# RUBBER SHARES TAKE BIG DROP

Omission of Kelly Springfield Dividend Creates Unsettlement in Stocks.

New York, April 15—Wall Street noon.—Omission of the Kelly-Spring-field dividend accentuated the selling pressure against the rubber shares and added to the unsettlement in other sections. United States Rubber first preferred broke 7½ points, while the common extended its loss 2½ points to 25. Kelly-Springfield common sold down 1½ to 12½, the lowest level of the year. Under continued attacks, Porto Rican Sugar dropped 5½ points, and Tidewater, Producers and Refiners and Stnadard Oil of California yielded 1 to more than 2 points. # MONTREAL POWER LEADS MARKET

Closes at 1511/2 For Net Gain of 13/4 Points at Morning Session.

Canadian Press Despatch.

Montreal, April 15.—An easier tone again prevailed on the Montreal Stock Exchange this morning, gains outnumbering losses by a wide margin in a broad range of issues. Trading was slightly more active than in the corresponding period yesterday. Montreal Power had the largest turnover of the session, and closed at 151½ for a net gain of 1¾ points. Second in volume of business came Spanish River common, that stock after opening at 96 moving up to 98%, and closing at this figure for a net gain of 2% points, which made it the strong point of the list. Steel of Canada came third in activity, and after selling as high as 71½, fell away to 71 for a net gain of ¼.

cash interests are preparing for delivery day.

The future action of the wheat market depends mainly on the disposition of the May delivery.

There is nothing to indicate that shipping interests or millers will be particularly interested.

Visible supply figures show a wheat decrease of 1,984,000; corn decrease, 1,857,000; oats decrease, 932,000; rye decrease, 95.000.

# **NEWSPRINT**

-the Giant that grew out of our Forests and Rivers

The growth of our Newsprint Industry has been astounding. From 1913 to 1917 it almost doubled, and at the end of 1923 it had practically doubled again, reaching the estimated total of 1,250,000 tons! Imagine the wealth this brings to Canada, and the vast field for employment it provides.

This Giant Industry has grown logically to meet an ever-increasing world demand for Newsprint. There are sound reasons why it must continue to grow.

We have prepared an interesting analysis of the Newsprint Industry. A copy will be sent upon request.

Trade sentiment in wheat and corn largely bearish, but there is so little elling pressure, other than by shorts,

New York, April 14.—Rezewed weakness developed in the local raw sugar market today, with prices declining % to the basis of \$6.03, duty paid, for Cubans. There were sales of 13.500 bags of Cubans afloat to an opjerator, and 170,000 bags for April shipment to a local refiner at \$6.05. Later there was a sale of 24,000 bags of Cubans. April shipment, at \$6.03, duty paid.

The weakness in raws and continued light inquiry for refined led to heavy general selling in raw sugar futures. Stop-loss orders were encountered on the break, and final prices were at about the lowest and from 22 to 24 points below Saturday for active positions, May \$4.33, July \$4.49, September \$4.45. December \$4.02.

Refined sugar was weak and from 20 to 40 points lower, owing to reduced cost of raws. Fine granulated is now quoted at \$8 to \$8.10, but demand was light. Refined futures were nominal.

Canadian Press Despatch.

Canadian Press Despatch.

Winnipeg, April 14.—Higher Liverpool cables and some indication of an improved demand from the United Kingdom developing gave today's wheat market strength at the start, but after the higher opening values eased off, in sympathy with lower prices at Chicago. The trade volume was fairly active at times, and there was evidence that exporters were taking hold and—were buying large amounts for future shipment. The country was again selling May wheat, but all offerings found ready buyers. Line elevators bought May and sold July around 2½c difference.

At the close May was unchanged, July ½c higher and October ¼c higher. While the future coarse grains all showed a firm undertone, there was little business being worked, with only moderate offerings coming out. Flax was steady on a light trade. There was not much change in the cash wheat situation, with all spreads reported unchanged, with the exception of No. 3 northern, which advanced ½c. There was a moderate trade worked in cash oats, while barley was stronger, and spreads advanced fractionally. Rye was very dull. Flax advanced ½c, with Canadian and United States crushers taking all offerings.
