"PILLS LIKE A FYLE" So Harsh and Drastic are Many Pills as to Seriously Injure Health.

In a letter written from his home in Valencia, Mr. Marsh Selwyn does service to thousands by drawing attention to the injuries inflicted upon delicate people by drastic purgative pills. "For a long time I suffered from constipation. This condition compelled the use of pills. Like many another, I made the unwise choice of using pills that were like lightning in their activity. I began to be filled with intestinal disturbances, constant rumblings, gas in the bowels and diarrhoea. I grew pale and emaciated. Then the doctor told me drastic irritating pills had caused catarrh of the bowels, an almost incurable disease. Explaining my situation to a friend, he advised a trial of Dr. Hamilton's Pills. I speedily experienced the healing and curative effect they exert on the stomach, liver and bowels. The infestines, freed from irritating drugs, rapidly regained natural tone, the bowels acted as if nature and not Dr. Hamilton's Pills were at work. I know it will be of value to thousands to know that a pill as mild and curative as Dr. Hamilton's is available to the ailing." For bowel disorders, sick headache, constipation, liver and stomach derangement, there is no pill so invariably sure to cure as Dr. Hamilton's Pills. Refuse a substitute. Sold in 25c boxes, all dealers, or The Catarrh-ozone Co., Kingston, Ont.

Dr. Hamilton's Pills Are Mild--Never Gripes

Accustom yourself with plenty of fresh air and you will in time become impervious to drafts and sudden changes of atmosphere. Never sleep in an unventilated room. Fresh air is life. Are you a sufferer with corns? If you are, get a bottle of Holloway's Corn Cure. It has never been known to fail. A traveller for a prominent weekly publication is home now only one day in the week, and says his wife has a new name for him; she calls him her "Sunday Supplement."

WOMEN READ THIS Parisian Sage Puts Luster into Dull, Faded Hair.

Every woman reader of the Guide-Advocate who desires radiant hair that everyone admires, should go to T. B. Taylor & Sons to get a large 50 cent bottle of Parisian Sage. It is not only a delightful and refreshing hair dressing and beautifier, but it is sold under a rigid guarantee to banish dandruff, stop falling hair and itching scalp, or money back. Parisian Sage is the best hair tonic known. It is the only one that will cure dandruff, cleanse the scalp and make the hair grow long and beautiful. Not long ago there was held in a New England town an exhibition under the auspices of an "ancestral loan society," and among the proud exhibitors was a spinster who showed several fine portraits of her great-grandfather, an officer in the Revolutionary War. A friend was remarking to the spinster that she seemed marking, indeed, of her valiant ancestor. "A brave man!" exclaimed the friend. "Brave!" repeated the spinster. "Why, he took part in over fifteen engagements, and there was hardly one in which he didn't lose an arm or a leg or something."

LUNG TROUBLE Mrs. Biny Brown, of Tenessee, N.S., Was Cured by Catarrh-ozone of Lung Trouble and Catarrh, After Hundreds of Other Remedies Failed. If your lungs are weak; if there is consumption in your family; if Colds, Catarrh, and Bronchitis bother you, is especially adapted for these diseases and cures every time. Mrs. Brown took cough mixtures, but they made her sick. Then she used an atomizer, but, after resorting without benefit to poultices, she tried Catarrh-ozone. "I used Catarrh-ozone Inhaler," writes Mrs. Brown, "five minutes every hour, and soon recognized that it was going to cure me. I could feel the soothing medicated air spreading through the air passages of the throat, and it touched the sore spots in the lungs that other remedies failed to reach. Catarrh-ozone seemed to go just where it was needed most, and soon put a stop to my cough. It restored me to perfect health, and I am convinced that no cough, cold, or catarrh can exist if Catarrh-ozone is used. No treatment is so clean, so pleasant, so certain to cure as Catarrh-ozone. By means of the Inhaler, the local symptoms, such as coughing, inflammation and congestion are speedily corrected. Perrozone tablets, which are taken after each meal, purify and cleanse the blood of all poisons, and build up and strengthen the system. This local and constitutional treatment is always effective, and cures cases that have been given up as hopeless. Money can't buy or produce anything better, and to get cured it is absolutely necessary to use Catarrh-ozone.

COWED THE THIEVES. Odd but Effective Way of Attaching a Man's Property.

Attaching a man's property for debt is supposed to be a legal process, but an incident which occurred years ago in the city of Natchez, as related by Davy Crockett in his "Life and Adventures," shows that there are other "attachments" which sometimes accomplish a beneficent purpose. An odd affair occurred when I was last at Natchez, declared Mr. Crockett. A steamboat stopped at the landing, and one of the crew went ashore to purchase provisions. He went into a saloon on the way, and the adroit in his mazes contrived to rob him of all his money. The captain of the boat, a determined fellow, went ashore in the hope of persuading them to refund, but they declined. Without further ceremony the captain, assisted by his crew and passengers, some 300 or 400 in number, made fast an immense cable to the frame building where the theft had been committed. Then he allowed fifteen minutes for the money to be forthcoming, vowing that if it were not produced within that time he would put steam to his boat and drag the house into the river. The thieves knew that he would keep his word, and the money was promptly produced.

PRESENCE OF MIND. The Earl kept His Head, and the Highwayman Lost His.

In "Sporting Days and Sporting Ways" Ralph Nevill relates two incidents of the early nineteenth century in which English highwaymen figure: "In August, 1819, Lady Stanley, travelling from York accompanied by her servant, was stopped by a highwayman, when the maid in her alarm took up a bottle of ginger beer, and the cork flying out made such a report that the highwayman instantly galloped off in great alarm."

Lord Berkeley's encounter with one of the famous "gentlemen of the road" had more serious consequences: "Being driven over Hounslow Heath he was awakened from sleep by his coach being brought to a standstill and a threatening face looking in at the window."

"I have you at last, my lord," said a gruff voice, "though you said you would never yield to a robber. Deliver!" "Certainly," was the earl's reply, "but tell me first who is that looking over your shoulder?" "The highwayman turned his head to look and at the same moment Lord Berkeley shot him through the head dead."

The Lion of St. Mark. The symbol of the Venetian republic—the famous lion of St. Mark—is made of bronze. There is a tradition among the Venetian people that its eyes are diamonds. They are really white, agates, faceted. Its mane is most elaborately wrought, and its retracted, gaping mouth and its fierce mustaches give it an oriental aspect. The creature as it now stands belongs to many different epochs, varying from some date previous to our era down to this century. It is conjectured that it may have originally formed a part of the decoration of some Assyrian palace. St. Mark's lion it certainly was not originally, for it was made to stand level upon the ground and had to be raised up in front to allow the evangel to be slipped under its fore paws.

The Very Oldest Inn. Which is the oldest inn in England? The title deeds of the Saracens' Head at Newark date back to 1341, and local antiquaries cite documentary evidence to prove that the Seven Stars at Manchester existed before the year 1356. There is even a legend that the wife of Earl Godwin stayed at the Fountain at Canterbury in 1029. "But what are all these compared with the Fighting Cock at St. Albans, mentioned in 'Old Country Inns,' and said to be the oldest inhabited house in England? A few years ago its signboard modestly chronicled the fact that it had been 'rebuilt after the flood.'"

The Tree Frog of Paraguay. In the manner of disposing of their eggs many species of frogs exhibit remarkable peculiarities. A tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

The number four is in great disfavor in Japan, because its name, "shi," is the term for death. There are no fours or forty-fours in the telephone directories of that country. There is no limit for the possibilities of Niagara power. A London man attached hydro-electric power to his incubator and the result proved a success. Seventy-five per cent. of the eggs yielded healthy chicks.
