SIR,—Judging by the last financial report from the Town of Annapolis Royal, incorporation has proved a good thing for the citizens of that town. The mayor of the town says in his report, that owing to expenses arising in regard to litigation, extra poor bills, and the bills incurred in consequence of a case of diphtheria in a family of that town, they were obliged to raise their assessment from 95c. to \$1.05 per \$100.00, but he was pleased to inform them that even that rate was much lower than before incorporation.

For the sake of comparison between Ananpolis and Bridgetown, let us suppose that a citizen living in this town is assessed as follows:

He pays taxes as follows: Poor and County at 38½c., School at 31c., School at 31c.,
Water at 10c.,
Electric Light at 12c.,
Road Work, 9 days
County Poll Tax,
School Poll Tax,
Electric Light,

Now the same property in Annapolis would be assessed for all purposes \$1500, which at the rate of \$1.05 for \$100.00 would

\$17.75 Which shows a credit of \$2.04 in favor of the incorporated town of Annapolis Royal, besides all the advantages obtained under incorporation.

I have been informed by leading officials of that town that the taxes for the present year will be again reduced to the old standard of about 95c., which is about all that is required for the running expenses of a town of that aize.
