WHEN you decorate your walls with Alabastine you'll agree that the soft, velvety Alabastine tints outclass wall paper and oil paint in beauty and effectiveness. Their beauty is permanent, too. Alabastine colors will not fade—will not rub off. Alabastine is a dry powder made from Alabaster rock. It mixes easily with cold water and forms a rock cement which hardens on the wall, and can be recanted without removing the old coats. Alabastine is the most durable, economical and sanitary wall coating in the world to-day. It is endorsed by leading
