

EIGHTY-FIRST ANNIVERSARY OF ST. JOHN WATER SYSTEM

Remarkable Development Has Been Made Since First Modest Start of Service—Lily Lake Once Supplied City With Water—New Mains and Service Renewals Made During the Last Year.

October of this year marks the eighty-first anniversary of the foundation of the water service to St. John. From an extremely modest start the service has grown to its present day proportions. Last year was marked by the extension to East St. John. This year saw many renewals made. The mains in Brussels street, City Road and Douglas Avenue are at present being renewed and the service made up to date. The new pipe line through the Dry Lake has been completed and throughout the city many of the pipes from the mains to the houses have been replaced with larger pipe so that when the permanent paving is laid there will be no necessity of any extensive work being undertaken in these streets.

Under the new ownership the system was administered by a commission consisting of a chairman and one commissioner appointed by the city and one commissioner appointed by the then Parish of Portland. The first board consisted of John Beers, chairman, John W. Walker and John Owens. As the demand for water increased, new mains were laid to Little River No. 2, a twenty-four inch pipe, in 1877, and No. 3, of the same size in 1878. Upon the union of the City of St. John and the town of Portland in 1893, the commission was abolished, the commission being A. Chipman Smith (chairman), G. H. Martin and John Kelly. From 1893 to 1900 the water affairs were administered by the board of public works, A. Chipman Smith continuing as director. The water and sewerage board was created in 1900 and took over the department which was operated successively under the directorship of A. C. Smith, R. H. Cushing and William Murdoch. Under the present administration the department has undertaken the greatest single extension since the beginning of the system when the water mains were extended to Loch Lomond. Meanwhile the union between the city and Carleton had brought the west and system, with its source at Spruce Lake, under the control of the department, thus enlarging its duties and responsibilities.

The water supply for this system was secured from Lily Lake, the water being pumped to the service tanks, the wheel of a great mill, the Gilbert Brothers and located below the outlet from the lake. From the tall race of this water power mill, a wooden box conduit conducted the water to a steam pumping station on the north side of the City road, near the Marsh creek. Thence it was forced by steam power up the hill to the reservoir on the heights and from there by gravity to the remainder of the system through the King street main. The completion of the system was formally observed in October, 1838, when the water was turned on and allowed to gush from the hydrant in Market Square.

It is of some interest to note that all the cast iron pipes laid in 1838 still are in use and are giving good service, although four score years of age. No further extensions were made for six years, but in 1844 few extensions of limited size were found necessary. In another six years the demands upon the system had increased to a point where the supply from Lily Lake began to prove inadequate and in 1850 a twelve-inch main was laid to Little River and the Lily Lake supply was abandoned. In the following year, 1851, the policy of civic ownership was adopted.

and the property and rights of the company were taken over by the city. Under the new ownership the system was administered by a commission consisting of a chairman and one commissioner appointed by the city and one commissioner appointed by the then Parish of Portland. The first board consisted of John Beers, chairman, John W. Walker and John Owens.

MADMAN AT THE STEERING WHEEL

Remarkable Story of a Taxi-cab Tragedy in England.

The allegation was made at a South-west inquest yesterday that a woman was killed by a taxi-cab driven by a lunatic. The inquest was on Mrs. Lucy Taylor Hawkins, aged seventy-three, of Weston street, Bermondsey, who was knocked down by a taxi-cab without lights as she was crossing Old Kent road. It was stated that the taxi-cab, which was proceeding at a fast pace, did not stop, but Lieutenant Charles Schwirder, of the Naval Staff College, Greenwich, who was driving a car, went in pursuit and found the taxi-cab outside a public house near Great Dover street. A policeman afterwards went to arrest the driver at his home at Peckham, but learned that he had been taken to Chislehurst Hill infirmary, to be kept under observation as a supposed lunatic. Detective Inspector Story told the coroner that the taxi-cab driver would probably be certified as insane, and the inquest was adjourned. London Express.

MERCHANTS ARE IN CONVENTION AT MONCTON

Continued from page one. Dominion Secretary Prover in a lengthy address, said the Retail Merchants' Association was being maligned and slandered on all sides. He referred particularly to the report of the Royal Industrial Relations Commission who, he said, rambled all around the country and there was not a retail merchant in the whole crowd. The board, he said, was composed of labor men, lawyers and professional men who were commissioned to find out what was wrong with the country. He claimed that the retail merchants paid more wages, contributed more to charitable objects and for the maintenance of the public services than all the other classes put together. The time had come when they had to say to the government, the manufacturers, laborers and professional classes that they had no mandate to speak for the retail merchants in the Dominion of Canada. There was, he believed, a single commission in the country that labor had not its nose stuck into. Labor had a right to representation, but they were being altogether too much represented. They were trying to run the country. It was enough to make a man's blood boil to think the government refused to recognize the retail merchants in this democratic country. In conclusion, he said the retail merchants were growing in strength in the Dominion, and they should take steps to see that they had representation on these commissions.

The provincial secretary, Miss Alward, of St. John, in his report showed that the receipts were larger than last year, being slightly over \$5,000. The expenditures were also heavier leaving a surplus of \$28. Provincial Treasurer A. A. MacIntyre, of St. John, in his report showed that the receipts were larger than last year, being slightly over \$5,000. The expenditures were also heavier leaving a surplus of \$28. Provincial Treasurer A. A. MacIntyre, of St. John, in his report showed that the receipts were larger than last year, being slightly over \$5,000. The expenditures were also heavier leaving a surplus of \$28.

Provincial Treasurer A. A. MacIntyre, of St. John, in his report showed that the receipts were larger than last year, being slightly over \$5,000. The expenditures were also heavier leaving a surplus of \$28.

DEATHS

FOSTER—At Oakland, California, U. S. A., on Sunday, Oct. 6th, Mrs. Elizabeth Foster, of this city, widow of the late Edward Henry Foster, leaving four sons and two daughters. Notice of funeral later. COFFEY—Suddenly, at his home, at Reed's Point, on Tuesday, Sept. 29, John C. Coffey, third son of Mrs. and the late Richard Coffey, aged twenty-four years, leaving a mother, four sisters and four brothers to mourn their sad loss. BEAMISH—In this city, on the 6th inst., after a long illness, at his residence, 44 Wilmot street, John Beamish, leaving his loving wife and four daughters to mourn. Funeral on Thursday, 9th inst., from Knights of Pythias' Castle Hall, 43 Germain street. Service at 10 o'clock (Daylight time).

MAJOR PORTER SPEAKER AT THE MARITIME PRESBY. SYNOD WED.

The Forward Movement One of the Chief Subjects of Discussion and Was Handled by Clergy and Laity—Moderator of General Assembly One of the Speakers.

Special to The Standard. Fredericton, Oct. 8.—This afternoon's session of the Maritime Synod was opened at 2:30 p.m. with a short period of devotional exercises. Major (Rev.) F. S. Porter addressed the Synod on the work of the British and Foreign Bible Society. He said he had great confidence in the Presbyterians, as he had never heard of them falling down in their allegiance to the word of God. These were many opportunities for work in the Bible Society. They were translating and circulating the Bible, which required the co-operation of all classes of people in every part of the world. The old traditional differences of the various sects were fading away, and the people were looking today for the solution of the great needs in India and China required the united efforts of all of the Christian churches of the world.

member his long military in the Maritime Synod and asked for their prayers in his new field. Dr. W. J. Farnham, chairman of the Halifax Ladies' College, Halifax, N. S., was called upon to report on the college. He mentioned the changes in the institution, as well as improvements to the buildings. He said he regretted the death of Robert Laine, the late principal of the college. They had obtained Miss Florence Blackwood, who is a graduate of Dalhousie University, and also of the Nova Scotia Provincial Normal School, and has had considerable experience as a teacher.

TO INVESTIGATE TIBBITTS' DEATH TOMORROW

New Sub-Inspectors Are Announced by Chief Inspector Wilson—Corporations Gazette.

Special to The Standard. Fredericton, Oct. 8.—Coroner George A. Perley, ex-M. P. of Moncton, expects to begin the inquest into the death of the late John Tibbitts, of Ripples, tomorrow. Coroner Perley stated today that he had been delayed through inability to secure a physician to make a post-mortem examination. William D. Bennett has been appointed Judge of Probate in and for the County of Albert, in place of M. T. Thompson, resigned. E. Allison Mackay, of Fredericton, has been appointed sitting magistrate for the city of Fredericton, and Robert McKinnon, of Madam, has been appointed stipendiary and police magistrate for the parish of Madam, with civil jurisdiction, in place of Luke Lawson, resigned.

VON DER GOLTZ'S TROOPS HEED THE GERMAN APPEAL

Some of the troops began on Saturday, it is declared, and several transports bearing contingents of these troops homeward bound will leave shortly.

Copenhagen, Oct. 8.—The German Government's appeal to General Von Der Goltz's troops to withdraw from the Baltic provinces have proved successful, according to a Berlin despatch received here today. The return of some of the troops began on Saturday, it is declared, and several transports bearing contingents of these troops homeward bound will leave shortly. According to the Aftn. Om. Blatt, most of the Von Der Goltz troops have declared themselves willing to return to Germany, only a small part of one division being undecided as to its attitude. The withdrawal, according to the same newspaper, is taking place under the command of General Von Der Goltz, as General Eberhard, who was appointed recently by the government to take charge of the evacuation, has not yet arrived on the scene.

S. O. S.

If Constipated, Bilious or Headachy, take "Cascarets"

Stick headache, biliousness, coated tongue, or sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissues it causes headache. Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels. A Cascaret tonight will surely straighten you out by morning. They work while you sleep.

How About Your Fall Overcoat?

Fall weight overcoats in the smart new models; beautiful fabrics—gabardines, tweeds, worsteds knitted fabrics, chevots—many with silk yokes and sleeve linings. Coats for business wear, motoring, travelling, dress occasions, rainy days. Prices range from \$20 to \$50. "A wrinkle for a sprinkle." Raincoats in Fall weights in new patterns and latest styles—\$12 to \$35.

Gilmour's, 68 King St.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

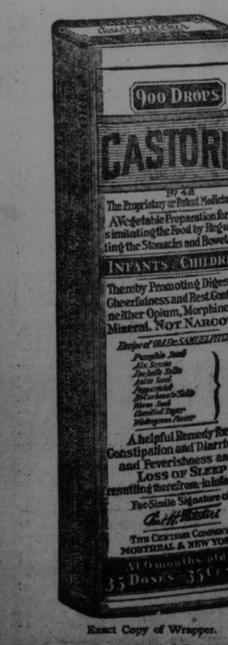

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Rheumatism, Aching Joints, Lumbago, Sciatica, Neuritis, and for Headache, Neuralgia, Migraine, Dizziness, take Aspirin. Aspirin—the genuine Aspirin—prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets each but a few cents. Druggists also sell larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must buy "Bayer". Aspirin is the trade mark registered in Canada as Bayer's manufacture of Aspirin. Aspirin means Bayer's manufacture of Aspirin. While it is well known that Aspirin means Bayer's manufacture, to assist the public against imitations, the Trade Mark Aspirin will be stamped with their general trade mark, the "Bayer Cross".

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen! We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphia. They are, in considerable quantities, deadly poisons. In any quantity, they stultify, retard circulation and lead to congestions, sickness, death. To avoid any possibility of giving your child opiates, or narcotics of any kind, keep Fletcher's Castoria in the house, and Save the Babies.

Children Cry For Fletcher's CASTORIA

Let's Think It Over. There is such a thing as saying too much on any subject, and the "grand-stand" talker sooner or later becomes a bore. The truth is always welcomed, and the truth reiterated and confirmed is more than welcome—it reaches your innermost soul. Fletcher's Castoria is all its advertising has claimed for it. Scrutinized by the microscope of public opinion and used for over thirty years it stands without a peer in the hearts of thoughtful, cautious, discerning Mothers. And once used, mother love—there is no substitute for mother love—will scorn to try a "substitute" or a "just-as-good". Masquerading under many names drugs that are injurious to the tender babe have found their way into some households, but the light of experience soon casts them out. Are they cast out before it is too late? MOTHERS SHOULD READ THE BOOKLET THAT IS ARENED EVERY BOTTLE OF FLETCHER'S CASTORIA. GENUINE CASTORIA ALWAYS Bears the Signature of Charles H. Fletcher.

How Lack of Iron In The Blood May Change A Woman's Appearance And Break Down Her Physical Strength

While Plenty of Iron Makes Rich Red Blood Corpuscles That Give Health, Vitality and Beauty

Every Woman Who Looks Pale, Haggard and Worn Should Have Her Blood Examined for Iron Deficiency—Administration of Simple Nuxated Iron Will Often Increase the Strength and Endurance of Weak, Nervous, Care Worn Women in Two Weeks' Time and Make Them Look Years Younger.

Dr. John Prince, Moderator of the General Assembly, said the Forward Movement was nothing new, it was the same old thing that carried the churches along for the past forty-one years to his knowledge. He had heard of doing a great work in the country although they were not heard of as leaders. "What was needed was a little acceleration to the old Forward Movement. The Presbyterian church in Canada had made greater progress than it had in any other part of the world. The duty of the ministry was to get the people into the spirit of moral earnestness in order that the great Forward Movement might attain its objective. The moderator of the General Assembly spoke at considerable length, and gave very humorous descriptions of some of his experiences while performing his duties as a minister. At the close of his address, as well as during the course of his remarks, he was loudly applauded.

Fifty Years in Ministry. Rev. Dr. Edwin Smith, of Halifax, N. S., who is about to leave the bounds of the Maritime Synod, was the next speaker. When he entered the ministry fifty years ago there were many petty contentions over things that were not essential. Today these differences were fading away. Repentance, forgiveness and the promise of life eternal should be taught to the people of today. After his fifty years in the service he became more convinced that these things were essential. The need of the people of today, he said, was a truer sense of sin and right. The battle was a battle of will power. Jesus Christ must be brought face to face with the people of the world. What was needed was fathers and mothers of a true Christian type, and then it will be an easy matter to find men to fill the pulpit. The word of God should be taught daily to those who seek spiritual guidance. He said he would always re-

most blood and body builders—the best to which I have ever had recourse." It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Dr. James Francis Sullivan, former Physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, says: "As I have said a hundred times over, organic iron is one of the greatest of all strength builders. I have seen many instances where it gave renewed strength and energy, increased power and endurance, steady nerves, and the rosy bloom of health in about ten days or two weeks' time. I consider Nuxated Iron one of the foremost of all other drugs."

Manufacturers Note.—Nuxated Iron, which is prescribed and recommended above by physicians, is not a secret remedy but one which is well known to druggists. Unlike the older iron-ore products it is easily assimilated, and does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser, or they will refund your money. It is dispensed in this city by Wasson's Drug Store and all other druggists.

These illustrations show how a woman may look when she has only 25 per cent. red blood corpuscles and her blood is starving for iron, and the change that takes place in her appearance when the percentage of red corpuscles increases as her blood becomes filled with strength-giving iron.

These illustrations show how a woman may look when she has only 25 per cent. red blood corpuscles and her blood is starving for iron, and the change that takes place in her appearance when the percentage of red corpuscles increases as her blood becomes filled with strength-giving iron.

CITY ASKED TO P... THROUGH P...

Matter of Water and Sewerage Property Referred. Wanted for Lancaster Dwellings—Routine in...

There was a session of the council yesterday. Com. Jones was asked to provide water and sewerage for property owned by Armstrong and Bruce on Mount Pleasant. Com. Fisher said the work proposed of a private nature and would be a dangerous precedent; and the matter was referred back. Com. Bullock complained that he could not get satisfaction in request for water sewer extensions on the West where the housing commission posed to build twelve houses. Com. Fisher complained that he could not get consideration of his paving scheme. Com. Bullock recommended that action of the city engineer in instructing Richard R. Lee, the contractor renewing the cross wharf between two Rodney wharves to remove some timbers on both sides and the centre of the said cross wharves, city supplying the timbers, from the hemlock recently purchased by John E. Moore be approved, estimated additional cost being about \$1,000. The committee of the whole recommended that the commissioner of water and sewerage be authorized to expend the sum of \$2,000 out of main account in order to provide sewerage and water facilities to the property of Messrs. Armstrong, Bruce, Mount Pleasant Court, Messrs. Armstrong and Bruce. Com. Fisher said the agreement satisfactory to the city solicitor, guaranteeing the usual payment of 10 per cent. on total cost of the work until such as the revenues therefrom amount to 10 per cent., and provided the approval of the Town Engineer. Com. Fisher said the city should not construct a private sewer and sewerage system, but that it was usual for the city to undertake. City would get paid for the work, would have to keep the pipes in repair six hours a week, and the revenues would never exceed per cent. Besides the water were to be applied to the cost of the construction of the sewerage and sewerage facilities, if Com. Fisher therefore moved that the matter be referred back to the committee of the whole, Com. Jones said the city should not construct a private sewer and sewerage system, but that it was usual for the city to undertake. City would get paid for the work, would have to keep the pipes in repair six hours a week, and the revenues would never exceed per cent.
