

I.O.D.E. HEARS DR. COSSLEY BATT

Lady Doctor Addresses Municipal Chapter on Problems of Living.

LESSONS FOR CANADA

Under the auspices of the Municipal Chapter, I.O.D.E., Miss Cossley Batt, O.B.E., B.A., D.S., spoke at Convocation Hall last night. On the platform were representatives of various primary chapters, the standard bearers supporting their flags, which were unfurled at the singing of the national anthem and afterwards allowed to remain in their rests during the evening. Mrs. W. R. Jackson, regent of the Municipal Chapter, presided, and the speaker was introduced by Mrs. John Bruce, national president.

Mrs. Bruce told of the work of Dr. Cossley Batt as analytical chemist in the munition factories of England during the war. She also added to the war record of the visitor by the statement that the father of the speaker had been torpedoed and her brother killed on his second time in France. This is not the first occasion on which she has traveled extensively, said Mrs. Bruce, as she has been round three times with her father before the war.

Munition Girls' Work.
Dr. Cossley Batt divided her address into three parts: the ex-munition girl, the high cost of living and the relationship amongst the different parts of the British Empire. As the speaker had given several addresses previously during her visit to Toronto, much of what she said last night had been previously published. She told of the heroism and sufferings of the thousands of girls who worked in the factories. Many hundreds were killed and thousands had their health so impaired that they are now under government care and will be for their lifetime. Many too, will come to Canada, and for these the speaker asked a kindly welcome.

Coming to the problems of living under present high prices, the speaker

MRS. SOLOMON SAYS—

Being the Confessions of the Seven-Hundredth Wife.

BY HELEN ROWLAND.
(Copyright, 1920, by The Wheeler Syndicate, Inc.)

An ideal husband—who hath found one?
For his price is far above Victory Bonds!
The heart of his wife delighteth in him, and she shall have no lack of envy amongst women.
He ariseth at the first sweet note of the alarm-clock, and putteth the coffee on the fire.
He bringeth his wife's breakfast to her bedside and serveth it with his own hands.
He taketh in the cream and the ice, and the mail, and the newspaper—and feedeth the cat and the pekinese.
He findeth his own things, and dresseth without swearing.
He doth not open his wife's letters! There is no curiosity in him.
He departeth for his office with soft footsteps, lest he disturb his wife's beauty slumber.
He laboreth all day in the office, and doeth his wife's errands in the noon hour.
He seeth not the blonde stenographer, and the office flirt hath no charms for him.
He keepeth his wife's picture on his desk.
Six days of the week doth he labor for his living, and upon the seventh he moweth the lawn and weedeth the garden for diversion.
He arriveth home always promptly upon the dinner hour, bringing kisses and compliments and confectionery.
His mouth is filled with praises for his wife, and he admireth her hats.
Upon the cook's day out, he feedeth cheerfully upon cold tongue and delicatessen salad, and when he hath eaten, helpeth his wife with the dishes.
Upon Saturday night, he taketh his wife forth to the cabaret, or to the show; he doleth up in his dress clothes without murmuring.
He putteth the studs in his own shirt, and powdereth his wife's back without grumbling.
He doth not spend the evening in staring at other women.
When he goeth forth by her side, the heart of his wife rejoiceth in him. He shineth amongst the unkempt married men as a flower in a field of alfalfa.
Many husbands have been called "good"—but he excelleth them all.
Then, give him the reward of his labors, which is the bottom drawer of the chiffonier and one hook in the clothes closet.
Go to, go to! Say not unto me, that no such husband liveth!
For, lo, I have known an hundred such! But, alas, they do not get into the newspapers! Their names are not in the mouths of the multitude.
And their wives are their only press agents!
Selah!

Germany that she had paid her national debt from the profits, was also related. That Canada should establish intercourse with these countries in order to get their fruit, cocoa, coconuts and other products was the advice given. Also, as in previous addresses, the speaker pointed out that without development of the key industries, production in Canada could never be on the large scale that would make for national prosperity and success.

Self Denial

IS SO familiar a Salvation Army Institution that, like many other great things, it succeeds in concealing its own greatness.

YET it is the essence of Christ's life and teaching.

IT IS a matter of God first, and then your fellow-men.

JOIN the Army and its friends for the next two weeks in their plans on behalf of the Jubilee Self Denial Campaign.

Germany that she had paid her national debt from the profits, was also related. That Canada should establish intercourse with these countries in order to get their fruit, cocoa, coconuts and other products was the advice given. Also, as in previous addresses, the speaker pointed out that without development of the key industries, production in Canada could never be on the large scale that would make for national prosperity and success.

TELEPHONE GIRLS AS SHAREHOLDERS

Bell Telephone Company Will Sell Stock to All Employees.

While no employee of the Bell Telephone Company in Canada will be compelled to purchase stock in the company, shares are being offered to all those who have a year's employment to their credit. Such employees may purchase one or more shares up to twenty. If an employee is receiving \$800 a year, she may purchase three shares at say \$100 a share, payable only in instalments, the share purchase completed in three years. If an employee is earning \$2,000 a year she may purchase twenty shares on the same basis. With dividends at the present rate and instalments fully paid up the management sees no reason why a number of shares should not be bought up in three years. Dividends today are at the rate of eight per cent. Employees will pay three dollars a share a month, and interest on unpaid balances will be debited at the rate of 4 1/2 per cent.
"We have inaugurated this system for two reasons," said the local manager to The World last night. "Firstly, because buying shares on the instalment plan will ensure thrift among those who buy, and secondly, it will give the employees a sense of ownership and therefore a sense of new and deep interest in their work. The employee will have perfect free will in the matter of buying stock, and is under no obligation to do so."

JOURNEYMEN BAKERS SAY STRIKE MERELY DELAYED

Journeyman bakers are asking all along the line what it was induced them to reconsider their decision to strike on Monday last. Last night's executive meeting of the Canadian Federation of Labor took the matter up at some length, and another session may be called in the near future. It is understood that the strike is merely delayed and will take place within the next few days, unless certain conditions now prevailing at the bakeshops are changed.

In this connection a general feeling prevails that the bill to amend the present government regulations respecting hours and conditions of work in the bakeries will pass with few dissenting votes. This bill calls for work only within the hours of six a.m. and six p.m. each day. It is understood that this new bill may be so amended as to permit a few hours work on Sundays, the not outside the limits prescribed.

Says Disputes Act Amendment Gives Autocratic Powers

Hon. Walter Rollo, minister of labor for Ontario; Karl Homuth, M.L.A., and Charles Swayze, M.L.A., yesterday afternoon all expressed the opinion that the proposed amendments to the industrial disputes act, permitting the minister of labor to investigate grievances, whether either party desired it or not, savored of arbitrary procedure. "If it does mean compulsory arbitration I know that the rank and file of the labor movement will resent it," said Walter Rollo. "The fact that Hon. Arthur Meighen, father of the amendment will not constitute that the measure will please labor," was Mr. Homuth's comment.

THREAT OF BIG CARTERS' STRIKE

Montreal, May 4.—Seven thousand carters and teamsters threaten to strike within the next few days if the master carters do not grant the men's demands of \$28.80 per week for double-team drivers and \$24 per week for single-team drivers.

DOLLAR AN HOUR.

Plumbers and steamfitters in Toronto are considering an agreement for a dollar an hour, which is to go into effect in July. They are receiving 75 cents an hour at present.

ONLY YEARLY AGREEMENTS.

International Bookbinders and Printers at a very largely attended meeting held last night at the Labor Temple, decided by a unanimous resolution to make only yearly agreements with the master printers and bookbinders in the future. They also decided to ask the employers to grant increases adequate to meet the increasing high cost of living.

MACHINISTS DEMAND 90 CENTS.

Sixty machinists from the Bawden and Bannfield shops in the city took a strike vote last night at the Labor Temple. These two firms are offering the men from 77 1/2 to 80 cents an hour, and the men themselves are demanding 90 cents. A hundred brass workers also took a strike vote, and are asking for a minimum wage of 80 cents an hour. They are receiving from 60 to 65 cents an hour. No strike will be declared until the Toronto locals have received word from the union headquarters.

EIGHTY MEN ON STRIKE

About twenty-five more sheet metal workers returned to work yesterday. There are more than a dozen firms with no men at work, and about 80 men still on strike. The union is still waiting for the remaining firms to come to time and sign for 90c an hour.

SETTLE GALT STRIKE.

Galt, Ont., May 4.—Negotiations between the iron moulders and the manufacturers have ended in a settlement satisfactory to both sides. The employers grant the men an increase of seven cents an hour, making the minimum wage 72 cents and 48 hours a week.

OVERALLS AT WESTMINSTER

London, May 4.—Overalls are about to invade parliament, but will be combined with spats to relieve the historic place of some of the shock. Major John Robert Prynne, Bowdoin member of the house of commons for the Finchley division of Middlesex, will be the man who will introduce denim to Westminster.

Lanka
means satisfaction

THE aroma tempts — the color charms — the flavor satisfies. After the first cup, more — when the tea is Lanka.

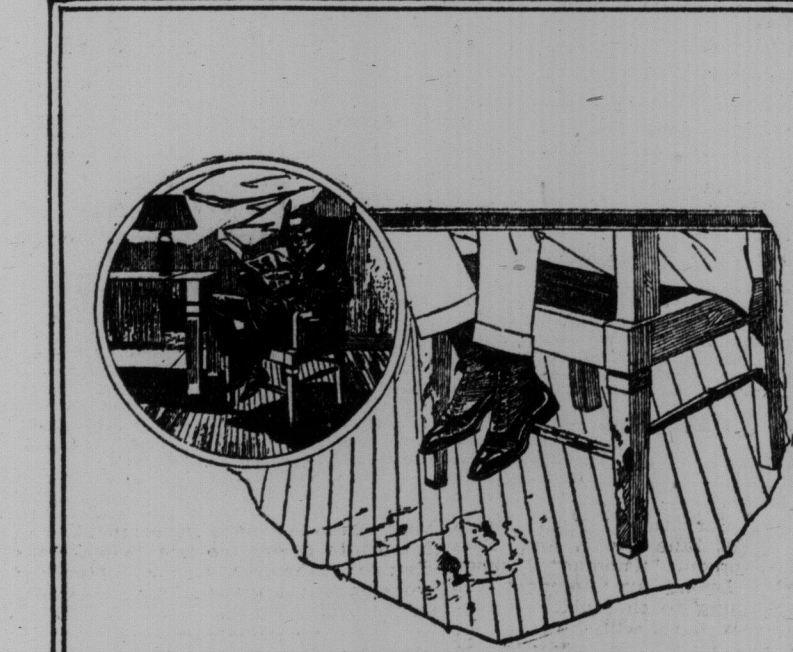

It is Ceylon's choicest grade, British grown, blended to perfection.

COST OF SERVICE FRANCHISE. SPRING WHEAT ACREAGE DECREASES IN ALBERTA

Rochester, N. Y., May 4.—The common council at a special meeting last night, directed the mayor and corporation counsel to negotiate with the New York state railways an agreement for city control of service on its Rochester lines and for the determination of fares to meet the actual cost of operation, one item of which shall be a fair return on property used in giving service. The agreement is to be submitted to the council for approval when negotiated.

Rexina, May 4.—The outstanding feature of the report issued by the provincial department of agriculture is the increase in acreage that will be sown to oats and fodder crops this spring. Generally throughout the province seeding will be in full swing by the end of this week. There will be a considerable decrease in the amount of spring plowing for wheat this year, according to the report, and some farmers are turning from wheat to oats.

No need for Scarred Furniture or Nail Marked Floors

In most every home the furniture shows scars and scratches of hard leather shoe soles, and on the floors are myriads of nail marks from shoe heels.

These scars, scratches, and nail marks should not, and need not, be in your home.

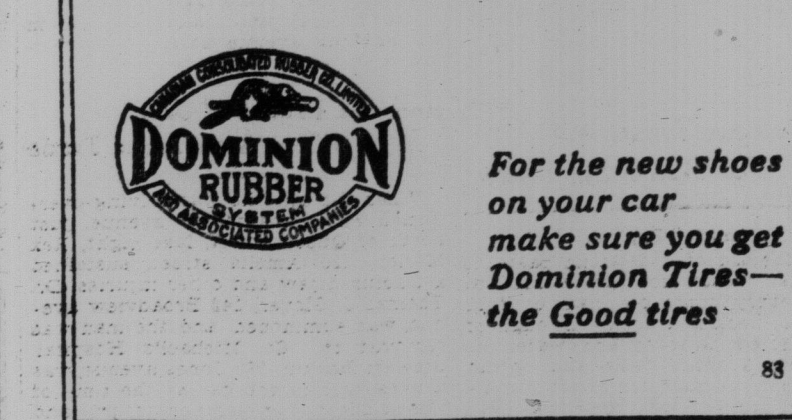

Cat's Paw Heels and Rinex Soles

remove the cause, for resilient rubber does not scar or scratch, and every heel nail is out of sight.

Cat's Paw and Rinex take the noise and fatigue out of walking, cushion each step and remove the "jar" on your nervous system.

They are economical because they out-wear two ordinary leather soles, and are water-proof.

As a test, have Cat's Paw and Rinex put on a pair of old shoes. The benefit will be so evident that you will soon have this combination on all your shoes.

DOMINION RUBBER
For the new shoes on your car make sure you get Dominion Tires—the Good tires

For Sake of Health and Pocket

IN these days, you should buy food not only by price, but by value. On either basis Farmers' Dairy Milk is the best food in the world.

Study the facts in the panel alongside. The word "unabsorbed" means not used, doesn't it?

And the word "protein" represents the most valuable element of a food. It is the body and blood and brain building portion.

In milk every particle of the protein is absorbed—utilized by the bodily functions.

Milk is 100% assimilable. There is no waste!

So Farmers' Dairy milk is more than a complete food. It is a perfect food. It does not overtax the system. It aids digestion.

Doctors, food experts, and health authorities all agree that child and adult alike should have at least a quart of milk a day.

Buy milk from the wonder dairy of the continent where the finest equipment science has devised guarantees its safety, purity and quality.

- The unabsorbed protein portion of whole wheat bread is 30 per cent.
- The unabsorbed protein portion of carrots is 39 per cent.
- The unabsorbed protein portion of potatoes is 32 per cent.
- The unabsorbed protein portion of cabbage is 18 per cent.
- The unabsorbed protein portion of lentils is 40 per cent.
