EVIDENCE OF FOUL PLAY IN JACQUET RIVER MAN'S DEATH

Body Exhumed By Order of Attorney-General—
Doctors Find Goodin's Skull Fractured and
Other Evidence Of Victim Having Been
Beaten Badly—Investigation Being Contin-
ued.

The result of the post-mortem ex-
amination of the remains of James
Goodin, whose body was found last
week under the Jacquet River
bridge, was mailed to Attorney-Gen-
eral Syme yesterday by Doctors McKen-
zie and Coffey, of Bathurst, who were
the physicians instructed by the At-
torney-General to have the body ex-
humed and the examination made.

The report of the doctors bears out
the opinion of the people of Jacquet
River that the unfortunate man met
his death as the result of foul play and
states that, although the body was
badly decomposed and the doctors
could form little idea of external in-
juries, they, nevertheless, examined
the head and brain and found that
the nose was badly broken and the
skull fractured.

An examination of the brain dis-
closed the presence of clots of blood
both in the front and in the back,
which would confirm the evidence of
fracture. The man's injuries, they
classified as severe and such as could
be the result of a bad beating.

Up to this morning no further evi-
dence has been found to assist in
clearing up the mystery of the man's
tragic death but the Attorney-Gen-
eral's department is continuing its
investigation and it is probable that
several men who were seen with
Goodin on the night of his death and
who were said to have been drinking
and quarrelling with him, will be called
upon for an explanation.

After the body was found an inquest
was held and the jury returned an
open verdict. Members of the jury
are quoted as saying that they were
not satisfied with this result and the
circumstances were reported to the
office of the Attorney-General, who or-
dered an investigation. This was
started by Inspector Joshua Gammon.

DICKSON-ADAMS.
Mr. and Mrs. Donald Fraser Adams
of Metapedia West, Que., announce
the marriage of their daughter Alma
Dorcas to Alexander Boudrie Dickson
son of the late Thomas M. Dickson
and Mrs. Dickson of Broadbent, Que.,
September 20th in St. John's Church,
Campbellton by the rector, the Rev.
A. Brock Humphreys.

WINDING UP UNITED FARMERS

Legal Action Being Taken to
Enforce Payment of the
Amounts.

Fredericton, Sept. 26.—Maritime
United Farmers co-operative limited
will soon be finally wound up by the
order of the court, who are in charge
of the affairs, according to persons
familiar with the operations.

The amount of the indebtedness,
which originally reached large pro-
portions, has been materially reduced
and lately there has been made an
offer for a compromise settlement of
outstanding amounts which, it is be-
lieved, will be accepted by creditors.
Meanwhile legal steps are being
taken, as predicted some time ago,
to collect unpaid portions of stock
subscriptions by members of branches
in various parts of New Brunswick.
Five members of a branch in South-
ampton, York County, have been
sued for unpaid portions of their stock
subscriptions and yesterday in Wood-
stock the case of Harding, Crane, of
Bath, a test case from that branch,
was tried before Judge Carleton in the
Carleton County Court, and decision
was reserved.

First payments on stock subscrip-
tions consisted of fifty per cent, the
balance being payable upon the call
of the directors. The call for the
payment of the second fifty per cent.
was made in October 1921 and today
it was said that all remaining unpaid
amounts would be immediately paid.

DRIVE ORGANIZED FOR JAPANESE FUND

Citizens Will Be Asked to Con-
tribute to the Cause Monday
and Tuesday.

Under the auspices of the Campbel-
ton Red Cross Committee a public
meeting was held in the Town Hall
last evening to consider ways and
means of raising funds for the Japanese
sufferers.

His Honor H. F. McLatchey was
chosen chairman.

The chairman said that lack of in-
terest displayed by the very small at-
tendance seemed to indicate that the
citizens were not interested in this
worthy cause, but he had no doubt
but that Campbellton would do its
duty. The cause was one which should
appeal to our hearts and sympathies.

H. B. Anslow was appointed secre-
tary of the meeting.

Dr. Murray suggested that the
meeting name a committee, said com-
mittee to be authorized to name col-
lectors and allot districts in which to
work.

Mr. J. L. Macdonald said that as the
appeal had come through the Red
Cross it was not possible to have the
Red Cross look after this work.

Dr. Phinck explained that the Red
Cross Committee was a very busy
body.

The chairman explained that there
were two courses which could be
adopted: to have the collections made
through the churches, or to appoint
canvassers to work the whole town.

After discussing the matter thor-
oughly it was decided to appoint
canvassers from each ward, which
committee would canvass and pre-
sent a thorough canvass.

The following committees were
named:—
Ward I.—Dr. L. G. Phinck, H. M.
Armstrong and Mrs. David Macquill.
Ward II.—Hon. H. F. McLatchey, H.
Samson, Jas. Craig.
Ward III.—A. Ferguson, Dr. Mur-
ray, B. J. Collier.

The committees were authorized to
proceed with organization and have
everything in readiness for the drive
which would be held Monday and
Tuesday, Oct. 1 and 2.

WELCOME RAIN
Friday's all day rain was welcomed
by the farmers everywhere.

FINE NEW STORE NOW OPEN

Up-to-Date Furnishing Store
Of Comeau & Co., Opened
Last Saturday.

With the completion of the new
store of Comeau & Co., situated at
the corner of Subway and Roseberry
Streets, a fine, modern, mercantile
establishment has been added to Camp-
bellton's long list of up-to-date busi-
ness houses.

The new store, which is a fine brick
structure of prominent and pleasing
appearance and located in the heart of
the town's busy district, was opened
to the public on Saturday afternoon
of last week and since the opening of
the doors the building has been the
scene of a steady influx of patrons.

The new store will operate under the
firm name of Comeau & Co., Ltd., and
will carry a complete line of ladies
and gents furnishings and a stock of
general dry goods as well as all kinds
of children's clothing. The new firm
is understood to be the successors of
V. E. Stevens who, some time ago, ac-
quired the business of the late M. P.
Moore.

The interior of the new store shows
it to be spacious and well laid out. In
addition to the ground floor which
carries a splendid array of new fall
and winter stock, there is a second
storey, the full size of the building
to which a wide staircase gives access.
The finishing is not only attractive
but expensive, being of quartered oak
throughout. Besides adding to the
appearance of the interior this is em-
blematic of the thoroughness and fine
tone of the building's fittings.

Five Stock
On visiting the new store prospec-
tive shoppers will find much to ap-
peal to them. Although new things
are daily being added to the present
stock there is to be found a most
attractive display of all the season's
latest and best in the way of ladies
and gents furnishings. The windows
of the new store also are a feature
that have attracted much attention as
they have been especially designed for
extensive and varied display.

SURE STOP TRAIN SIGNAL

Invention of Geo. Metzler is
Given Successful Try Out
At Halifax.

(Halifax Chronicle)
One day last week Mr. George A.
Metzler gave a satisfactory test of
his "metzler Sure Stop Signal" at the
Round House, Fairview. The only
feature of this invention which did
not meet the approval of the com-
missioners was the lever which it claimed
might be operated by heavy snow.
The signal apparatus consists of a
sketch frame made of 1 1/2 inch
iron, 30 inches high, weighing about 8
pounds, side clamped to ball of rail
thumb-screws and can be adjusted by
flagman in less than a minute, in win-
ter as well as summer. The frame
is snugly disposed toward the ad-
vancing engine. The red flag is placed
on it in daytime and a red light at
night. On the pilot of the engine a
valve is placed on train line with a
horizontal lever 25 inches above and
directly over the rail, which comes in
contact with frame, causing the air-
brake to function, and stopping the
train, the frame being thrown to the
side of the track. This portable
train stop is an addition to the flag
and torpedoes, and in foggy or stormy
weather, it is claimed, will prevent
accident when other signals fail to
give warning. It would be carried
by all train stations, section men,
and be used in all cases of flagging
to stop trains.

Two Plain English.
"Doctor, if there is anything the
matter with me, don't frighten me by
giving it a long scientific name. Just
tell me what it is in plain English."
Well, sir, to be frank, you are lazy.
Thank you, doctor. Now tell me
the scientific name for it. I shall
have to tell my wife what you said.

WELCOME RAIN
Friday's all day rain was welcomed

Chocolates For Korea!
A few days ago a package of 5
lbs. of Bull's Chocolates was
sent to the Hon. H. F. McLatchey,
around the globe. The package
was 100 lbs. but after all that was
only a small price to pay for
bringing some of the happiness
of the old home to an exile.

Perhaps you too have friends
abroad. Bull's Chocolates are deli-
cious little sandwiches that melt
in the mouth. They are the most
popular of all chocolates and are
sent in an attractive box which
is a fine gift. There are different
kinds of Bull's Chocolates in the
mail box alone. It's a fine
thought on Saturday night—
the joy of delicious chocolate
sweets.
Say it with sweets.

FIRE OCCASIONS LOSS OF NEARLY \$70,000 AT KEDGWICK

Four Stores and Five Dwellings Completely De-
stroyed On Tuesday Morning In Blaze That
Threatened Whole Village—Very Little
Stock or Furniture Saved—Insurance Light.

The village of Kedgwick, on the
International Railway line between
here and St. Leonard's narrowly es-
caped being annihilated by fire which
broke out there about 9 o'clock Tues-
day morning. Four stores with al-
most their entire stock and five
dwellings were destroyed in the blaze
and it is estimated that the total dam-
age will aggregate to nearly \$70,000.
According to insurance brokers the in-
surance carried was light compared
with the losses sustained.

Village Threatened.
Details of the fire were secured here
this morning. The blaze originated
from a deserted dwelling near the re-
sidence of Andrew Savoy. It ap-
pears that this old building was being
used for some purpose on the morn-
ing of the blaze and a fire had been
put on in the cook stove there. How
the fire spread to other buildings is
not known but the flames made rapid
progress and for a time threatened
the entire village. It was some time
before any fire-fighting apparatus
could be got to the scene and when
this was finally got into action a hard
fight was experienced before the blaze
was under control. All available help
was called to the scene of the con-
flagration and but for this the ulti-
mate damage would have been much
greater.

Four Stores Burned.
In the immediate vicinity of the
fire, some nine buildings caught
fire before any assistance arrived.
The four stores of H. Boulay, Rivard
Bros., J. H. Gosselin and Leonard
Martin were destroyed together with
almost the entire stock. Besides his
store, Mr. Martin lost his house, a
barber shop, a motion picture hall and
all its equipment, some of which was
quite valuable.

The owners of the burned dwellings
were unable to rescue any considerable
amount of their furniture or
household effects owing to the rapid
progress of the fire. Several of those
destroyed were new buildings, includ-
ing Andrew Savoy's residence which
was a fine large building only recently
completed.

Record Adjustment.
In connection with the recent fire
the Graphic reporter disclosed, this
morning what is obviously a record in
promptness in the transaction of fire
insurance business relative to the ad-
justment of claims. Several of the
heaviest losers in the Kedgwick
blaze were clients of Mr. P. M. Shan-
non, a local insurance broker and thir-
teen minutes after his telegram to the
insurance company notifying him of
the losses, had arrived at their office.
Leonard Martin, who lost his house,
J. E. Tibbitts, who lost his house,
and J. A. Gendron, who lost his house,
all received their money within the
same time.

Dependant Fire Adjustment Bureau. A
copy of the telegram follows:
Montreal, Que.,
9:00 a.m., Sept. 26, 1923
P. M. Shannon,
Campbellton, N. B.
Have asked Fasten Adjustment
Bureau to adjust Kedgwick loss.
GLOBE & HUPPERS FIRE
INSURANCE CO.
A summary of the loss in the re-
cent fire follows:
Loss Insur.
H. Boulay \$8,000 \$1,000
Rivard Bros. 8,000 2,000
J. H. Gosselin 17,000 8,000
Paul Devereaux 3,500 No insur.
A. Patris 3,500 No insur.
Andrew Savoy 6,000 1,500
Leonard Martin 12,000 4,000
J. E. Tibbitts 1,500 1,000
A. Gendron 950 No insur.
