## The Big League Baseball Games

Teams Close to Championship Honors Did Not Play—Only Three Games Played

**AMERICAN LEAGUE.**

Boston 5; Philadelphia 4.  
At Philadelphia, Boston shut off a ninth inning rally by Philadelphia and to four. The Red Sox took an early lead and were never headed. Penock pitched for the visitors but batted only but staid in the pitcher's box. The score: Boston.....10,010,010—5 8 1 Philadelphia.....010,000,201—4 12 3  
Batteries—Pennock and Walters, Naylor Freeman and Myatt Walsh.

**AMERICAN LEAGUE STANDING.**

Won Lost P.C.  
New York..... 94 35 621  
Cleveland..... 83 57 620  
St. Louis..... 79 73 520  
Washington..... 75 72 418  
Boston..... 74 73 487  
Detroit..... 71 80 479  
Chicago..... 69 81 393  
Phila..... 63 96 558

**NATIONAL LEAGUE.**

Brooklyn 9; Boston 5.  
Boston, Sept. 27.—Brooklyn Robins outbatted the Boston Braves in a final encounter between the two teams today and won, nine to five. The Robins drove Cooney from the box in the sixth inning when they scored four runs. Townsend who replaced Cooney allowed one run each in the seventh and ninth innings. The score: Brooklyn.....111,004,101—9 17 4 Boston.....101,300,100—5 8 3  
Batteries—Gardner Reuther and Taylor, Cooney Townsend and O'Neill.

Chicago 3; Cincinnati 1.  
Chicago, Sept. 27.—Chicago downed the Cincinnati Reds in a tight game today by a score of three to one. The Reds with six hits, outbatted the Cubs by one hit but were unable to bunch them. The score: Cincinnati.....000,001,000—1 6 1 Chicago.....110,020,000—3 5 1  
Batteries—Donahue Geary and Douglas, Martin, Kaufman and O'Farrell.

No other games scheduled.

**NATIONAL LEAGUE STANDING.**

Won Lost P.C.  
New York..... 92 37 621  
Pittsburgh..... 89 60 597

### Island Racing Was Interesting

Roy Volo Won 2.12 Pace in Straight Heats—Harry G. Won 30 Trot.

Special to The Standard.  
Charlottetown, N. B., Sept. 28.—Second day's racing at the exhibition were witnessed by over 4,000, and there were some very exciting heats. Following is the summary:

**2.12 Pace Stake.**  
Roy Volo, W. E. Lint, Fred, ericton..... 1 1 1  
White Sox, Mackinnon, Drug, Co., Charlottetown..... 2 2 2  
Prince Pepper, T. M. Hort, Presque Isle, Me..... 3 3 3  
John A. Hall, F. C. Redding, Fredericton..... 4 4 4  
Edna Hamlin, T. M. Arsenault, Magdalen Islands..... 5 5 5  
Fern Hal, Dr. D. H. McAlister, Sussex..... 6 6 6  
Time—2:13 1/2; 2:14 1/4; 2:14 1/2; 2:30 Trot Stake.

Harry G. F. Boutellier, Charlottetown..... 1 1 2 1  
Charles Tell, J. Churchill and Humphrey, Presque Isle..... 2 5 1 2  
Alice, the Green, Charlottetown..... 3 2 4 4  
Juanita, Aubrey H. Kelly, Charlottetown..... 4 3 3 3  
Miss Elred, J. P. A. Smith, Kinkora..... 5 4 5 5  
Time—2:18 3/4; 2:21 1/2; 2:16 1/4; 2:20 3/4.

The 2.10 trot will be finished tomorrow. Today's heats were won by Dr. Christopher, Tignish, son two heats, British Soldier, Brenton H. and Miss Belierico one each.

### Looks Like The Giants And Yanks National Baseball Commission Announces Its Headquarters in New York.

Special to The Standard.  
New York, Sept. 28.—The National baseball commission has virtually conceded the National League pennant to the New York Giants if not quite conceding American League flag to the Yanks, when it announced tonight that its headquarters for the impending World's series would be established Monday at the Hotel Commodore.

There will also be some headquarters maintained by the commission on the ball room floor of the hotel where accommodations will be provided for the perpetration of literary classics by an unprecedented number of visiting scribes.

## TELLS WHY BABE RUTH, BIG LEAGUE WONDER, IS HOME RUN SWATTER

Scientists at Columbia University in Series of Tests on Ruth Prove Co-ordination of Eye, Brain, Nerves and Muscle Almost Perfect.

Scientists at Columbia University in a series of tests upon Babe Ruth have found that he has been able to set new hitting records in baseball and become the superman of the diamond purely because of his physical and mental superiority—better eyes, quicker nerve system, and higher intelligence. He is above normal in many ways.

A series of psychological tests were performed recently at Columbia University's Psychological Research Laboratory by Albert Johnson and Joseph Homedier and Ruth stood up to the score although he had just finished a hard game at the Polo Grounds. The account of these tests, as reported by Hugh S. Fullerton, sports editor of the Evening Mail, is herewith reprinted in part from the October issue in the Popular Science Monthly with its permission:

"The test proved that the co-ordination of eye, brain, nerve system, and muscle is practically perfect, and that the reason he did not acquire his great batting power before the sudden burst at the beginning of the baseball season of 1920 was because prior to that time pitching and studying bats disturbed his almost perfect co-ordination.

**Rates 90 Higher Than Average.**

The tests revealed the fact that Ruth is 90 per cent efficient compared with a human average of 60 per cent. That his eyes are about 12 per cent faster than those of the average human being. That his ears function at least 10 per cent faster than those of the ordinary man. That his nerves are steeper than those of 499 out of 500 persons. That in attention and quickness of perception he rates 1% above the human average. That in intelligence, as demonstrated by quickness and accuracy of understanding, he is approximately 10 per cent above normal.

The investigation lasted more than three hours, during which Ruth stood most of the time, walked up and down stairs five times, and underwent the tests in a close, warm room. The tests used were ones that primarily test motor functions and give a measure of the integrity of the psychophysical organism. Babe Ruth was posed first in an apparatus created to determine his strength, quickness and approximate power of the swing of his bat against his ball. A plane covered with electric wires, strung horizontally, was placed behind him and a ball was hung over the theoretical plate, so that it could be suspended at any desired height.

**Calculated Power of His Stroke.**

"The bat weighing fifty-four ounces (exactly the weight of the bats Ruth uses on the diamond), was swung as directed, touched the ball, and the secret of his power—or, rather, the amount of force with which he strikes the ball—was calculated. At least, the basis of the problem was secured: The bat weighing 54 ounces, swinging at the rate of say .50 feet a second, the ball weighing four and a quarter ounces and striking the ball at a point four inches from the end, how far will the ball travel?"

"There are other elements entering into the problem, such as the re-

## Much Activity At The Y. M. C. A.

Busy Preparations in Progress for the Big Opening on Monday, October 3.

Busy preparations are in progress at the Y.M.C.A. these days. Evidently another record season is expected as elaborate plans are being made to cope with the demands coming in for the winter activities.

New members are signing up daily, and the old timers are just waiting for the opening to get in on things.

The Physical Director's office is a busy hub; the boys' medical and physical examinations are being pushed ahead before the classes start. A Medical Examining Board of five doctors are doing yeoman service in assisting with this important side of the physical work. Last year, approximately three hundred boys were examined and defects discovered and parents notified. This year promises to surpass last year's figure. The boys themselves are eager to know just how they measure up as compared to last year.

The outlook is bright for an interesting Basketball season and a larger number of teams will be playing in organized leagues.

The opening on Monday, October 3rd, should see the commencement of another season of splendid effort in building character and physique for the men and boys of St. John.

A well known citizen of Montreal (now in St. John) remarked on the whole-hearted way in which the Y.M.C.A. building was utilized, saying it spoke volumes for the citizens of St. John.

## Flynn Tells of His Boxing Days

Noted Manager of Pupilists Had Many Experiences as a Battler.

One would never suspect, to look at him now, that the chubby Leo, P. Flynn, proprietor of the largest stable of fighters in the country, was a boxer at one time himself. Yes, indeed, Leopold used to push around a sylvan form in the old days, and was no mean product when it came to pegging them in with the padded mitts. Incidentally, Leo had a brother who likewise was one of those box fighters.

Those two members of the Flynn family had quite a reputation in and around Boston before Leo discovered it was much more profitable to be advising aspiring fighters than to be on the receiving end of pretty much every healthy blow struck in the city of culture.

"And thereby hangs a tale."

On one occasion, so the story goes, "Splash" who happened to be the cognomen of Leo's old days, was on a jam with some "muff" from the sticks. The fight was to be in the outskirts of Boston, and at the last moment the guy from the tall timbers' team word he would not be able to show, and the management was very much up in the air seeking a substitute.

Who could they grab to step in with "Splash?"

The management would have to blow the works if they could not find a sub, and young Mr. "Splash" Flynn stood in danger of losing at least \$500 of his money. Leo stepped in, and it was that the ever alert Leo showed some of his real speed.

In Ring With a Brother.

Who would go on with "Splash?"

What a silly question! Why, none other than his hitting partner. Would he fight his brother? Would a duck do a step into a lake? Fight his brother? Leo stood ready to lick the entire family rather than let something like \$500 escape from the house of Flynn.

And so it was arranged that Leo would assume the name of the missing pug and go in there to trade wallops with "Splash."

It must not be suspected that Leo had any idea waltzing it through with his kid brother. Not on your life! In justice to the Flynn boys it must be said in their behalf that they got along like a pair of mad dogs and were championing for the opportunity to tear into each other. The crowd had filled in early and the fans were becoming peevish at the delay in starting the show when Leo eased himself through the ropes.

Title Still in Doubt.

He received a big hand as the announcer introduced him as the "Swedish Assassin." "Splash" followed a moment later, took his bow, repaired to his corner, and the fight was on.

What a whale of a scrape it was. There had always been a question of supremacy between the two brothers, but family ties had always prevented a test case. Now, however, they were at it last.

The loving brothers went at it "hammer and tongs," and at the end of the engagement were covered with several marks that don't show up on any but a boxer. But the climax of the affair was that the referee declared the bout a draw and the boys were still in doubt as to who was the better and the champion of the house of Flynn.

## St. Jude's Amateur Athletic Assn.

Fall Organization Meeting Held—Plans for Season Well Under Way.

The St. Jude's Amateur Athletic Association held their fall organization meeting in the Sunday school room last evening and from the enthusiasm shown the association will go ahead with a vim.

The following officers were elected: Rev. J. H. A. Holmes, Hon. president. P. W. Wetmore, president. Mr. Hall, vice-president. H. G. Fowler, secretary. K. Connors, treasurer.

These officers will be ex-officio members of the executive committee chosen as follows:—Wm. McLellan, R. A. Fowler, W. Jennings.

The committee will assemble soon for the purpose of arranging for football and basketball teams to enter leagues and map out a programme for the fall and winter.

A smoker and concert will be held next Wednesday night when a large number of the congregation are expected to be present as well as the members of the association.

## Citizens and Voters of New Brunswick: REMEMBER

that you, yourself and family, will pay the full penalty if, out of the vote to be polled on October 10th, there comes a victory for the liquor men. There will be cares, there will be the failure of authority, there will be a weakening of law and order and a blow struck at the welfare of our Province.

Protect your homes, your children, and help defeat that disturber of the peace

Ex-President Roosevelt stated that the liquor business was a business that tended to lawlessness on the part of the one engaged in the business and also on the part of him who drinks the stuff.

Vote "Yes" on October 10th and help make New Brunswick a Better Place to Live in.

Issued by New Brunswick Temperance Alliance, Headquarters Fredericton.

## C. of E. Institute 46th Anniversary

Was Organized in 1875 by Late Canon Brigstoke—Service Held in Trinity.

The forty-sixth anniversary of the organization of the Church of England Institute of this city was observed last night by a public service in Trinity church. The institute was organized in 1875 by the late Canon Brigstoke, who was the president until his death, and has grown steadily since then until the present time. Some few years ago the building on Princess street now occupied was purchased and in the immediate future further extensions are planned. The proposed improvements include accommodation for a men's club for the young men of the city. They have in connection with the institute a splendid reading library and it is largely used, and fine quarters for the women. The present officers are Canon Armstrong, president; R. S. Coupe, secretary; J. F. H. Teed, treasurer.

The service last night was conducted by Canon Armstrong, Archdeacon Crowfoot, Revs. W. B. Armstrong, Gabriel and R. P. McKim.

The preacher was Rev. R. P. McKim. He based his remarks on Hebrews 14: "And be strong, all ye people of the land, saith the Lord and work; for I am with you, saith the Lord of Hosts." One of the most marvellous things he found in his Bible, the speaker said, was the fact that the Son of God assisted men and women to help Him in His work of redemption from sin. The most marvellous was the fact of Christ coming on earth, but next to this was His saving poor, weak humanity to assist in His glorious work.

Christ called men and women to Him, revealed Himself to them, saved them and filled them with love and devotion to Himself and he expected them to put that love and devotion into action. The work He wanted done was of various kinds and all were not called to the same task. Man was insufficient for the task but Christ had promised that God would

## Y. M. C. I. House League Bowling

The Owls Took Four Points from the Falcons in Last Evening's Game.

Falcons.

supply the necessary strength to carry out His work.

Christ had promised that to those who kept His commandments He and His Father would come and dwell with and assist in His work. There was an enterprise could flourish.

The church was to be a witness after Christ and the institute might be blessed if the living room of the church where, as every room in the home revealed something of the owner, there must be found the spirit of the Christ if it was to be a success.

number of the congregation are expected to be present as well as the members of the association.

**LEFT FOR MONTREAL.**  
Mrs. E. J. Hooper, representing the St. John Board of Health and Dr. Doris Murray, under whose direction the Child Welfare section in the St. John exhibition this year was ably carried out, left yesterday afternoon for Montreal to attend the Child Welfare Convention to be held in connection with the work of the Federal Board of Health in annual session.

American tourists in Germany are lavishing from 200,000 to 400,000 marks, or \$3,000 to \$4,000, in automobiles de luxe.

## LESS LIBERTY RUSSIA THAN UNITED STATES

Emma Goldman Disgusted With Russia and Wants to Return to America.

**STILL OPPONENT OF GOVERNMENT OF GOVERNMENTS.**

Believes, However, It is Worthwhile to Fight the Government With Bombs.

Moscow, Sept. 28.—"I am back to America—my country," Goldman, anarchist leader, said in an exclusive interview with the United Press. "I have found liberty in Russia than in the States.

Huddled over a typewriter, in a shabby little bedroom, up flights from a dark back street, she said she was an "anarchist" at work collecting of the Russian revolution.

"Come in," she greeted me, "I'm not allowed to print anarchist literature. I'm going to quit the country, I'll go to Berlin to attend the International Anarchist Congress. I may remain in Germany temporarily but eventually I'm returning to America."

"I've avoided participating in 'Five evicted' participating in anarchist activities since I've been in Russia," she said with a smile. "I know this government would not let me do that."

She eagerly asked the new American.

"I will go back to my country," she declared. "I must decline to do the present Bolshevik government. I'll say this—my chagrin in Russia is no longer for a former anarchist. I have seen my country strengthened my opposition government of any kind."

"Yes, I still approve of violent action," she said. "I have seen several principals it's foolish to do government like America with bombs."

Emma is in Moscow temporarily collecting for a former anarchist, Krocobek memorial.

"The government has treated me well," Emma said.

## Two Companies Are Incorporated

Foley Pottery Co. Takes Business of J. W. Foley Company.

Fredericton, Sept. 28.—Letters sent have been issued. Incorporated Mrs. Charlotte W. Foley, Frederickton and Fenwick D. Foley, St. John, as the Foley Pottery Co., with a capital stock of \$25,000. The head office to be at Fredericton. The object is to acquire the pottery business now carried on under the name of J. W. Foley & Company. William James Fraser, Mrs. F. Fraser, Brookville, Simons, William R. Fraser and Mrs. E. Dorothy Fraser, Fredericton, been granted letters patent including them as W. R. Fraser & Limited, with a capital stock of \$100,000 and the head office to be at Fredericton. The object is to carry on business as importers, exporters, manufacturers, wholesalers and retail dealers in furnishing all kinds for men, women and children.

Supplementary letters patent have been issued whereby the capital of the Tantram Fruits, Limited, been increased from \$24,975 to \$29,975.

## German Mark Takes Turn

One American Dollar Now Purchases 128 German Marks.

Berlin, Sept. 28.—For one dollar you can now purchase 128 German marks. In previous days you used to get four for a dollar with a few cents besides. When marks rose or the dollar advanced, until it was worth one cent a piece, it was in no way changing my value. Within the past week, however, they have dropped still further, and at the present price a fraction of three quarters of a cent was reached Wednesday. Steady increase of the currency has brought about a situation, and while German marks previously made some attempts to bolster up the value of the mark, by there has been no such tendency possibly by design.

The approaching instalment on Reparations Bill has certainly retarded upon the condition of the market and the decline in value marks may be used by the German government as an evidence of her ability to pay. Meanwhile the mark is being withdrawn and other currency presses are still printing paper.

## HELPFUL HINTS.

Potato salad is best made with warm potatoes.

Wash lettuce under cold running water and it will be crisp.

Anything mixed with milk requires a slow fire to prevent scorching.

A handful of salt put under the bottom of pans in the oven will prevent the burning of cakes and other things pasty scorching.
