After Scarlet Fever, Diphtheria, Pneumonia and other prostrating diseases, Hood's Sarsaparilla is unequalled to thoroughly purify the blood and give needed strength. Read this:

"My boy had Scarlet Fever when 4 years old, leaving him very weak and with blood poisoned with cancer. His eyes became inflamed, his sufferings were intense, and for 7 weeks he could not even open his eyes. I took him to the Eye and Ear Infirmary, but their remedies did him no good. I began giving him Hood's Sarsaparilla. It cured him. I know it saved his sight. It is the very life." ARTHUR F. BLACKMAN, 2888 Washington Street, Boston, Mass.

Is the Way London Defeated Petrolia at Football.

The Alerts Challenge the Cobourgs First Day of the Windsor Autumn Race Meeting.

**BASEBALL.**  
ALERTS CHALLENGE COBBOUGHS.  
The Alerts of this city, have issued a challenge, with a deposit of \$25 as a guarantee of good faith, to the Cobourg Baseball Club, offering to play the latter in Toronto on Wednesday or Thursday, Oct. 18 or 19, for \$200 or \$500 a side. If the challenge is accepted the Alerts will represent the Alerts of the Alerts office on Monday next at 2:30 p.m. to attend to preliminaries and put up the stakes. The challenge remains open until Friday.

**FOOTBALL.**

LONDON VS. PETROLIA.

The first game of the intermediate championship matches between the above teams was played at Greenwood Park, Petrolia, yesterday afternoon and resulted in a hard fought victory for London.

The game started at 3:30. Petrolia, winning the toss elected to defend the western goal, thereby having the sun at their backs and a strong wind in their favor. The ball was set in motion by Belz, who kicked well into Petrolia's goal.

Here a series of scrimmages followed and after twenty minutes hard play (London) heeled the ball out to Hobbs, who passed to Belz, who made a very pretty drop kick on goal. First points scored and five for London. The oval was immediately set in motion by London, who kicked the ball well down the field in touch. On the throw out London had a decided advantage, and after numerous hard play near London's goal secured a touch in goal—one point for Petrolia. The ball was again brought into play at the 25-yard line, and Petrolia passing the London back compelled him to range—one more point for Petrolia. Belz, for London, set the sphere in motion more by a fine kick well down the field, which was promptly returned by Petrolia. A series of scrimmages followed London's 25. The pig skin being heeled up, Petrolia's quarter passed to the half, who kicked over London's goal line, and the forwards following well up secured a try, which was converted to a goal by Anderson—six points more for Petrolia. After this, the ball remained pretty well in the center of the field, and stayed there until a referee's whistle sounded for half-time. Score: London 5, Petrolia 8. After a rest of ten minutes the game was started, London defending the western goal, which the game gave them the advantages that Petrolia had had in the first half, and they were not slow to take advantage of it. "Snap," as the following will show: After kicked off for Petrolia and the ball was returned by Walker, who ran well up the field and then kicked into touch. The following throw out, a series of dribbling runs on the part of Petrolia followed, and it was during one of these that Belz made a successful flying kick in goal—four points for London. On the kick-off by Petrolia, Walker, for London, secured the ball and made one of the most beautiful runs of the day, but was quickly checked by Petrolia's halves. Here some more scrimmage work followed: the ball finding its way out to London's goal, Belz made another risky flying kick on goal, which fortunately turned out successful—four points more for London. The game started again and Petrolia worked with a determination to win, but the only "Doo" Slippi intervened getting possession of the ball and making a magnificent run up the field, propelled the ball into touch—four points more for London. As will be seen, was having the best of this half, but the boys did not let up until they had compelled Petrolia to range twice in rapid succession—two more points.

This ended the scoring for both teams, and although London tried hard to get a touchdown towards the last they were prevented from doing so by the sharp and hard

play of the Petrolia team. Thus the game ended in favor of London by a score of 16 to 8 points. To particularize the play of either team is unnecessary, as every man played a hard and unselfish game. Mr. H. C. Pope, of Osgoode Hall fame, umpired the match to the satisfaction of both teams. Below will be found the teams:

PARKERSBURG, W. Va., Oct. 10.—The above contest last night at Bienerhasel Island between Jack Burke, of Texas, and Charles H. Slusher, of Kentucky, resulted in a victory for Burke after ten rounds. A purse of \$500 was given. Burke and Slusher arranged for a fight for a purse of \$7,000. Slusher was badly punished.

**BOXING.**

If Corbett defeats Mitchell in December the National Sporting Club, of London, will offer a big purse for Corbett and Jackson.

There is no such club in Vicksburg as the Metropolitan, which was reported to have offered \$50,000 for the Mitchell-Corbett fight.

At the Metropolitan Association's championship meeting on the New Jersey Club grounds on Saturday J. S. Mitchell, of the New York Athletic Club, made a new world's record of 35 feet 9½ inches for throwing the 56-pound weight. Connell won the five-mile race easily from E. C. Carter, Willie Day giving up.

**WILL TRY AGAIN.**

NEW YORK, Oct. 10.—The Mail and Express to-day says: "If the Valkyrie loses another race with the eighth mark for the American cup, as it is now conceded the will, another challenge for the trophy will be offered, the race to be sailed next season. It will come from an English yachtsman whose name Earl Dunraven has in his possession."

"Gentle As the Summer Breeze."

"I'd rather take a crushing any time than a dose of pills," growled a patient to whom the doctor has prescribed physic. "I'd as lief be sick with what ails me now, as to be sick with the pills."

"I don't think you've taken any of the pills I prescribe, or you wouldn't dread the prescription so." "I'd as lief be sick with what ails me now, as to be sick with the pills."

"I never use the old, inside twisters you have in mind. I use Dr. Pierce's Pleasant Pellets. They always make me think of a part of an old hymn—

They declare the priests are canvassing against Ferguson and that the Church in Toronto has arrayed itself against his ticket. The feeling is running very high and bitter.

**Drowned in Sugar.**

PHILADELPHIA, Oct. 10.—Frederick Frick, 43 years old, was smothered in sugar in the Sprinkles refinery at Reed street wharf. He was alone at the time of his death. He had gone to work in the evening in his usual good health and about 4 o'clock found in the melting room in an unconscious condition by Foreman Quittemeyer. Frick's duties consisted in shoveling raw sugar from a large box as it came from an upper floor through a chute into a car that carries it to the vats. The foreman observed that the cars had been running empty and went where Frick was supposed to be at work to learn the cause of it. Frick partly buried beneath a pile of sugar that had kept on running from the floor above and had fallen upon the prostrate man, who is supposed to have fallen to the floor in a faint or from heat, disease, or asphyxiation. At least two feet of sugar covered his head and shoulders.

The Wabash Line—Wabash Motive Power—Eighty Miles an Hour.

The monster locomotives used in the Detroit, St. Louis and Chicago service of the Wabash line, built entirely by Wabash employees at the Wabash shops, Springfield, Ill., and are, without question, the most perfect, fastest and most powerful engines in the country. They weigh, including tender, 89 tons each, are an improvement upon the best of the world, capable of making and sustaining a speed of 80 miles an hour. This rate of more than a mile a minute was repeatedly made recently between Detroit and Chicago. When on high speed power, the unsurpassed record of the line for always being on time is not to be wondered at.

HERE, THERE AND EVERYWHERE.

AN ELECTRIC funeral car is a California innovation. About nine miles distant from San Francisco are four large cemeteries and a crematory, and it was to bring them near the city that an electric railroad company introduced the new hearse.

A YOUNG man from the country went to the fair at Chicago last week and before he could escape he had married a wife. Unless directors of the exposition take more effective means of protecting visitors they cannot hope for an increase of attendance during the remaining days of the month.

HENRY LABOUCHERE's unknown tormentor, who caused wagon loads of goods to be sent to the editor of Truth, who had never ordered them, has now turned his attention to Mr. Cairne, another member of Parliament, for whom he has obligingly placed large orders with carpet manufacturers, furniture dealers and jewelers. The joker has thus far eluded the police, although his operations have extended over a period of nearly a year.

ST. HELENA is again the prison of royalty. Dinalul, the son and heir of Citywayo, the Zulu king, and Undabuko, brother of the same monarch, are kept in captivity there by the British. Owing to the climate, which is much more severe than that of South Africa, the boys have to wear blankets or some other heavy covering all the time. Their health is bad and it is not believed that they will ever leave their island prison alive. The English Government probably does not intend that they shall.

BORNEO MISERGO, who occasionally changed his name to Tipoo Tib, is a red-headed Zulu who has been doing a rushing business down New England as a professional convert to Christianity. He has been in great demand at revival meetings and other church gatherings, where he related his experiences in the Zulu land, yet unconverted. It was found, however, that Borneo was the only heathen the funds ever reached. It was also discovered that he was not a Zulu at all, but a plain, ordinary American drunkard. Thereupon the police took him in charge as an impostor and he now languishes in prison.

IN ENGLAND the period of mourning for a father-in-law is twelve months—ten months black, two months half-mourning. Grief is seldom worn, although the era period was formerly six months. For a parent the period is the same as above. The longest period for a brother is six months—five months black, one month half-mourning. The era period was formerly three months. It is now almost discarded. The shortest period is four months black, no half-mourning. The period of mourning for a father-in-law is often shortened to six months when relatives reside at a considerable distance from each other.
