

## SEWING MACHINES.

All intending purchasers should thoroughly examine all the different kinds of Sewing Machines before deciding, as many are led to buy a very inferior article at within a few dollars of the price of the best, which they afterwards regret to their continual trouble and annoyance, on account of the imperfect working of such machines. I have always in stock the most popular machines, of various makers, and give all the choice of the market, and in case of first purchase not giving satisfaction will exchange for any other make preferred.
