They expect that several train loads of Port Huron people will come to London on that day.

These same gentlemen visited several other places before deciding to run their excursion here, and Londoners will be glad to know that on their trip they found no place which they to arrange to have one of the band conconsidered more attractive or more suitable than this city. It is the first time in very many years that such an excursion has been run to London from an American city.

### CANNOT ENFORCE BYLAWS NOTES FROM THE CAPITAL

Immediate Action.

Railway Co. Expires End of Week.

In the ordinary course of events next Monday would be the last day of grace that the street railway company would have before it would become necessary for them to observe two of the bylaws that the council passed at its last meeting. These two refer to the routes upon which the cars shall run and the time that they may take. In the former bylaw is the clause which refers to the operation of cars on Rectory street. Its enforcement means the reconstruction of the line on that street. The reason why the bylaws will not become operative within the usual ten days is that the Rectory street sewer will not permit the running of cars along that thoroughfare, and therefore the city cannot compel the company to abide by the bylaws. The same difficulty exists, of course, in regard to running the cars according to the time-table established by the council. For the reason it is probable that days of grace will extend beyond the time when the sewer shall be completed. This means that the threatening dispute between the city and the company will at least be delayed, as it is not unlikely that the company would fight any attempt on the part of the counci to force them to re-establish

Club's Hospitality.

and Stay Longer.

The following letter has been received by the popular secretary of the London Bowling Club: J. S. McDougall, Esq., London, Ont .:

My Dear Sir: It was only a swift running shot that prevented us from being shut out in the finals with Conauctor Hunn's special for Stratford, and as a consequence our farewells were necessarily short and limited in number. I have, therefore, been requested by the members of our bowling club, who were at the tournament, to thank the members of your club through you for the excellent time we had and for the many kindnesses F. A. O'Neill leave today for a holiday shown us while in your city. On the trip to Halifax, Boston, New York and green everywhere good fellowship was supreme, but the crucial test of hospitality on such occasions generally arises in the evening, and here, too, the members of your club excelled themselves. Never for a moment were we allowed to pine in loneliness.

There was always some person around to keep things going, and as a result our boys are loud in their praises of the time they had in London. In fact, one of them was telling me this morning that he had had such a good time that he hasn't got over it since. The tournament was certainly a most gratifying success, and the person who did not have a right good time must look for the fault in himself, and not in the London boys. The only mistake we made was in not coming prepared

to stay longer. This we have decided to overcome next year, and if then it is our good fortune to go to London, we will go prepared to stay a whole week instead of two or three days, so that we can take in everything from the trophy own to the last game of singles and doubles. Again thanking you and the other members of the London club for very many kindnesses, I am, respectfully yours, W. D. MACLEAN, Secretary, Seaforth Bowlng Club.

Bowlers Delighted With London Nowhere Improved and in Many Places Still Worse.

Promise to Come in Force Next Year Record-Breaking Rise in the Water at San Marcos-Lives Lost.

> Dallas, Tex., July 30 .- The flood situation was nowhere improved in Southern Texas vesterday, while in many places it was worse, and the area of destruction greater.

One life was lost in the flood during

the day. San Marcos experienced the most destructive flood ever known there. The water went 3 feet higher than the record in the great flood of six years ago. The property loss there will amount to thousands of dollars. At Upland, G. Smith, a blacksmith, was drowned in Plum Creek. The

stream is a mile wide at Lockhart. Advices from Cameron say that hundreds of acres of fine cotton are under water from the overflow of the Brazos and Litte Rivers and their tributaries. Galveston, Texas, July 30 .- Heavy rains were reported from all stations south of Waco Monday night, and the river was rising at Hearne, Richmond Vaco and other places. Late reports indicate that unless the rain soon ceases the damage will exceed all previous records. The Santa Fe Railroad is suffering considerable damage, and all trains of the main line are delayed.

IN DAKOTA. Grand Forks, N. D., July 30 .- Late reports show that the storm of yesterlay was probably the most widespread and destructive of any that has ever visited the state. An immense wave seems to have traversed the northeastern part of the state, developing centers here and there, whch visited various localities with wind, hail and rain. Damage was done in Pembina, Walsh, Grand Forks, Ramsay, Trail, Nelson and Caval counties, the losses being so numerous and so widespread that it is as yet impossible to give accurate estimate of their total loss.

HAIL BELTS varying in width and severity are scattered everywhere and the damage by wind and lightning is considerable. The section which appears to have suffered most is that in a belt crossing the Great Northern line near Michigan City.
