WHAT THE "IDEAL" FACE DOWN MACHINE WILL DO

There is absolutely no limit to the artistic possibilities of the Ideal Concrete Block Machine. Of the almost endless forms and designs of blocks that a single machine can produce, samples of a few are shown in cut. The "Ideal" is the only FACE DOWN Concrete Block Machine in the world with practically unlimited adaptability as to size (within capacity) shape, and design of block.

In addition to the only perfect Concrete Block Machine we have the most complete line of cement machinery in the world, Brick Machines, Mixers, Sil and Lintel Machines, Column, Spindle, Ball and other Ornamental Moulds. More than 3,000

IDEAL FACE DOWN Interchangeable Concrete Machines

are in profitable operation in the United States alone, and we have recently

closed the largest single contract for block machines in the history of the cement industry. Within a period of 30 days we have made heavy shipments to Calcutta, Shanghai, Sydney, Khartoum, Valparaiso, Mexico, Glasgow, Budapest, Bucharest and Panama. Six carloads went to a single foreign country.

Our catalogue, magnificently illustrated, contains information of vital importance to Architects—Contractors—Builders and those who manufacture Concrete Stone. Sent FREE on application.

Model "E" 24 in. Length.

CUTLER MAILING SYSTEM

Arrangements have been made to manufacture in the Dominion under the Cutler patents.

Owing to the saving in duty, the new Cutler Mail Chute, Model C, with its entire front in the form of doors, can now be installed at a less rate than was formerly paid for the older form of chute.
