*"Do you mean that girl with the spots on her face?"*

Overheard in a Street-Car. There's a lesson right there!

Little blemishes of complexion, small sores, eruptions, spots, are not only unpleasant to the person afflicted, but are the first thing noticed by other people.

A little Zam-Buk applied at night to spots, eruptions, sores of any kind will do wonders.

Zam-Buk is not a greasy preparation which will go rancid on your dressing table. It is made from healing, herbal extracts and essences. Always pure, fresh and ready for use. Doesn't lose its power. Keeps indefinitely. Healing, soothing and antiseptic all the time. Try it!

50c. box all druggists and stores.

**DON'T BLAME YOUR SHOES**  
It's the lack of the Foot that caused Corns, Bunions, Calluses, Warts, Blisters, Headache and a hundred other distresses. And yet folks persist in throwing away money trying to get shoes to overcome troubles that shoes are not responsible for. Step into a shoe store or drug store and ask for a pair of "Foot-Binders." Wear them and you'll simply be astonished to find how long you can stand, and how far you can walk without your feet bothering you. Don't take imitations. **HOW GOVERNMENT DID WORK PREDECESSORS NEGLECTED**

W. F. Hatheway Tells of Neglected Promises of Reduced Price of School Books—Present Government Fulfilled Obligations to People and Stumpage Collections are More Honest—Budget Debate Continued.

Fredericton, Mar. 26.—The House met at 3 o'clock. Mr. G. G. G. moved that the bill to amend the workmen's compensation act be not read a third time, but be referred back to the committee of the whole House.

Mr. Sweeney presented the report of the standing rules committee. Mr. Robinson presented petitions in favor of bills to enable the board of school trustees of Moncton, to issue debentures to enable the city council of Moncton to fix the valuation on certain properties for assessment purposes also to enable the city council of Moncton to sell certain lands.

Hon. Mr. McLeod introduced a bill to incorporate the St. John River Hydro-Electric Company.

Mr. Upham introduced a bill to amend Cap. 86 act of assembly 1895.

Hon. Mr. McLeod introduced a bill to incorporate the St. John River Hydro-Electric Company.

Mr. Sweeney presented a petition in favor of a bill to enable the city council of Moncton to issue debentures to construct permanent side-walks.

Mr. Baxter on behalf of Mr. Slipp, introduced a bill to amend the act incorporating the Fredericton and Grand Lake Coal and Railway Company.

Hon. Mr. McLeod introduced a bill relating to the St. John Canal and Dock Co.

Hon. Mr. McLeod introduced a bill to incorporate the St. John and Quebec Railway Bridge Company.

Hon. Mr. McLeod presented the annual report of the Moncton Hospital.

Mr. Baxter introduced a bill to further amend the act incorporating the St. John Rural Cemetery Co.

Hon. Mr. McLeod presented a petition in favor of a bill relating to the City of Moncton.

Mr. Leger (Gloucester) introduced a bill to amend the act incorporating the Natural Electric and Water Power Company, Ltd.

Mr. LaBillette introduced a bill relating to the County of Restigouche.

Mr. Munro introduced a bill relating to the town of Woodstock, a bill to amend Cap. 35, 47th Victoria, relating to the Town of Woodstock.

Mr. Munro presented a petition of the agricultural society No. 41, in favor of a bill to amend Cap. 34, act of assembly 1895, relating to the petition against the passage of the bill to incorporate the Hartland and Electric Power Co.

The House went into committee with Mr. Sprout in the chair, and agreed to an act to enable the municipal corporation of St. John to issue debentures for hospital improvements, also an act fixing the valuation of the Edward Pattington Pulp and Paper Co. and an act relating to the duties of trustees of the consolidated school district No. 1, Kings Co.

The House went into committee with Mr. Sprout in the chair, and took up consideration of the New Brunswick factories act.

Hon. Mr. Maxwell said that the bill had been before the committee of the whole House, and it was thought wise that it should be amended. He moved that an amendment be made that no child should work in any mechanical or manufacturing establishment during school hours except in special cases authorized by the factory inspector.

As the section stood it prevented any child from working during school hours at any occupation, and many members of the House had taken exception to that as it might prevent children from assisting in the necessary support of families.

The committee agreed to the bill as amended also to the bill to amend the act respecting the solemnization of marriages.

On the order of the day being called—

**Failed to Reduce Price.**  
In 1903 he was a defeated candidate with other members of the floor in St. John, and he well remembered on declaration day following the election, he asked those gentlemen who had been elected to represent the city of St. John, to give cheaper school books to the people of the province and to cut out the middleman's profits, which existed. Nothing was done until 1907 and then he understood that with the elections just coming on the government then did make some promise that if returned to power they would do something to reduce the price of school books. It was to the credit of this government that they had reduced the price of school books just as soon as possible after they assumed office.

An honorable member of the opposition had referred to the great loss this province had sustained in the defeat of reciprocity. He would advise his honorable friends that the less they said about reciprocity either in English or French the better, and they should pray to the just and merciful God that the people of the country would not remember their vote in favor of such an arrangement.

Mr. Hatheway continuing, said that he regretted the fact that the province was very considerably behind in education. With a population of 190,000 there was the startling number of 28,761 persons who could not write, while Ontario with a population of 2,600,000 contained only 28,830 who could not read. He did not know that the government could do any better in advancement of education with its present revenue, but it would be a good thing to inaugurate some policy which would serve to remedy these conditions.

While the agricultural department as directed by Hon. Dr. Landry had been criticized by members of the opposition, that criticism was not sound. The province was certainly behind in agriculture, but the government had done a great deal to improve farming conditions. He felt that the reason that the province was so far behind in agricultural development lay in the fact that there was not sufficient agricultural education and until the province could secure sufficient funds, he did not know how conditions could be bettered. Still there was a bright side.

**Mergers.**  
Mr. Hatheway resuming his speech on the budget, said that when he moved the adjournment of debate on Monday evening he had been referring to the advisability of this legislature taking some steps to better safeguard interests of the province than at present provided under the joint stock companies act. Since he had been addressing the House he had received a copy of the Monetary Times, one of Canada's leading financial publications, which gave some interesting information as to large mergers which had been formed by bringing a number of smaller companies together under one concern which would have largely increased the capital and stock issuing privileges. The list included the Asbestos Corporation, which was made up of five companies, which had a total capitalization of three and a half million dollars and were merged in the sum of twenty-five million dollars.

That showed the extent of water in that company. Then there were bakeries made up of five companies with a total capitalization of \$75,000 and which were merged with authority to issue stock to the extent of \$1,000,000. Then there was the Cement Company made up of twelve smaller companies representing an investment of seventeen and three quarters millions and they were merged together with an authorized capital stock of \$38,000,000.

Another company mentioned was the Canada Bolt and Nut Co., which was made up of five companies with a total investment of \$985,000 and which when merged were allowed to issue stock up to \$3,500,000. He mentioned these instances to show the necessity of this legislature keeping a firm grip on many companies now seeking incorporation in this province.

In Massachusetts they had a very good system for securing returns from and in other ways keeping a complete record of companies' business and investments and for insuring truthful returns. Something along the same line should be done in this province to protect people so that companies would have to pay their just share of taxation.

He was sure that the people of the province would read with much satisfaction the reports on the operation

of the crown land office during the past few years. Stumpage had been increased from \$191,414, collected in 1908, to \$367,665, collected in 1911, and this was accomplished in ten years. He believed that the good indication that the cut on the crown lands of the province amounted to 306 million feet in 1908 and 285 million feet in 1911. In other words with an export reduced by 20 million feet stumpage collections had been increased \$170,000. He believed that the lumber cut in 1911 on crown lands was no more than cut in 1908 and he had received a copy of the red book just issued, which showed that exports of lumber to the United States as well as to the British market were about the same in 1908 as in 1910. Any unbalanced market must reduce that cause for increase in revenue from the stumpage due to a better collection rather than to any increase in the cut.

**GUIDED FROM HEAVEN TO THE EARTH BY AN ANGEL**

Dorothy Kerin, a Life Long Invalid, Has Strange Experiences While in a Trance—Wakes Up in Perfect Health and Obeys the Command of Laws to Get Dressed—Saw Spirit in Golden.

London, March 26.—On the morning of Feb. 31, Dorothy Kerin lay dying at 204 Milkwood road, this city. In the evening she was well. When the sun rose that Sunday she was blind.

Three hours after it set she could see as well as anybody!

At breakfast time she lay smitten with pain, unable to walk.

She ate supper at the table surrounded by a joyful father and mother and friends.

"An angel from heaven met me at the gate and brought me back!"

"That is how Miss Kerin explains her remarkable recovery. And nearly all England believes it!"

Miss Dorothy is a beautiful girl, with dark flowing hair and large, lustrous eyes. She is 22. During most of her life she has been a helpless invalid. For five years she never stood upright. For a fortnight she was unconscious and delirious. That Sunday she seemed to be dying. The last of 37 physicians had made minutes her life.

"We did not think she would live until sunset," her mother said. "As the shades of evening were falling we gathered about our loved daughter's bed expecting that she would leave us any minute. She suddenly gave a great sigh, and we thought she was gone. But with a wonderful smile, which none of us can forget, she stretched out her arms and held them up for a few moments."

"Then she lay still. Presently her lips moved. She stretched out her arms again, then drew her hands over her eyes, always smiling in that wonderful way. For weeks she had been blind and deaf. Her terrible weakness, due to tuberculosis and diabetes, had made her helpless."

"And then we saw a miracle performed before our eyes. She looked at us, her eyes at first squinting and then becoming quite natural in ex-

pression. I asked her: "Dolly, do you know me?" and she replied: "Of course I do, mummy."

She sat up and cried: "I am to get up!" She seemed under some mysterious influence. "You can't get up, my darling!" I answered. But she said: "The angel told me to," she said. She was the calmest person in the room.

"One man present was a professional atheist. He fell on his knees, sobbing and praying aloud."

"Next day Dolly laughingly ran up and down stairs. She was in the highest spirits, when a newspaper man called to see her."

"Yesterday (Sunday) I was lying there, conscious for the first time for several days. I seemed to feel slipping from life. I heard whispers and sobs and prayers of those who loved me best. Things grew thicker than even my blind eyes had made them before. I didn't fear. I didn't even think. I just drifted, without an effort, without a thought, into blackness."

"Suddenly I saw a dazzling light—brighter than any fire I had ever seen. From out the great, golden flame I saw two hands, while a voice clearer than any I had ever heard, said: 'Dorothy, your sufferings are over. Get up! You can walk!'"

"Then I heard mother asking me if I knew her."

Dr. Norman, an eminent London physician, who had given her but a few brief hours of life that Sunday morning, was nonplussed when he saw his patient Monday. "Her's is the most unusual case I have known," he said. "I should have said Saturday evening that it was quite impossible for her to have ever stood for one moment again upon her feet, and now I just saw her running down stairs. I don't know what to say about it."

Meanwhile Dorothy is wearing her sister's clothes, for she herself has been an invalid so many years that her wardrobe is extremely limited.
