A RUNAWAY STREET CAR des with an Ice Cart—A Slipp Pavement Costs the City \$250. the the assizes on Monday the case of Heffer v.
ark & Co. was dismissed with costs. W. Heffer
lined \$5000 damages for injuries received while
rking on a drain in Lake-street. Flavelle vs.
rongs was settled in favor of the plaintiff to extent of \$350. Miss Agnes Flavelle, while sing over an icy sidewalk in front of the ebec Bank last winter, fell and broke her arm.

Quebec Bank last winter, fell and broke her arm. The bank was named co-respondent.

The most important case taken up Monday was Angus v. Toronto Street Rallway. The facts brought out in the evidence showed that on the morning of Jan. 9 a Winchester-street car, soon after leaving the Necropolis, seemed to draw very heavily and was found by a passenger to have a broken brake-rod through the wheel. The car passed on down Sherbourne-street. When it came to the grade below Wilton avenue it started at a terrible speed, and every one of the 25 passengers prepared for a smash-up. It came at the corner of Queen-street when the car collided with an ice wagon. The lad, fred Angers, riding on the front platferm, was thrown off and received injuries from which he has not yet recovered. The old street railway company is sued for \$10,000. The case was proceeded with yesterday.

A Man Thermometer.

Lean men make the best thermometers. Fahrenheit never invented better ones. If the weather is warm and sunny they are cheerful. If cold and frosty they are irritable and mappy. If damp and cloudy they are downcast and gloomy. But if either lean or fat men are suffering from billousness, headache, constipation or indigestion the weather will always be damp and cloudy in their locality, unless they use Dr. Pierce's Piensant Pellets. These Pellets are small, sugar-coated granules, calculated to start the liver and digestive organs into healthy activity and thereby raise low spirits and dispel gloom.

thing, I think, should be done to develop our mining industry. It requires holp at first, rather than obstruction, but there seems to be in this province an attempt to almost strangle it. In the eastern townships we have great mineral wealth, and it seemed to be in a fair way of being developed; but it is receiving a check now, and considerable loss is likely to ensue if the taxation proposed to be levied upon the mines is carried out. I hope it will not be so, and that the authorities will see the wisdom of allowing an infant industry of such great value to the country a fair share of development. I thank you again for your kind resolution, and with that I will sit down.
