WALL-STREET TRADING

NEW YORK, March 29.—The rather street. The second was between Shu-hellow and professional character of the ter and Albert and Bloor-streets, and stock market was again strikingly illus-trated to-day, when prices made another Bathurst and Parliament-streets. The upward move in the early trading, only other district includes the remainder to lose all and more in the latter part of the city. The charges in the first, of the day. Noteworthy exceptions to this outcome were the Canadian group, which were active and strong under the leadership of Canadian Pacific, that stock going to a new high record on fairly extensive buying much of which was credited to London and Montreal interests. Wisconsin Central and other affiliated stocks were in apparent demand from these same sources, but the movement was not participated in by local speculative interests, which have seldom shewn marked partiality for these issues. In the active group such as U.S. Steel, Union Pacific and Reading, the day was characterized by buying and selling, the bears making a series of drives in the firal hour, which resulted in material lesses in these and other prominent stocks. The decline was attended by rumers connected with next week's reasesmbling of congress and the U.S. Supreme Court, and traders were inclined to retire their commitments pending more definite knowledge of these important factors.

THE PORCUPINE-TISDALE MINING COMPANY, LIMITED, is a property having its claims well located and has a vein opened up for over 350 feet; 6.8 feet; wide and runs the entire length of their Deloro claims. The stock is now selling at 10c a share and will soon advance to 25c. This stock has been selling very rapidly, and I advise the immediate purchase at 10c. A mining engineer states that their properties are in the heart of the district, and not in the lemon belt, and it should certainly make good, and further he thinks they have one of the best properties in Tisdale. This stock, with the way the present management is handling the property, should sell inside of a year at \$1, if not more.

An enquiry for 200,000 shares at 10c was refused yesterday for England, simply because we have not the stock for sale, our allotment has nearly been sold out, and I have tried to increase the same which has been refused.
