The proprietor of the Commercial hotel in Holstein was recently fined \$150 for violating the Local Option by-law.

Mr. V. Voison of Holstein, has purchased Mr. J. W. Scott's business in Mt. Forest, the latter taking over Mr. Voisin's business in part payment.

For some months back, all along the border of the United States, Americans have been sending their money to Canada for deposit in the Canadian Chartered Banks. They consider the Canadian Banks safer than their own, and they are quite right. This inflow of money is the best proof that the Canadian Banks are the safest in the world.

Helps Men To Work Hard.—Shat's what Ferrozone does; it supplies the additional strength that enables a man to maintain health under difficulties. "Last spring I was so completely fagged out I could not work" writes J. W. McNichol of Turnbull, Man. "In the morning I was tired—limbs ached all over. Had no appetite, was sleepless, nervous and unhappy. Ferrozone put new life into me. Now I eat heartily, nerves are strong, I sleep well. I know the joy of health." It's by supplying nourishment and good blood that Ferrozone builds up; try it—50¢ per box at all dealers.

According to a letter from the Deputy Minister of Education, published in this issue by request of Mr. Jos. Weber, reeve of the Village of Neustadt, the distribution of school monies between townships and urban municipalities becomes more intricate and harder to understand than ever. According to the Municipal World, than which there is no better authority in Canada on municipal affairs, farmers living in townships but supporters of village, town or city schools, must pay the general levy of the municipality in which their property is situated. The Dep. Minister of Education says that they are exempt from paying this levy, but must pay the particular levy made by the trustees.—Ayton Advance.

A Storehouse For Poisons—You may not think so but that's what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory and secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandrake and Buttercup Pills, 25¢ at all dealers.

Since the death penalty has been abolished in France, murders have increased to such an alarming extent, that there is a strong popular demand for its restoration. Recently juries throughout the country have recommended having recourse to the guillotine as being the only means of stopping the atrocious murders which are of daily occurrence in Paris and in the provinces. A popular vote taken by a local newspaper, has resulted in 1,083,655 persons pronouncing themselves in favor of restoring capital punishment, while 328,692 announced themselves as being opposed to it.

Steel Knife In The Flesh—That's the sensation experienced by Robert Price of Hecton, Ont. He knew it was sciatica and of course used Nerviline. As usual it cured and he says: "No liniment can excel Polson's Nerviline. Severe pain made my side lame. It was like a steel knife running through the flesh. I rubbed in lots of Nerviline and was completely cured." A regular snap for Nerviline to ease Sciatica and rheumatism. It sinks into the core of the pain, cures it in short order. Large 25¢ bottles at all dealers.

The laity teachers in Wiarton public school have struck for higher pay, and the Canadian advocates an increase on the ground that hay is selling at \$20 a ton and oats at 65¢ a bushel. If it were the good old summer time the girls might be turned out to pasture for a few weeks.

The laziest man in Britain has turned up; his name is Arthur Chilcot. Since 1903 he has been convicted twenty-three times for refusal to work, and once he was too lazy to walk, and the police had to carry him to the police station. Being on trial did not worry him in the least, and he actually went to sleep in the dock. The doctor said that Chilcot was suffering from ergophobia—a disease known as "fear of work." We hope this disease will not spread to Canada though we have known individuals to show symptoms of it.

I don't have to lose health Worryin' about my wealth; I don't have to fret about Too high livin' bringin' gout. Course I mean some day to be Higher up the social tree. But no matter what's my lot, I'm contented—fur's I've got. —Cincinnati Express Gazette.

A very regrettable occurrence took place here on Tuesday morning when Mr. Thos. Doersam took a shot at a sparrow with a 25-calibre rifle. The bullet was diverted from the direction intended by striking some object, and instead struck the second story of Mr. Fred. Dietrich's wagon shop. Unfortunately Fred. happened to be upstairs doing some painting. The bullet crashed through the siding of the building and struck Mr. Dietrich about the shoulder blade. Dri Easton was called and probed for the bullet without being able to locate it. The supposition is that the force of the bullet was pretty well spent before reaching him and that it was stopped when coming in contact with the bone and dropped out. At all events Fred. is suffering very little pain and expects to be able to attend to the shop again after a few days.—Ayton Advance.
