

## THE MONCTON TEAM

Sketch of Some of The Railway Town Players

Some Snappy Players on the Roster—Manager D. H. McDonald Announces His Line-up For Halifax

The following is a condensed history of the recent achievements of the players that have been signed for the Moncton baseball club:

Frank Wilds—Catcher for the Vics, played last season for Bangor, Fredericton and St. Croix in the N. B. and Maine League. He played in the outfield for these teams, and established a batting average of .350 and in the outfield an average of .347. He also played second and third and pulled down respectively .387 and .350 in those positions. He would have tried pitching, only his name was against him.

John Stevenson—Pitcher for a few games in the New England League last year, but was compelled by illness to stay out of the game for the remainder of the season. He is recommended as a good man.

Matthews—First base, last year with Bangor in the N. B. and Maine League. The team led him in batting with an average of .378. As a first baseman he made a third with .397 of an average. McPherson—Second base, with St. Croix last year batted for .354. On second base he made the perfect score of 1.000.

George Boardman—Playing manager and third baseman, with Bangor, in the New England League in 1912. During his season with Bangor his batting average was .316 and his fielding average .951. Last season he was with Bangor in the New Brunswick and Maine League. His fielding average was .921, while he slugged the ball for .330 slightly better than the year before.

Joe Neptune—Shortstop, was with Lynn in the New England League last year. He batted for .310 only, but as a shortstop he pulled down .905. Was with N. B. and Maine League in 1912.

Jacobson—Outfielder, played with St. Croix in the N. B. and Maine League last year. His batting average was .314 and as an outfielder he acquired a blue-book rating of .890.

Reed—Another outfielder, played with Bangor in the N. B. and Maine League and hit for .348. As an outfielder he had a perfect score, ranking one of the highest in the league with 1.000.

Purdy—Also an outfielder, has also been signed. His record is not available at present, but he has been highly recommended.

Halifax Players

Manager McDonald has certainly lost no time since jumping into the breach left by the retirement of the original Maritime League enthusiasts in Halifax and was able yesterday to announce the complete line-up with which the Halifax team will start the season. Although the names are new, they have all a reputation, having played either with or against Cy Peris, the player manager of the Halifax aggregation. They have been mostly with the New England League teams and are described as a fast lot of artists.

Peris, manager, will hold down the first sack. The other players signed are McEwen and Kennedy, catchers; Carney, Calnen and Martin, pitchers; Kenney, second base; Walsh, third base; Maloney, shortstop; Collins, Keefe and Ryan, outfielders.

St. John

The St. John roster is being completed and includes good ones. Announcement is expected very soon. The Pictou county players are not yet known here.

## FOOT CALLOUSES QUICKLY REMOVED

Anything on your feet that should be there—whether corns, calluses or sore lumps—they can all be removed in short order by **Pain-Buster**. Think of the pain you are saved when that sore corn goes. It is foolish to imagine that you can get rid of them by picking or cutting. Better use **Pain-Buster**. The work will be done quickly and without pain. **Pain-Buster** costs 25c per bottle, sold and recommended by druggists.

## WAS MISERABLE COULDN'T STAND

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lackawanna, N. Y.—"After my first child was born I felt very miserable and could not stand on my feet. My sister-in-law wished me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. I do all my own work."

A. F. KRAMER, 1274 Electric Avenue, Lackawanna, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, disordered nervous system. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Ritchie Breaks From His Manager

(FROM T. S. ANDREWS)

Milwaukee, May 10—During the last few days two of the most prominent fighters in the world saw fit to break from their managers.

Willie Ritchie, the light weight champion, parted company with Harry Foley, who has been looking after his interests since Willie split with his former manager, Billy Nolan, while Eddie McGoorty, one of the claimants to the middleweight title, handed Jos. Levin, manager, his passports in Australia.

Ritchie announced that he had released his manager for financial reasons; that he can get along very nicely with the help of his two brothers, one of them in the west and the other in the middle west. In this way, he will keep the money in the family. McGoorty, according to his story, was not satisfied with the way Levin conducted affairs for him, and simply decided to take care of his own business in the future.

The lightweight champion and near champions had better watch out for two young men who are coming along at a very fast clip—Sam Robideau of Philadelphia and Milburn Saylor of Indianapolis. They have been making a remarkable showing and if they continue at their present gait, they are liable to make trouble for the leaders. Robideau, who is managed by Jack McGuigan of Philadelphia, has been considered a very tough lightweight, but his best performance was when he defeated Jimmy Duffy of Lockport, N. Y., in a twelve-round contest in Waterbury, Conn. And Duffy has been considered good enough to put against Ritchie for a lightweight championship battle.

Saylor has not only defeated all the best lightweights in Australia, but he went out of his class and knocked out Tom McCormick, who was considered the welterweight champion of Great Britain until defeated on points by Matt Wells, former lightweight champion, who recently entered the welterweight class. Saylor's work has really been remarkable and he has authorized the writer, through his manager, Ray Bronson, to post \$5,000 to go as a side bet for a championship battle with Willie Ritchie.

Do you ever think such a fate might easily be yours? Suppose you knew that although you have had scratches, cuts, burns, sores, and have escaped time you sustained such an injury blood-poisoning would set in and you might die? Did it ever strike you that way? The next wound, although only slight, received prompt attention? Certainly.

Now get this further thought. You can't say that the very next cut or scratch or burn or scald you get or neglect will not turn to fatal blood-poisoning. Did it ever strike you that way? The same applies to your children.

The surest safeguard against blood-poisoning is Zam-Buk. No single poisonous germ has yet been discovered that Zam-Buk does not kill. As soon as Zam-Buk is applied to a cut, burn, scratch, tear or sore, the place that is injured against blood-poisoning from the germs in the air. Not only so, but Zam-Buk stops the smarting and pain. Healing is set up right from the first application, so that at the same time Zam-Buk is antiseptic, soothing and healing. No other salve acts so speedily. That is why in every country in the world Zam-Buk is now the most widely used ointment. For cuts and wounds, eczema, piles, ulcers, abscesses and all skin diseases and diseases Zam-Buk is without equal. All druggists and stores at 50c a box, or post free from Zam-Buk Co., Toronto, for price.

You have not yet tried Zam-Buk, cut out this article, write across it name of this paper, and mail with 1c stamp, to pay return postage, to Zam-Buk Co., Toronto. We will send you free trial box.

THE MINIMUM WAGE (The Canadian Courier)

Many people favor a minimum wage for women and minors, but few favor it for men. Nine states of the Union now have a minimum wage law for women,

although it is too early to say how they are working out. In Victoria, Australia, they have had a minimum wage law for both men and women for seven years. Recent statistics of the clothing industry in that state show results as follows:

	Men	Women
Minimum wage	\$10.80	\$ 8.84
Average wage	\$12.84	\$10.14
Per cent. excess	18.8	17.4

This shows that a minimum wage law may work to help the weak without interfering with the rewards of those who do not need the help of the law.

Toronto is the only place in Canada where a minimum wage has been adopted. In this city the council recently adopted a minimum wage of \$15 a week for male workers. They have fixed a similar rate for women.

ACHING BACK GETS RELIEF QUICK! ONE RUB WITH "NERVILINE" CURES

Every Bit of Stiffness and Soreness Goes When "Nerviline" Is Used

Pain in back or side is awful hard to reach. Deep in the tissue is a congested, strained muscle. It is a long way for a liniment to go. Liniments you have used have not reached it, and the pain bothers you, whether moving or lying down.

What a pity you haven't tried Nerviline! Penetrating, you ask? Yes, and powerful, too. Nerviline strikes in far deeper than any application you have ever used. You might pay a dollar, ten dollars, a hundred, for that matter, but you could not equal Nerviline, either in strength, quickness of action, or permanency of relief.

If you think this too much to say for Nerviline, try it, and be convinced. If you receive from Nerviline even a little less relief from pain than this advertisement induces you to expect, you can get your money back.

The only pain remedy in the world sold under a guarantee is Nerviline—down. It is safe to try. Nerviline is sold by druggists everywhere 25 cents or 50 cents a bottle, or direct from The Cataractine Co., Kingston, Canada.

## Health and Beauty Helps

BY MRS. MAE MARTYN

Mrs. A. T. B.: You are not shampooing often enough and may not use the best shampoo. Try my favorite, which is canthrox. Dissolve a teaspoonful in a cup of hot water and rub briskly as you pour it on the hair and scalp. This makes an abundance of rich, cleansing lather that is very soothing to tender, itchy scalp. Rinsing leaves the scalp immaculately clean and each strand of hair will be soft, shiny and full of health. Canthrox shampoo is splendid for correcting oiliness, dryness or profuse dandruff. I like its drying qualities, too.

Mrs. G.: The symptoms you describe, pains and aches in the limbs and small of back, loss of appetite, lack of strength and ambition, are danger signals—warning your blood is laden with poisons which will cause serious sickness if not eliminated from the system. The karene tonic of grandmother's day is excellent to use, and can be prepared at home at little cost by dissolving ½ cupful sugar and 1 ounce karene (which you can get at your drug store) in ½ pint alcohol (not whiskey), to which is then added hot water to make a full quart. A tablespoonful before meals is the dose. The timely use of this tonic frequently saves serious ills.

Mrs. J.: Yes, you can cure your weak, watery eyes with a soothing, healing, strengthening eye tonic which can be made at little cost by dissolving an ounce of crystals in one pint clear water. If you will put 2 or 3 drops in each eye daily it will relieve the inflammation and soreness and reduce swelling. This crystals tonic is especially fine to make the eyes sparkle and give them expression.

Society Girls: Here is that weight-reducing treatment which she told you would work without danger or inconvenience. Put 4 ounces parnosin (which you can obtain at any drug store) in 1½ pints hot water. Strain when cold; take 1 tablespoonful before meals. Keep up treatment until weight is sufficiently reduced. Parnosin is gentle in action and positive in results, and leaves the flesh and skin firm and smooth.

Girls: It is easy to make an inexpensive hair tonic at home by mixing 1 ounce quinzoin with ½ pint alcohol, then adding ½ pint water. The scalp should be massaged once or twice a week with this quinzoin tonic. Its regular use will quickly banish the dry, scaly condition and correct excessive oiliness, and when this is done the natural color and silky softness returns, and the hair will grow in long and thick and have a beautiful sheen.

Marge: Friends tell me I have every reason to be proud of my complexion, which is the result of discarding powder and using spumax lotion. This is inexpensive and easily made at home. I just dissolve 4 ounces spumax in ½ pint witch-hazel or hot water, then add 1 teaspoonful glycerine, and it is ready. I apply this lotion sparingly and rub lightly for a moment until it dries and seems to become a part of the skin, to which it gives a velvety smoothness and refined color that is delightful.

O. T.: The wrinkles of which you speak will soon vanish if you apply almond cream-jelly and massage the long way of the creases. This simple treatment tends to vivify the dormant tissues, causing the creases or lines to fill out. To prepare the cream-jelly put 1 ounce almond (which you can get at your drug store) in ½ pint water and add 2 teaspoonfuls glycerine. Let remain overnight before using. As a skin-cleanser and beautifier this greaseless cream-jelly is not equalled.

## YANKEE TWIRLER WHO IS PITCHING STAR BALL

Ray Caldwell, the Yankee star twirler, has a superb record to his credit. In three games that he pitched in twenty-five consecutive innings no runs and nine base hits were gathered from his wonderful delivery. If Caldwell sticks to business Chance says he will lead all major league pitchers in the winning percentage when October rolls around. Chance thinks that Caldwell is the greatest natural pitcher in the profession right now.

NEW WING OF BRITISH MUSEUM

King George and Queen Mary last week opened a new wing of the British Museum which has just been completed at a cost of \$1,000,000. It is the first part of a large scheme of extension.

In 1895 the government bought a considerable portion of the Duke of Bedford's property around the museum for \$1,350,000 and a large area was cleared. A legacy of \$250,000 bequeathed by Vincent Stuckey Lean for the enlargement of the museum gave impetus to the present extension. The bequest was intended particularly for the extension of the reading room and library, to which the testator was a frequent visitor.

The new building is in architectural harmony with the old museum. Its facade, which is flanked by two massive towers, is of Portland stone and the outer walls and pedestals of the forecourt are of Scotch granite. The main entrance is surmounted by a balcony, the parapet of which is formed by the

stone laid in June, 1907, by the late King Edward VII. The doorway itself is formed of marble, surrounded with granite, and is closed by a bronze door, the upper panels of which are sculptured in relief.

The architectural composition of the building is severely simple. In the interior the object in view has been to deprive the extension of everything irrelevant to the main purpose, the primary idea being to make it a mere background for the exhibition of the nation's treasures.

An important feature of the new wing is the staircase, which is the link between the old building and the new one. This is extremely simple in design. Its walls are covered with marble, which has been selected more for its texture as a background for antique sculptures than for its veining.

The building comprises a basement, as well as subground, ground, mezzanine and top floors. The top floor will accommodate the print department. In the basement will be stored books or newspapers. The

ECONOMICAL—Heats the house well without burning all the coal you can buy.

## McClary's Sunshine Furnace

Gives steady, even heat on least fuel. See the McClary dealer or write for booklet.

Sold by M. J. Sliney, City; W. S. Fairweather, Sussex; Summer Co., Moncton; E. Chestnut & Sons, Fredericton; Boyle Bros., Enfield; Jas. Wilson & Sons, St. Stephen; Grant & Morin, St. George; H. H. Faulkner, Woodstock; J. W. Montgomery, Hartland; L. A. Dugal, Edmundston.
