Hundreds in use, giving very best results.

EXTRACT FROM TESTIMONIAL:

April 9th, 1888.

The six we put in last year have more than met our expectations in every point, being economical in fuel, easily regulated and cleaned, and having good grate. We have every confidence in it.

Yours respectfully,

KENNEDY & HOLLAND, Architects-Toronto and Barrie.

Competition Plans

FOR A

CITY HALL.

THE City of Quebec having decided on erecting a City Hall on Jesuit Barracks Square, opposite the Basilica, now invites competition designs for such a building. A prize of \$1,500 will be paid for the best plan, \$500 for the second best, and \$300 for the third in value.

The City does not bind itself to the execution of any of the designs submitted, nor does it bind itself to confine the direction of the work to the architect to whom the first prize may be awarded.

The plans to be for a building capable of accommodating all the municipal departments, not only as now exist, but with the development hereafter required by the increase in the size of the City. The building must in addition contain the Recorder's Court and offices, the offices of the Police and Fire Departments, those of the Fire Alarm Telegraph, a Central Police Station and Central Fire Station, with lodgings for guardians and others; the competitors to supply ground plans, sections and elevations of facades, and the details of the principal apartments, such as the Council Chamber and Recorder's Court. They shall moreover supply specifications, bills of quantities and estimates of cost of the several works and materials. The total cost of the building, inclusive of heating apparatus, water and gas service, shall not exceed \$200,000.

The plans and specifications endorsed "Plans for City Hall" shall be addressed to the undersigned before the FIRST DAY OF MAY NEXT. Each design shall bear a distinctive motto and contain nothing capable of designating the author, but shall be accompanied by a sealed letter bearing the same motto giving his name and address.

The judges of the plans shall be chosen by the Mayor, the Chairman of the Road Committee, and the City Engineer, and their decision shall be without appeal.

From the undersigned may be obtained all necessary information as to the configuration of the ground, the number and size of the principal apartments, and the area required by each department.

CHAS. BAILLAIRGE, City Engineer, Quebec.

City Hall, Jan. 10, 1890.
