the tail pipe of his machine the other  
day. What's the idea George? Why,  
to obtain a "clean" exhaust, you boob!

Join the Motorcycle Corps.

There are still a few vacancies in  
the Queen's Own Motorcycle Corps,  
and Pte. H. J. Mills would be glad to  
hear from motorcycle riders willing  
to join. This corps is not being formed  
as an overseas unit, but simply as a  
local motorcycle corps in connection  
with the Queen's Own Rifles, and  
once the preliminaries of recruit drill-  
ing have been carried out, would de-  
vote most of its time to scouting ex-  
peditions, and riding thru the country.  
The corps will drill every Monday,  
Wednesday and Friday at the armory,  
and uniforms and rifles will be  
issued shortly. The whole idea prom-  
ises some very good time for motor-  
cycle riders, and should be welcomed  
in Toronto as similar bodies in Eng-  
land are very popular.

F. W. H. Cooke Makes a Change.

F. W. H. Cooke is severing his con-  
nection with the Gagner Co. as ad-  
vertising manager of Canadian Motor-  
cycle and Bicycle Journal, and ex-  
pects shortly to branch out into  
broader fields. Mr. Cooke will still  
act as secretary-treasurer and press  
agent of the Canada Motorcycleists'  
Association, and any correspondence  
will find him in that connection.

Buffalo Activities.

Summer tours, club runs and com-  
petitions are on the schedule of ac-  
tivities of the Buffalo Motorcycle Club  
this year. Already the club has en-  
gaged the track at the Lancaster  
Driving Park for a series of ten  
motorcycle races to be held before  
October 1. The local track is con-  
sidered one of the fastest in existence,  
and an effort will probably be made to  
secure a situation for the one mile record.  
Also a triple club run is being ar-  
ranged by the Buffalo organization, in  
which the Niagara Falls and Rochester

## MOTORCYCLING

By A. N. B.

T. M. C. News.

Today's run is to Whitby where the  
Toronto party will meet the boys from  
Sarnia, returning together this  
afternoon. Be at the clubrooms, Col-  
lege and Brunswick at 9:30 a.m., and  
see how enjoyable a tour can be with  
good roads, and the company of a  
bunch of good fellows.

It was unfortunate that the weather  
last Sunday encouraged that pernici-  
ous habit, sleeping in on Sunday  
mornings. Those who refused to be  
discouraged by the damp outlook, and  
made the trip to Brampton were well  
rewarded. Once outside the city the  
roads were dry and hard, indeed,  
President Jones said he had never  
seen them better. The run was un-  
eventful, and the party returned about  
3:30. From now on the weather will  
be more settled, and the numbers on  
the weekly runs no doubt be largely  
increased.

A regular meeting will be held on  
Wednesday next, at 8 p.m. Be as  
punctual as possible.

Bill Porter is contemplating a trip to  
England in the hope of obtaining  
some Douglas machines. Owing to  
government contracts the Douglas  
firm are unable to give deliveries, but  
no doubt Bill, who imported what is  
believed to be the only spring frame  
Douglas ever sold, will succeed in  
getting hold of machines somehow.

Harry Wilson has joined the roll of  
honour by receiving his first blue  
paper this season. As Harry is rather  
a desperate character, we trust the  
payment of a fine will be considered  
sufficient. It would be too bad to  
lose his smiling face for "30 days."

Bill Porter has discovered a new  
method for helping overloaded Match-  
less machines up steep hills. For fur-  
ther particulars apply shortly. New-  
port.

We saw George Meldrum with the  
end of a vacuum cleaner attached to  
the tail pipe of his machine the other  
day. What's the idea George? Why,  
to obtain a "clean" exhaust, you boob!
