Perhaps no paper has ever appeared in the Colony with a more promising future; and certainly none has met with a more disastrous end. Its editor, a man of much talent as a writer, yet lacking sadly in judgment, has pursued a course that can only be attributed to the influence of bad advice upon a mind that possesses no fixed political principles. "Honesty is the best policy" for newspapers as well as individuals: and the journal or person that loses sight of this truism and plunges into a course of dishonesty and doubledealing, will surely come to the ground. In his valedictory, the editor of the Telegraph hints at the "official patron age" and the "mercantile support" which, he says, the Colonist has enjoyed; but consoles himself with the being crowded.
