place at Divisional headquarters, instead of in a central camp like Valenciennes. The whole force will be assembled at Halifax for embarkation.

**NOW NORTH OF LILLE.**  
Special Evening Telegram:  
PARIS, To-day.  
An official communication issued by the French War Department last night announces that ground previously ceded by the French between Chauncy and Roye has been retaken, and that on the French centre the French have advanced on certain points. "Except on the two wings where the German attacks have been repulsed there has been nearly a complete calm along the front. On our left wing, the German cavalry has been held in check north of Lille and has been driven back between Chauncy and Roye ground previously ceded has been retaken. On the cen-

tre we have made advance on certain points. There is nothing to report on our right wing."

### RUSSIANS CHECKED ON RUSSIAN FRONTIER.

**PETROGRAD, To-day.**  
The Russian General Staff to-day issued the following: "On the East Prussian frontier, the Germans having brought up re-inforcements from Koenigsberg continue to oppose with fanatical resistance upon the battlefield of Vladislavoff and Ratchka, profiting by the defiles, lakes and marshes in the region of Tchernagagna. Beyond the Viatka advance guard battles have occurred in the region of Opaslaw and Sandomir. In the Carpathians, west of River Sanok, an Austrian detachment was defeated, machine guns, an artillery park, numerous captured and prisoners captured."

### GERMANS ADMIT EXTENSION OF FRENCH WESTERN FLANK.

**BERLIN, To-day.**  
The following official announcement was given out at the Headquarters of the staff of German army on the evening of October 6th: Continuous French out-flanking movements against our right wing have extended the battle front until now it is north of Arras, west of Lille and west of Lens (nine miles N. E. of Arras). Our advance guards are in touch with the enemy's cavalry. No decision has yet been reached in our counter attacks along the line between Arras, Albert and Roye. The situation remains unchanged along the battle front between Oise and Meuse, in the vicinity of Verdun and Alsace Lorraine. There is no news from Antwerp. In the Eastern theatre of war the Russians, advancing against East Prussia through the province of Suwalki has been checked. We have been successful in our attack against enemy near the town of Suwalki. This movement began yesterday.

**LONDON, To-day.**  
A despatch from Ostend says: "Numerous skirmishes occurred yesterday morning between advance posts in the environs of Ypres (in Belgium 20 miles south of Ostend) and in the Southern parts of West Flanders. The Germans threw themselves on the forts and entrenchments."

### LANDING OF CANADIAN TROOPS EXPECTED.

**LONDON, To-day.**  
Canadian troops will be landed in England to-day and sent to the training camp.  
**DISTRESS IN COTTON TRADE.**  
LONDON, To-day.  
David Lloyd George, Chancellor of the Exchequer, in a speech to a deputation of the workers of the National Committee said he was not at all sure that they were not a little premature in anticipating a very considerable amount of unemployment as the war progressed. The demands on the industries in this country, the Chancellor said, would be enormous, but in the cotton trade dis-

trous undoubtedly will be severe. That was the only trade, he added, which had completely broken down thus far.

### BELGIANS FIGHTING HARD AT OUDENARDE.

**LONDON, To-day.**  
A despatch to the Central News from Amsterdam says a message has been received here from Ghent saying fighting of a violent character had taken place between Oudenarde, fifteen miles south west Ghent and Leupeghe, a small town a mile from Oudenarde. After hours of the engagement, the Belgians received re-inforcements and threw the Germans back with heavy losses.

### THE ENTENTE AND THE DARDENELLES.

**PETROGRAD, To-day.**  
The Foreign Minister announced yesterday that the Powers, comprising (Triple entente) Russia, Britain and France, are taking steps to secure the re-opening of the Dardanelles.

### GERMAN STUFF DOLLS WITH PLANS OF ENGLISH COAST.

**LONDON, To-day.**  
Making and dressing dolls was the innocent looking occupation of a German spy, arrested on the Yorkshire coast, garbed as a woman but in reality a man. Instead of the usual sawdust stuffing, the dolls' bodies contained carefully prepared maps of the East coast. The arrest strengthens the demand being made in many quarters that all Germans should be prohibited from living within 50 miles of the East coast.

### ANTWERP CONSIDERED SAFE.

**LONDON, To-day.**  
Leonard Spry, wiring the London Daily Telegraph from Belgium says: "There is nothing as yet to indicate the possibility of the Germans being able to secure possession of Antwerp or even to invest it successfully. Everything points in the opposite direction. The resistance of the advanced forts is comparatively small. The results of several days' bombing by siege guns and the failure of successive infantry attempts to break through, carried forward by the Germans, have been with bravery and utter indifference to loss of life involved. Another factor is, so far as can be ascertained, that the Germans have not been able to employ their heaviest siege guns, those of forty-two centimetres against Antwerp. The greatest calibre they use in the siege is twenty-eight centimetres."

### REID ARRESTED AGAIN CHARGED WITH USING FORGED DOCUMENT.

**MONTREAL, To-day.**  
Robert H. Reid, accused of obtaining the sum of \$750,000 by false pretences and the value of 7,500 shares of the Labrador Lumber and Pulp Company of St. John's, Nfld., while out on \$40,000 bail, was re-arrested in Montreal yesterday morning. The information received at the Detective headquarters from the Chief of Police Richard, of Halifax, that Reid was wanted at that city on the charge of dealing with a forged document, knowing the same to be forged. Reid was arrested in Montreal on a \$750,000 case, and after the evidence of T. Smith, Secretary of the Pulp Co. had been given, the case was adjourned until the 12th. The second charge against Reid is that he, on October 25th, 1912, knowing certain preliminary notes purporting to be signed by McMartin, Robert Reid, D. Ford and H. McMartin to be forged, did deal with such document as if it were genuine. The note, it is alleged, was made out to Job Bros. & Co., of St. John's, Nfld. Detective Hanrahan, of Halifax made the arrest. Just as Reid emerged from the Court House as an outcome of this arrest, Reid who had been out on \$40,000 bail since his first arrest last Saturday, is being kept in custody until to-morrow when he may be given a hearing.

### RAILWAY LINE CUT.

**LONDON, To-day.**  
The Daily Mail's Belgium correspondent says that the Ostend railway line has been cut between Courtrai and Thourout.

### IN HOME WATERS.

**LONDON, To-day.**  
The Canadian troops, it is announced, arrived in Home waters to-day.

### DROP BOMBS IN ANTWERP.

**ANTWERP, To-day.**  
The condition of panic among the population was increased to-day by the appearance of a German air craft which dropped bombs destroying several houses and killing a score of people.

### GERMAN FIRE SHACKLING.

**TOKIO, To-day.**  
The following official despatch was issued here this morning: "At Tsing Tau the German fire is slackening. During the fighting a rope holding a German captive balloon was cut and the balloon floated away."

### IS BULGARIA FIGHTING SERBIA?

**LONDON, To-day.**  
The Central News quotes the Vienna Reichspost as stating that furious fighting has taken place between the Bulgarians and the Serbians, and that Bulgarians have besieged Titov. Serbians. If this despatch is true, it would indicate that the Bulgarians have entered war on the side of Germany and Austria. There is no official notice that such a course has been taken.

## Thoughts are Sparks

—flashes of the mind that decide for success or failure.

### The question is, what kind of sparks does your brain generate?

The brain, like a battery, must be supplied with certain elements to generate thought properly. These brain elements are water, albumen and phosphate of potash. If any of these are lacking in the daily food, brain and body energy are vitally lessened.

Are you lacking? Listen! Water and albumen are plentifully supplied in ordinary food, but phosphate of potash—along with other mineral elements—is almost wholly lacking in white bread and all white flour products.

# Grape-Nuts

—containing all the nutriment of wheat and barley, including the precious phosphates so essential to perfect bodies and active brains, provides a food at once delicious, nourishing and economical.

A morning dish with cream furnishes POWER for accomplishment that many a man has come to appreciate.
