

leaves, stems, pods flowers
and all are thoroughly
mashed, squeezed, using
every drop of the juices
possible to extract, using
a flat porcelain vessel, ^{evaporate.}
placing in a favorable
place - not in the sun
not in too shady a
place. This will leave a
dewy pasty substance
easily applicable on a
piece of linen. Apply
this to the spot, and
dash - to the miserable
germ results.

This will cause in
true suffering, and
