Winsome Soap

Here is reached the very pinnacle of achievement in toilet soaps. Never have the world famous Vinolia Laboratories created a soap of which they are more proud than of this—the pure, white, dainty free lathering Winsome.

Only the very choicest coconut and palm oils from our own plantations are used.

And not only absolutely pure—but prepared after years of study of the water and climate conditions all over Canada—with a view of giving to Canadian women a soap made scientifically and exclusively for them.

Make a lather in warm water with 'Winsome' Soap. Use both hands and gently massage every inch of the face and neck, work the fingers into the skin and take a little time to it. Then rinse thoroughly and dry with a soft towel. If your skin is naturally dry, use a little Vinolia Vanishing Cream before you wash, and a little after. If your skin is naturally oily, wash in warm water, but always rinse in cold.

Keep this up daily and neither rouges nor powder, rough winds nor hot sun, can injure your skin. 'Winsome' Soap "treatment" will make it naturally robust and glowing with color and beauty.

FRIDAY, NOVEMBER 17, 1922

NOTE AND COMMENT

The latest census shows the population of London, Eng., to be 7,460,201, the highest on record.

Canada occupies a proud place in the financial world today. Our money is worth more than that of any other country in the world.

The best money-maker on the farm is the hen. She turns grass into greenbacks, grain into gold and from the sand and gravel she coins silver.

A forged cheque is passed every three and a half minutes of every banking day in the United States, with losses totalling one hundred and fifty million dollars in 1921.

Hon. T.A. Crerar has resigned the leadership of the "Progressives" in the House of Commons and also his seat. At a convention in Winnipeg on Saturday Robert Forke was unanimously elected to the leadership. Mr. Forke is member for Brandon.

The city council of Lakewood, O., has passed a by-law prohibiting dogs from barking after the curfew rings at night and owners of dogs guilty of barking at night will be fined \$1 per bark. Next thing will be to prohibit the moon from shining except when the council directs.

Anyone close to the printing business realizes the almost unlimited possibilities for typographical errors. Take the word "reacts." These six letters can be set to produce 20 different combinations; the same six letters can be formed into seven different words: carets, casters, caters, crates, reacts, recast, traces.

The Picton Gazette directs the attention to the fact that the sales manager of a big manufacturing concern stated in an address recently that their prosperity was due to extensive advertising in national and local newspapers supported by good salesmanship. He believes that the lack of advertising was responsible for most business failures.

We do not think that a man, under present conditions in this country can make a sufficient contribution to the national wealth in a 44-hour week. To lift the country to the plane of prosperity it should enjoy requires the work of many hands, working through many hours. If each of us would do a little more, rather than a little less, general conditions would soon reflect it.—Collingwood Bulletin.

The School Fairs of Ontario, have become an important institution, with results of a most helpful character. Four hundred and eighty-nine School Fairs were held this year with 4,266 schools taking part. No less than 109,015 pupils last spring secured eggs or seeds in preparation for these fairs. The exhibits were better and contests keener than ever before. From the standpoint of encouragement to excel these fairs are of greater value than the average fall fairs.

With the construction period for this year now over the highway department at Toronto on Thursday made public at the Parliament buildings a statistical abstract of its season's accomplishments. It revealed the construction of about 300 miles of highways, the accomplishments of much preliminary grading and other work and the expenditure of approximately \$10,000,000. Of this \$10,000,000 the Dominion pays a share and the municipalities benefiting pay 20 per cent. of the total.

Fort William Times-Journal: There is far too much serious effort wasted on silly fads connected with fashions of skirts, stockings and hair. The latest is that a few girls in a Toronto institution bobbed their tresses and were taken to the police station and locked up there for the night. Recently it was reported that a hospital had discharged all nurses who had bobbed their hair. Surely they have other means of enforcing rules in a girls' home than sending the inmates to a police station as a punishment.

According to a recent announcement, certain nutrition specialists of Cornell College of Agriculture are working on a canning budget that will serve as a guide for the amounts of canned fruits and vegetables needed to keep a family of five well nourished for a year. The budget recommends the use of tomatoes four times a week, green vegetables six times, starchy vegetables three times, and fruit ten times a week. The quantities of food such a family might well use are about 80 quarts of tomatoes, 120 quarts of green vegetables, 50 quarts of starchy vegetables, 220 quarts of fruits and 40 quarts of conserve, jam and jellies. Because of the presence of anti-scorbutic and water-soluble vitamins, the budget says, tomatoes are provided in quantity, but the use of oranges at certain seasons of the year may somewhat decrease the amount of tomatoes used. Either oranges or tomatoes are desirable for children

throughout the year. The amount of vegetables stored, it continues, such as cabbages or celery, affect the quantity of green vegetables provided by the canning budget, and the amount of fresh or dried fruits such as apples, prunes and oranges used during the year must also be considered in estimating the amount of fruit to be canned.

BOARD OF EDUCATION

Minutes of a regular meeting of the Watford Board of Education held in the Library Board Room on Monday, 30th inst., at 8 p.m.

Present—Dr. Siddall, chairman; C. W. Vail, Dr. Howden, J. McKercher, W. E. Fitzgerald, Dr. McGillicuddy, J. W. McLaren, also Principal Cameron.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A baby over in Ohio gained ten pounds a week when fed on elephant milk. Seems incredible, but then there is a chance that it was a baby elephant.

QUESTIONS and Bible Answers

If Parents will encourage children to look up and memorize the Bible Answers, it will prove a priceless heritage to them in after years.

What does God's Spirit do for us? —Romans 8:26

When should we seek the Lord? —Isa. 55:6

Why should we not be afraid? —Isa. 41:10

Why should you glorify God? —I Cor. 6:20

What is necessary to please God? —Heb. 11:6

How may we receive strength? —Psalm 27:14

Eases Kitchen Work

To Women Who Do Their Own Work: Suppose you could save six minutes every day in washing pots and pans—two minutes after every meal. In a month, this would amount to a saving of three hours of this disagreeable but necessary work. This saving can be made by using SMP enameled kitchen utensils, as their smooth sanitary surface will not absorb dirt or grease. No scraping, scouring or polishing is needed when you use Diamond or Pearl Ware. Soap, water and a dish towel is all you need. Ask for

SMP Diamond or Pearl WARE

Diamond Ware is a three-coated enameled steel, sky blue and white outside with a snowy white lining. Pearl Ware is enameled steel with two coats of pearl grey enamel, inside and out.
