

uncertain. The Cincinnati *Price Current* says, as to packing operations in the West:—The past week shows a large shortage in the hog supply as compared with a year ago, our returns footing up 100,000 hogs as representing the Western packing, against 200,000 for the like week last year. This makes the total since March 1 to appear 150,000 hogs less than for the same period last year. The month of June will fall below same month of 1881. The number of hogs packed at Chicago, Kansas City, Cincinnati, St. Louis and all other points heard from from March 1st to June 21st was 3,330,000 as compared with 3,590,000 hogs last year. "Packers continue to pay a high premium for marketable hogs, and the product is well maintained in values, though with a little weakening. There is, however much of strength in the market, and lard does seem to be acquiring more friends. Winter meats, suitable for smoking are in low stock everywhere. Lard is not in excessive supply, and there is a more favorable export showing."

Wool.—The supply of fleece continues moderate and prices are unchanged at 18 to 20c. Supers are inactive at 27 to 27½c, and extra is in small stock, with sales at 32 to 34c.

WITH PLAIN OR SECTIONAL BOILER

If so ordered. We are testing an Engine every day. Intending purchasers are invited to call at our Works and thoroughly examine the Champion. We use **KRUPP'S CELEBRATED BOILER PLATE,**

Every plate tested.

Every boiler tested to 160 pounds, cold water pressure.

OVER 600 SOLD

In 5 seasons. The favorite everywhere. It has no equal.

The sectional safety boiler is manufactured expressly for the "North West" trade. This boiler is so arranged that it is readily taken apart in sections enabling purchasers to clean thoroughly every part of it and prevent burning out. We know from experience this is absolutely necessary with the alkaline waters of the great Western prairies. Largely used by the Pacific Railway Company and all the large Colonization and Rancho Companies.
