Is the price of clothes important to you?

Most men have to think about the price of clothes; they can't spend too much.

Because they feel that way, very often they don't spend "enough."

They buy on a "price" basis—and that's all they get—a "cheap price."

The thing that really makes clothes low priced is the good quality that gives long wear.

We specialize in good quality—20th Century Brand and other reliable makes because we know they save money for the men who buy them.

Satisfaction—or money back is our guarantee.

Always given—but seldom is it requested.
