THE ELLWOOD STANDARD

WOVEN WIRE FENCE is only one of the 10 styles we make. We call it our standard because it is designed to meet nearly every requirement of the fence user.

Made in six heights, as you see it in the illustration—for cattle, horses, hogs, pigs and general farm fencing, this is by all means the Standard Fence, outselling every other fence on the market.

AND IT'S CHEAP TOO....

If you can't find the Ellwood at your dealer's write us for catalogue.

AMERICAN STEEL AND WIRE CO.

Chicago and New York.

Webber's Hydro-Lactic Cream Separator

Combines

SIMPLICITY OF OPERATION
ECONOMY OF TIME AND LABOR
THOROUGHNESS OF WORK
DURABILITY AND CHEAPNESS

It is the **happy medium** between the old-fashioned methods of cream-raising and the modern expensive centrifugal separator.

Every farmer with two or more cows should have one.

PRICES, \$7.00 to \$14.00

(According to size)

Above Prices not applicable to Manitoba and the N. W. Territories.

J. F. GILL & CO.

NIAGARA FALLS, ONT.

NOXON BUFFALO PATENT ALL STEEL DISC HARROW.

NOXON NO. 12 SECTIONAL SPRING TOOTH CULTIVATOR

NOXON STEEL HOE DRILL

The Buffalo All-Steel Disc Harrow.

This is the only Disc Harrow made or sold in Canada, having independent, adjustable spring pressure upon the inner ends of the gang disc, allowing any amount of pressure to be thrown upon the inner ends of the gangs, by the foot of the operator. By this means a perfectly flexible action is secured and the ground can be worked to a uniform depth. Examine this machine carefully and compare with others.

The No. 12 Cultivator

IS A MARVEL OF SUCCESS. The only Cultivator made that both lines of teeth will cut an even depth in the ground. Examine it and you will see why. The only Cultivator with a movable tooth set so that the angle of the teeth can be regulated to suit any condition of soil. Pressure can be regulated to act differently on every section requiring it. The teeth are carried between the wheels instead of trailing behind, as in other machines, thus securing lighter draft. This machine is furnished with grain and grass seed box when required. It has reversible diamond steel points for the teeth; also extra wide threshing points can be furnished. Examine it and you will buy no other.

THE BEST DRILL MADE.

The Hoosier Needs No Introduction.

Over 40,000 Drills and Seeders of our manufacture in use in Canada. The only Drill made with lever for instant and perfect regulation of depth of hoe in all kinds of soil, while team is in motion. Sows absolutely correct to scale; saves seed, as every kernel is deposited at a proper depth to grow. Purchase only the best and you will be satisfied.

We also manufacture Binders, Reapers, Mower Rakes, Cultivators and Pulpers, as good as the best. Send for illustrated catalogue.
