SEVERAL MEN FROM Lice Caused the Death THIS DISTRICT GET of a Million Persons in the War Zone of Europe

LONDON. Jan. 2.—British Wireless Service.—Of the insects responsible for the death or disablement of hundreds of thousands in the war zone, the louse is declared authoritatively to have been one of the most deadly and to have accounted for at least a million persons.

That, however-is only a rough estimate, and the probability is that the toll was infinitely higher, for in Serbia alone typhus, a louse-borne disease, infected nearly one million persons and killed 500 a day in the small-city of Jassy, while 200 of the 1,200 medical officers in that country died from the disease. This disease spread over Russia, Austria, Germany and the Balkans generally.

Armor-Plated Airplanes Are Among Dismantled Material Surrendered

Wireless Press .- Many German airplanes were destroyed in part by the Germans when they evac-uated Cologne, according to re-ports from British correspond-ents in the British area of ocents in the cupation.

Among the dismantled machines is the skeleton of a huge gotha. It was built to carry 14 men, and on its broad wings are walks, while little iron ladders lead to the upper plane, where the machine gunners were posted.

Another machine is an armored airplane for use in attacking trenches with machine guns. The wings are of corrugated steel, and steel plates a quarter of an inch thick protect all vital points. Two machine guns point down through the bottom of the fuects.

While there is unanimity of opinion among cficial of the department of agriculture with regard to livestock, there is some doubt as to the prospects for grain growing. Whether or not the Dominion is going to fix a price for wheat, and if so, what it will be, are the matters which affect the situation.
