

The Campbellton Graphic

J. G. MCCOLL, EDITOR H. B. ANSLOW, MANAGER

CAMPBELLTON, N. B., AUGUST 25, 1911.

No need of a saw off. Let's beat the whole bunch.

The Battle Cry, Reid, Restigouche and Reciprocity.

The Liberals are confident that James Reid can beat any combination of candidates in Restigouche.

We may presently be paying more for our English goods, as a result of scarcity, caused by the strikes, which are affecting transportation.

Some enthusiastic Tory in St. John has written a campaign song. Oddly enough it is to be sung to the tune, "There's nae luck about the house."

Well! Ossie has his match. Dr. Atherton of Fredericton has been nominated as the Liberal Standard bearer for York and the Conservatives are on the run. Just watch the numbers fly.

Mr. O. S. Crockett predicts that the Conservatives will carry from seven to ten seats in New Brunswick. The campaign, therefore, is not without a touch of humor here and there, even when the joker does not mean to be funny.

If the United States is not a market for us, will some Tory editor please tell us why we sell lumber, hay, hams, geese, smelts, etc., to the United States now in spite of the duty? Now please don't all speak at once.—Sackville Tribune.

Canadian reciprocity means inevitably the extension of many small news print producers in the United States. Probably another five years will see twenty-five per cent of International Paper Company's business done in Canada. The company sold \$23,957,745 worth of paper in year ended June 30.—Boston Despatch.

An Ottawa paper says: "A Warkerville automobile factory is enlarging its plant in anticipation of reciprocity, even though the duties upon autos are not to be reduced under the agreement. Its managers are business men, and they know that the more prosperous the farmers become the more demand there will be for automobiles."

"I have been in Gaspé for two weeks, speaking in every corner of it," said Mr. J. L. Perron, M. P. P., to a "Witness" reporter, "and it is Lemieux everywhere, and all the way. Amongst Liberals, Conservatives and Nationalists alike, the only anxiety seemed to be to ascertain whether the Hon. Mr. Lemieux would run or not. Mr. W. A. E. Flynn, the Conservative candidate, will make a hard fight to save his deposit, but I do not think the Opposition will have more than three hundred votes in the constituency."

The following from the graft organ of the local government, the Fredericton Gleamer, is certainly rich.

"In Restigouche County the Liberal-Conservative party is most fortunate in securing the services of such a popular and successful man as Mr. W. S. Montgomery. The present Mayor of Dalhousie has been one of the most active participants in the industrial life of the county for many years, and has ever been distinguished for his honorable dealings towards all with whom he came in contact in his large business interests. A man of parts, he will prove a very worthy representative of the important constituency on the North Shore."

"This cannot safely be in reference to our Billy Montgomery, the man of Chappel fame, and the one who sold the swamp land to his native town, a worthy representative of trusts and deals. It certainly is a huge-joke on Billy—"

BASEBALL LEAGUE (Continued from page one)

Table with columns: TOWN, AB, R, H, PO, A, E. Rows include O'Brien, Mailley, Wood, Pond, Mowat, Cassy, McAleese, Mooney, Allison, McCullum, Mercereau, Ferguson, Paterson, Moores, Lacey, Delaney, Wall, Lennard.

Struck out by Moores 7, by Mooney 4. Left on bases Town 2.

LEAGUE TABLE

Table with columns: Won, Lost, Per C. To play. Rows include I. N. R., Mechanics, Town, I. C. R.

This table gives credit for protested game between Town and Mechanics to the latter team, pending decision on the protest.

LEAGUE SCORERS

Table with columns: Name, Score. Rows include J. Keefe, Davis, Bass, Ahearn, McCallum, Miller, Mercereau, Keith, O'Connor, Lavoie.

BASEBALL GOSSIP

The baseball committee have made arrangements to supply Campbellton with a good days entertainment on Labor Day. There will be two games with an All-Moncton team with Gerald McLellan the former Campbellton south paw in the box for Moncton. McLellan has a good record having one no hit no run game to his credit this year. Campbellton boys have made arrangements to have their strongest line-up on the field and the followers of the game will sure see the game of the season.

DOUBLE WEDDING

A double wedding took place at eight this morning in the pro cathedral with Rev. Fr. O'Keefe officiating. The principals in the first ceremony were Lester S. Daley of Loggieville and Miss Catherine Moran daughter of William Moran, Chatham. The young couple were attended by Miss Helen Moran, sister of the bride, and Thomas Croftie. The second couple were John D. Daigle of Douglastown, and Miss Margaret Muszeral of Chatham. They were attended by Leonard

THE POWER OF SYMPATHY.

Notices Too Often Form a Habit of Constant Reproof.

Although conscious of the power of sympathy, many loving but overburdened mothers not only forget to show affection but form a habit of constant reproof. Naturally enough the children, unless exceptionally callous to their surroundings, become sullen and resentful. How can they realize that the nagging is an expression of anxious affection?

When Johnny comes rushing into the house full of enthusiasm over some new play or new idea, and eager to tell his plans, such a mother exclaims, "How many times have I told you to wipe your feet before you open the door?" The greatest sin of his enthusiasm, and hurt and wounded, he draws back into himself, and will not again expose himself to such a snub. He confides in her less and less as he grows older, and she wonders why.

There is sound psychology in the statement that if you believe a man is honest he will be honest; that if you trust a young man he will prove trustworthy; that if you make a child he will deserve praise. Benjamin West's mother kissed her boy when he showed his drawing to her, and the next afternoon to his mother, said that her kiss made a painter of him.

A DAVENOUS INDUSTRY.

How the Paper Makers Are Destroying the Forests of the United States.

The forests of the United States now cover 550,000,000 acres, or about one-fourth of the area of the country. Forests publicly owned contain one-fifth of all timber standing. The timber privately owned is not only four times that publicly owned but it is generally more valuable.

Forestry is not practiced on 70 per cent of the forests publicly owned and on only 1 per cent of the forests privately owned, or only 13 per cent of the total area of the forests. The original forests of the United States contained timber in quantity and variety far beyond that upon any other area of similar size in the world. They covered 850,000,000 acres with a stand of not less than 2,200,000,000,000 board feet of merchantable timber, according to present standards of use. There were five great forest regions—the northern, the southern, the central, the Rocky Mountain and the Pacific.

The present rate of cutting is three times the annual growth of the forests of the United States. The great fisheries of the Lake States are nearly exhausted and great inroads have been made upon the supply of valuable timber throughout all parts of the country.

The heavy demands for timber have been rapidly pushing the great centres of lumber industry towards the South and West. In consequence, the State of Washington has lost for several years in lumber production, followed in order by Louisiana, Texas, Mississippi, Wisconsin and Arkansas. In 1908 the production of yellow pine lumber amounted to eleven and one-quarter billion feet; the Douglas fir of the Northwest to two billion feet, with three and two-thirds billion feet of white pine came third, with three and one-third billion feet.

The annual cut from the forests, including waste in logging and in manufacture, is 20,000,000,000 cubic feet of wood.

There is used in a normal year 90,000,000 cords of fire wood, 40,000,000,000 board feet of lumber, 18,000,000,000 shingles, 1,500,000,000 staves, 12,000,000 sets of heading, nearly 500,000,000 barrel hoops, 2,000,000 cords of native pulp wood, 155,000,000 cubic feet of round mill timbers and 1,200,000 cords of wood for distillation.

In 1909 4,022,000 cords of wood were used in the manufacture of paper, of which 700,000 cords were imported from Canada. The demand for pulp wood is making a severe drain on the spruce forests, which furnish the principal supply. The Forest Service of the United States Department of Agriculture is conducting investigations to determine what other woods, such as scrub pine, white fir, tupelo and the like, can be successfully used.

A larger drain upon forest resources is made by the demands for railroad ties, of which 123,754,000, equivalent to three and three-quarters billion board feet, were used in 1908. White oak, hitherto the chief source of supply, is not plentiful enough to meet this demand indefinitely, and in many parts of the country the supply of chestnut, cedar and cypress is dwindling; however, seasoning and treating methods are being found, largely through the work of the Forest Service, by which cheaper and more plentiful woods, such as lodgepole pine in the Northwest and loblolly pine in the South, are made fit for use as ties. Timber to the amount of two and one-half billions feet was used in 1907 for mine timbers. A great saving has been effected in the naval stores industry, also largely through the work of the Forest Service, by the introduction of the so-called "cup" system of turpentine in place of the old destructive system of "boasting." The new systems insure a larger product of better quality and prolong the life of the best pine forests upon which the industry depends.

Fire-cumery brimer was made as early as 1860 E. C.

The same, we wish our grocer would stop scolding that kind.

Would You Provide for the Care of Canada's Needy Consumptives?

THEN SEND YOUR CONTRIBUTION TO THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

A national institution that accepts patients from all parts of Canada. Here is one of hundreds of letters being received daily—

John D. McNaughton, New Lis-leard, Ont.: "A young man not belonging here, and suffering from it is being kept by one of the hotels here. He has no means and has been refused admission to our hospital. The conditions where he is offer him no chance. Could he be admitted to your Free Hospital for Consumptives? If not, could you inform me where he can be sent, and what steps are necessary to secure prompt admission? I am a single patient and have never before been admitted to any hospital."

Since the hospital was opened in 1903, one thousand five hundred and twenty-four patients have been treated in this one institution, representing people from every province in the Dominion. For the week ending November 20th, 1910, one hundred and twenty-five patients were in residence. Ninety-six of these are not paying a charge for their maintenance—absolute free. The other twenty-nine paid from \$2.00 to \$4.00 a week. No one pays more than \$4.00. Suitable cases are admitted promptly on completion of application papers.

A GRATEFUL PATIENT. Norah P. Canham: "Enclosed you will find receipt for my ticket from Gravenhurst, hoping that you will be able to oblige me with the fare. I was at your Sanatorium ten months, and I was sent away from there as an apparent cure. I am now working in the city, and I am feeling fine. I was most thankful for the care I got from the doctors and staff, and I must say that I spent the time of my life while I was there."

THE MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES is dependent on the good-will and gifts of the Canadian public. Money is urgently needed at the present time to make it possible to care for the large and increasing number of patients that are entering the institution.

Will you help? Where greater urgency? Truly, Canada's greatest charity.

Contributions may be sent to: W. J. McNaughton, Muskoka, Ont., or to: The Muskoka Free Hospital for Consumptives, Muskoka, Ont.

FOR SALE. House and lot, 100x75, situated on O'Leary St. Apply at house between 10 a. m. and 8 p. m. MARY BROGAN.

HOUSE FOR SALE. A dwelling house, situated on Gerrard St., opposite J. B. Christopher's. Apply on the premises. JOHN CANTLY.
