

April 1st, 1915.

Dear Mr. Hendry -

Rev. Dr. Grant has written me with regard to a request that you have made that the Government should furnish the Portage la Prairie School with seed grain. This is quite unusual; I have no recollection of our ever being asked to furnish seeds to any of the schools before. I am sure that in view of the good prospects you have there will be no difficulty for you to finance the seeding operations, as I understand that you only require about \$100.00.

Yours very truly,

Deputy Superintendent General.

W. A. Hendry, Esqr.,
Principal, Portage la Prairie School,
Portage la Prairie,
Man.
