The bonds and interest are both payable in Gold, and are free from United States tax. The Company's enormous land grant of nearly 23,000 acres per mile of road, which with the track, &c., is bound by the loan, should render these bonds one of the safest of investments, sure to rise much above par in market value on the completion of the road, and the closing of the loan. The process of redeeming and cancelling the bonds has already begun, as these securities are now being received in payment for the Company's Lands Official returns show that 28 leading Land Grant Railways in the United States have sold their lands at an everage of \$7.04 per acre, Should the Northern Pacific Company realize the low estimate of only \$4 per acre, the proceeds of their grant would more than twice pay the cost of building and equipping their road.

Many reliable authorities concur in representing this valley as one of unsurpassed fertility, here, as well as east and west of this section, extitle graze the year round without housing. Coal beds, similar to those, of the Missouri, are found all along the Yellowstone and on some of its tributaries. Gold has been discovered in this valley in several localities, in paying quantities.

The Rocky Mountain section, about 300 miles long, crossing Western Montana and Northern Idaho, is a Mineral and Agricultural region; the numerous extensive valleys of this locality are exceedingly fertile, equaling any part of the Continent in the quantity and quality of their agricultural productions.
