with them. We were informed of this by a series of wild whoops from the Siwashes, as they poured over the hill and into our camp. Our first thought was that it was a hostile attack, but we were reassured when we saw them begin to parcel out the goods belonging to the

miners. It happened that these men were the very ones who had so strongly urged holding out against the increased price; and as it took all the available Indians to carry their outfit over, we were delayed a couple of days by this. Finally, however, we secured packers,
