Collingwood, Aug. 27.—Work has been
 commenced at the big steel plant of
 the Northern Iron & Steel Co., after
 being idle for about two years. The
 company has been successfully financ-
 ed, and will be turning out finished
 iron and steel shapes and bars in
 about ten days. The company will
 start with a large volume of orders on
 its books. Gangs of men are at work
 going over and fitting up the machin-
 ery ready for rolling and making
 steel. The superintendent of one of
 the big American steel plants has been
 employed to take charge of the mills.

TORONTO MARKET RETAINS ITS DULNESS.

World's Office, Monday, Aug. 27.
 The Toronto stock market did not lose its stagnant condition in
 today's business. The same gradual improvement noted last week
 was continued, but without any increase in activity. The only reason
 to show any prominence in the dealings are Toronto Electric and
 Twin City. The former advanced 1.2 points to 163, but was not
 steadily supported close to that figure. No official information of
 any change in the dividend can be had, but the "street" was imbu-
 ed with the idea that the rate of dividend will be raised from 7
 per cent. to 10 per cent. Among the least enthusiastic this is thought
 to be extreme, and 8 per cent. is suggested as more in keeping with
 the spirit of the times. The rumor of an increase on Twin City came
 by way of New York to-day, the despatch stating that the change
 would be made this fall. Nova Scotia Steel made a spasmodic move-
 ment both here and at Montreal, and from the latter market a return
 to dividends on this stock was rumored. What buoyancy there was
 in the market early was completely lost when Wall-street developed
 a sharp selling movement. Local brokers are bringing on surplus
 New York margins to eke out their funds here until the banks show
 a greater desire to extend call loan accommodations.
