The Edinburgh Reviewers, at the conclusion of their review of "Dr. Smith's Introduction to Botany," observe that "Botany is daily becoming a more fashionable female study; and this is an elementary book which may be put with confidence into the hands of women, without any risk of wounding the most delicate mind. We are happy, for the sake of those fair students, to observe, that Dr. Smith promises a translation of his *Flora Britannica*; for this, we doubt not, will, when accomplished by Dr. Smith himself, form the best popular Herbal ever published. In the mean time he very candidly recommends Dr. Withering's Arrangement of British Plants: to which we would take the liberty to add Mr. Galpine's *Compendium of British Botany*, (which is indeed nearly a translation of Dr. Smith's *Compendium Floræ Britannicæ*;) as a most useful and commodious pocket companion in botanical excursions."

A SYSTEMATIC ARRANGEMENT OF BRITISH PLANTS: with an easy Introduction to the Study of Botany. Illustrated by Copper-plates. By W. WITHERING, M.D. F.R.S. &c. The Fifth Edition, corrected and considerably enlarged, by WILLIAM WITHERING, Esq. In 4 vols. 8vo. Price 21. 8s. in boards.
