Kennell Ranch, Kennell P.O. Sask

If you want good Herefords see the herd headed by Happy Christmas (imp.) \$1442, the best bred Whiteface on the Continent. SHEPHERD PONIES also For Sale.  
JAS. BRAY, Portage la Prairie.

## YORKSHIRES

We are now booking orders for Spring pigs from such boars as DALMENY TURK end (imp.)—1844—(bred by the Earl of Rosebery, Scotland) RICHARD CALMADY (imp.)—13438—(bred by the Nottingham Corporation Farm Committee Nottingham, England) and WEYANOKAMEER—17224—(bred by Andrew Graham). Our advice to purchasers is to buy pigs when they are young. They are cheaper then and the Express charges are light.

WALTER JAMES & SONS,  
Rosser, Man.

## SNAPS IN SHORTHORNS

Bulls from six months to two years Can supply several Winnipeg prize winning Tamworth sows and one-year-old boar. Also Pekin Ducks and White Brahma cockerels.

A. W. CASWELL, Neepawa, Man.

## The Gold Standard Herd

THE PREMIER BERKSHIRE HERD OF THE WEST

I am now booking orders for early spring pigs from a bunch of fine, large, matured sows of faultless conformation—the up-to-date bacon type. Berkshire litters farrowed every month. Lunett, my big show sow, is now nursing a fine litter. Unrelated pairs, twins or single individuals of either sex supplied. Orders solicited. Address,

J. A. MCGILL, Neepawa, Man.

## COOPER DIP

250 Million Sheep Dipped in it Every Year.

Has no equal. One dipping kills ticks, lice and mites. Increases quantity and quality of wool. Improves appearance and condition of flock. If dealer can't supply, send \$1.75 for \$2 (100 Gal.) Pkt. to BOLE DRUG CO., WINNIPEG, MAN.

Ans.—These are ringbones and are very hard to treat in an aged mare. Get your veterinary to fire and blister them, and, if necessary, repeat the operation in a year. If this fails to cure the lameness, the only thing to be done is an operation called neurotomy, which consists in removal of a part of the nerves that supply the foot. This operation cures the lameness by removing sensation, but it does not cure the disease, hence should be performed only in cases where other measures have failed.

## GOITRE.

Several of our calves when born have goitre, and in some cases the lumps are not disappearing. Has this any connection with contagious abortion? Lumps of lime have been put in the drinking water to make up for an absence of lime in the land. Would this cause it? Is the trouble hereditary?

T. B. M.

Ans.—Too much lime in drinking water is supposed to cause this condition; hence the lime placed in the water would predispose to its appearance. It has no connection with infectious or contagious abortion. The predisposition to it is, to some extent, hereditary. A change of food and water for pregnant cows, will in most cases, be followed by the nonappearance of the trouble. The daily application, with smart friction, of a little compound iodine ointment will generally reduce the lumps. In extreme cases, the tumors should be lanced. They will bleed considerably. After bleeding ceases, inject tincture of iodine into them, and apply the ointment as above.

## CANADIAN PROPERTY RIGHTS.

Would like to know all about property rights in Canada.

1. Does the oldest son inherit all the father's property?
2. Can a woman buy land in Alberta?
3. If a married woman sells property in the States and invests in Canada (Alta.) land does the land become the property of her husband?
4. If a woman takes stock or any property to Canada does she thereby lose the title to it? That is, does it become the property of her husband?

Iowa. A READER.

Ans.—The property rights in Canada are practically the same as those in the United States. Both are the perpetuation of the British code. A property owner, man or woman, may will property as they wish. In case there is no will the widow is entitled to one third and the other heirs the remainder. A woman may will her property to her children irrespective of her husband.

2. Sure, if she has the price.
3. No, unless she gives him the deed.
4. No, if a woman comes to Canada with property we will see that no one takes it from her against her will.

## PIG FEEDING.

What amount of oats and barley will it take to carry six months old pigs over for six months and have them in fair condition at the end of one year, and what will they gain in weight per head? Hoping to get immediate answer through your valuable paper.

Alta. A. M. B.

Ans.—In the first place a year is too long to keep pigs, they should be matured in from seven to ten months and after that it does not pay to keep them. We never figured out just what the average pig eats in six months after he is six months of age for the reason that we never fed them that long. A good deal will depend upon the amount of other food that is given. Give them as much roughage as they will eat and enough grain to keep them from getting thin or to fatten them as is desired and have them in market condition when they are matured. It does not pay to let a pig grow to maturity then start in to fatten him.

## MISCELLANEOUS.

1. Mare raising foal has broken out in little lumps on neck and fore quarters.
2. How soon after foaling should a mare be bred?
3. How soon after farrowing should a sow be bred?

R. N.

## Lump Jaw

The first remedy to cure Lump Jaw was

### Fleming's Lump Jaw Cure

and it remains today the standard treatment, with years of success back of it, known to be a cure and guaranteed to cure. Don't experiment with substitutes or imitations. Use it, no matter how old or bad the case or what else you may have tried—your money back if Fleming's Lump Jaw Cure ever fails. Our fair plan of selling, together with exhaustive information on Lump Jaw and its treatment, is given in

Fleming's Vest-Pocket
