

POETRY.

SONG. BY MRS. CRAWFORD. In Earth's lone desert, In regions above...

When the myrtles of love Breathe their odors around, The music of hope...

All melody breathing, All sunshine and bloom, Love sings to our cradle, And glances on our tomb...

Dr. Mounsey, by way of ridiculing family pride, used to confess, that the first of his ancestors, of any note, was a baker and dealer in hops...

The Christmas pantomime at the Adelphi theatre, London, includes a process for John Bull, consisting of a bale of "annals" from 1840 to 1845...

Whales spoil; so do politicians. Murder will out; so will venality. Good men are scarce; so is British Gold. Humbugs are plenty; so are fools...

"Don't say I never gave you any thing," as a lady said, when she presented her husband with three fine boys at a birth.

HEADACHE.

DR. E. SPOHN, a German Physician of much note, having devoted his attention for some years to the cure and removal of the causes of the NERVOUS AND SICK HEADACHE...

It is the result of scientific research, and is entirely of a different character from advertised patent medicines, and is not unpleasant to the taste.

Sold in St. John, at Mr. A. R. TRURO'S Circulating Library; and by Messrs. Peters & Tilley, T. Walker & Son, and most other Druggists.

Ask, Inquire—Ask those who know.

THOSE only who know by trial or immediate observation, can form any idea of the effects of the perfect relief, of the almost charm like cures effected in cases of the Piles, Rheumatism, all Swellings, and all external pains, no matter how severe, by the use of Hay's Liniment.

For relief of suffering human beings who may be afflicted, I beg you ask—ask of those who know—ask Matthew J. Hayes, Esq., Albany, N. Y.; ask Genl. Duff Green, late of Washington city; each of these gentlemen know of cases unconquerable by all other remedies or physicians thought tried for many years, that have been cured by the use of Hay's Liniment.

MOFFAT'S Vegetable Life Medicines.

THESE Medicines are indicated for their name to their manifest and sensible action in purifying the springs and channels of life, and ending them with renewed tone and vigor. In many hundred certified cases which have been made public, and in all every species of disease to which the human frame is liable, the happy effects of MOFFAT'S LIFE PILLS AND PHENIX BITTERS have been gratefully and publicly acknowledged by the persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The LIFE MEDICINE recommend themselves in diseases of every form and description. Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them, and to remove the hardened faeces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these and leave such collected masses behind as to produce habitual constiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of these well-informed men against such medicines—or, in other words, various other heresies to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs.—The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from the stomach, courses freely through the veins, renews every part of the system, and re-planting thus the tanner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced to be a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Anxiety, Langour and Melancholy; Constiveness, Diarrhoea, Cholera, Fevers of all kinds Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scurvy, Ulcers, Invertebrate Sore, Scorbatic Eruptions and Bad Complexions, Eruptive complaints, Sallow, Cloudy, and other disagreeable Complexions, Salt Rheum, Erysipelas, contagious Sores and Inflammations, various other complaints which affect the human frame. In FEVER and AGUE, particularly, the Life Medicines have been most eminently successful; so much so that in the Fever and Ague districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is to be particular in taking the Life Medicines strictly according to the directions. It is not by a newspaper notice, or by a clearing that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial.

Moffat's Medical Manual, designed as a domestic guide to health.—This little pamphlet, edited by W. B. Moffat, 375 Broadway, New York, has been published for the purpose of explaining more fully Mr. Moffat's theory of disease, and will be found highly interesting to persons seeking health, in curing common prevalent diseases, and the causes thereof. Price, 25 cents.—for sale by Mr. Moffat's agents generally.

These valuable Medicines are for sale at the Circulating Library, in this city.
