

SOME STRANGE CONFESSIONS.

SEVERAL GOOD STORIES WHICH CONVEY
VERY NEEDFUL MORALS.The Rochester (N. Y.) Union reports
having this dialogue with an eminent
physician:

"Can you cure a cold for me?"
"I dare say; where is it?"
"Do you treat yourself for colds?"
"That depends on how bad they
are. I had one last week and fixed
myself up a dose, but I didn't dare
take it. I kept it over night and gave
it to a 'deadhead' patient the next
day!"

"Then you don't dare take your
own medicine?"

"No! I don't dare, and I have no
family physician."

A gentleman, a short time ago, con-
sulted his physician about a severe
rheumatic attack. As he was leaving,
the doctor said:

"Should my prescription afford any
relief, let me know it, as I am suffering
from an affection similar to yours, and
for the last twenty years have tried in
vain to cure it!"

The best of physicians now have
the frankness to admit that the schools
have not yet mastered all there is to
know about the causes of disease, and
the best methods of cure. There has
been a great advance, no doubt, in
medical science, in the last fifty years.
Doctors themselves do not take their
own physic, even though they may sat-
urate the systems of their patients with
poisonous drugs, nor do they bleed,
blister and torture, as formerly.

Byron died, it is claimed, because
of over-bleeding by his physicians.
Washington met the same fate!

Scientific investigation shows that
most ailments proceed from derange-
ment of primary organs, of which the
kidneys are the most important.
Every drop of blood coursing through
the system passes through these
organs, and if they are deranged, the
blood speedily becomes impure, and
carries the seeds of disease to every
part of the body. If we keep these
organs regulated by the use of a simple
vegetable compound like Warner's safe
cure, which Prof. Lattimore, New York
State board of health analyst, of the
Rochester University, says: "I find
entirely free from mercury and all
poisonous and deleterious substances"
—there is little danger of bright's dis-
ease, apoplexy, rheumatism, or any of
the common ailments, nearly all of
which originate in or are made fatal by
diseased (though unsuspected) kidneys.
This great remedy has the reputation,
which seems well founded, of curing
more diseases than any one other re-
medy ever known. It restored the
son of the Danish vice-Consul Schmidt
of 69 Wall street, New York, from
Bright's disease, and General Christ-
iansen, of Drexel, Morgan & Co.,
Bankers, of New York, who knew of
the case, pronounced it a wonderful
remedy.

As appropriate to the doctors who
give to their patients what they will
not take themselves, we quote this
story:

"Oh, Mr. Smith, help me out," ex-
claimed a young lady at a church fair.
"I've sold a tidy for \$15 that only
cost 15c. What percentage is the
profit?"

"Percentage, madam?" exclaimed
the lawyer with merriment. "That
transaction is beyond percentage—it
is simply larceny!"

I CURE FITS!

When I say cure I do not mean merely to stop them for a
time and then have them return again. I mean a radical
cure. I have made the disease of FITS, EPILEPSY or FALL-
ING SICKNESS a life-long study. I warrant my remedy
to cure the worst cases. Because others have failed in no
reason for not now receiving a cure. Send at once for a
