Thin blood and rheumatism come together and if they are properly treated they will go together. Rheumatism is rooted in the blood, in poor, watery blood. Sometimes cold, damp weather starts the aches and pains, but it is the condition of the blood that is at fault, and only by correcting this, and making and white and only by correcting this, and making the blood rich and red can the rheumatism poison be driven out. This is exactly what is done in the treatment of rheumatism with Dr. Williams Pink Pills. Acute and muscular rheumatism show im-provement as the thin blood is built up and when the blood has been restored to its nor-mal condition rheumatism is driven out and does not return as long as the blood is kept rich and red. There is no part of Canada in which some rheumatic sufferer. Lieut, Gerald I. Taylor.

Miss Clarke, a returned missionary from

Miss Clarke, a returned missionary from Kilemat, gave a couple of very interesting addresses morning and evening in the Methodist Church. The ladies of the W. M. S. took the offering, acted as ushers, read the bible lessen and gave the report. The choir also consisted of ladies of the society. The evening service was in charge of the league. Next Sunday morning the Odd Fellows will attend service in the Methodist Church. Service will be held at 11 o'clock,

dist Church. Service will be held at 11 o'clock,

A very enjoyable evening was spent at the home of Mr. and Mrs. Geo. Freer on Wednesday evening, May 14th, when the members of the 6th Line West Red Cross Society and their immediate friends gathered to welcome home the boys who had gone from this vicinity to serve their country in France. Quite a lengthy program was given nome the boys who had gone from this vicinity to serve their country in France. Quite a lengthy program was given which consisted of readings, instrumentals and songs and contests. The boys were called forward and Pte. Fred Hooper was presented with a beautiful mantle clock, Sergt. Tom Meyers with gold cuff links, tie pin and tie clip. Pte. Joe Wardman with gold watch chain and locket and Pte. Alfred Smith with gold signet ring. An address was read by Mrs. J. W. Johnson and the presentations were made by two small girls and two small boys. The address was signed by Mrs. Wm. Johnson, Pres., Mrs. J. W. Johnson Sec'y, Mrs. Geo. Freer, Treas.; Mrs. Eastabrook, Mrs. de Gex and Mrs. Dymond. Sergt, Meyers replied on behalf of himself and the other boys thanking the society for their kindness and also for the presents. A dainty lunch was then served and the evening closed with singing "For They are Jolly Good Fellows."

Children Cry FOR FLETCHER'S CASTORIA

Hastening the Corn Crop

The Corn growers in the colder and more northern parts of Canada might find some advantages from the use of superphosphate as a fertilizer. Dp. F. T. Shutt, Dominion chemist, points out, iu an article in The Agricultural Gazette for May, that one of the more important functions of a phosphoric acid fertilizer is to hasten maturity and expresses the view that an application of it will materially hasten the ripening of the corn crop, more especially in an adverse season By this means the corn may reach the "glazing" stage before there is much risk from early autumn frost and the time for cutting has arrived. He suggests an application of, say, 350 lbs. of superphosphate per acre broadcasted or drilled in on prepared land before planting. In order that the effect might be noted, Dr. Shutt suggests that a strip alongside should be left untreated. OI _ MARS SERCO _ IO
