HUMORS OF HISTORY---39.

The Curfew. H.D. 1086. "Another of William the Conqueror's acts was the institution of the Curfew. A bell was rung at eight o'clock in the evening, and all lights and fires had to be put out. Tyrannical as this seems, the measure may have been wisely intended to preserve the wooden houses from being burned."

BROTHERHOOD OF ST. ANDREW

Organization Has Had Remarkable Growth in Canada --The October Convent.

(Ottawa Journal.) F. W. Thomas, Dominion travelling secretary of the Brotherhood of St. Andrew, is in the city on matters connected with the convention to be held here on October 5, 6, 7 and 8.

"As an evidence of the growth of the Brotherhood I may state that it has more than doubled during the last two years. In 1904, with only one travelling secretary as compared with four in the United States, the increase of Chapters in Canada exceeded that in the neighboring republic by one. I have just returned from a three months' visit to the Pacific coast, where the society has taken remarkable hold and will from present indications grow a greater growth than in any part of Canada. One reason for this is that it seems to be adapted to the peculiar conditions of the country. It gathers young men into the church who might otherwise be lost to it. The clergymen realize the great assistance it renders them, and have heartily endorsed it in every possible way.
