

*From D. C. MACCALLUM, Esq., M.D., Professor of Clinical Medicine and Medical Jurisprudence, McGill College, and one of the Attending Physicians of the Montreal General Hospital.*

From the many favourable opportunities which I have had in the wards of the Montreal General Hospital of ascertaining Dr. Bell's professional knowledge and abilities, I have much pleasure in stating that I have a high opinion of them; and am confident that he is in every way capable of efficiently discharging the duties of any professional situation to which he may be preferred.
