\$1.00 BOX OF MEDICINE FREE,

D DR. GORDON'S REMEDY FOR full regular one dollar box, with able medical book rules for health, to eat and what to avoid. No to inspection by Custom House, able Canadian Company. Write at ; if we could not help you we would make this houest offer.

QUEEN MEDICINE CO PO Box W. 947, Montreal.

E. & D. BICYCLES

great reason for the goodness of E. & D. bearings lies in their fourpoint design. The load passes directly through the balls, and there is no opportunity for the balls to jam.

In E. & D. four-point bearings the weight on any one point in the bearing is never more than 1-8th of the weight of the rider. In ordinary bicycles, the immense leverage between cup and cone bearings and cone cuts the bear-

ings and breaks the balls.

To show how little the wear on E, & D. four-point bearings is, we first guarantee them for three years, and, secondly, we oil them at the beginning of the season, and at the end, upon examination, the oil will be found

E. & D. bearings are excellent. In all parts, the four-point sysetm is employed. In 1900 E. & D. models, even the head bearings are equipped with four-point bearings.

The E. & D. Models are found in Road Ladies' and Men's \$60 Special, Ladies' and Men's with \$70 Racer, Men's only

and the local guarantee privilege that goes with them is worth the cost of the wheel. And we will be very glad

to show you the new E. & D. with its excellent equipments.

Catalogue sent free upon application. You run no risk in buying this wheel. The thirty-seventh wheel wheel. The thirty-seventh wheel made by this firm four years ago is in daily use in this city. The owner would not exchange it for a new wheel of any other make, as he says it is in perfect order up to date, and the easiest running wheel in the city. We cannot say anything that is a higher recommendation.

Minard's Liniment Cures Diphtheria.

ASHANTIS ARE VICIOUS

Hold British Forces in Check on the Gold Coast.

London, June 13 .- The British have had severe fighting with the Ashantis. Col. Wilcox cables from Phrashsu that Col. Carter found the rebel forces strongly fortified at Dompoassi. The fight continued for a long time and the enemy were dislodged, but, on account of the loss of seven European officers wounded, and 90 other casual-

ties, he was unable to advance and returned to Kwisa.

Capt. Hall reports from Esumeja:

"Within half an hour met resistance in a Kokofu village; repulsed the natives and burned the village in their sight. The Kokofu main villages were sight. The Kokofu main villages were then attacked. Eight thousand held them for half an hour. Was unable to advance, but successfully with-

CHEWED BY A BULLDOG.

Little Chicago Lad mad his Intestines Torn Out.

Chicago, June 13 .- Last night a 6year-old boy, Hans Muzenberger, with everal companions, was playing in front of 57 Centre street when a vicious bulldog rushed toward the group foaming at the mouth. The animal sprang into the midst of the chil-dren and before anybody could inter-fere it picked up Hans in its jaws and started running down the street, tear-ing and shaking the child like a rat. Several people attempted to stop the dog with stones and clubs, but it had gone over two blocks before it was forced to drop the boy. The dog then attacked and badly bit John Williams, Charles Gallagher and Nicholas Williams before it was killed. The child was in a terrible condition, his intestines having been torn out and the flesh on his breast chewed. It is not thought he will recover.

DRESDEN.

A number of our young men visited Marine City on Sunday. Mr. Gourlay, of the Bank of Mont-eal staff, is still on the sick list. His condition, however, is not serious.

The baseball game on Siturday between Walkeceburg and Marine City, which took place at the latter town, resulted in a victory for the Glass Town. The score reported was 12 to 9. The return match will be played here to-morrow, Wednesday.

Messrs. John Currie and Arthur

Messrs. John Currie and Arthur Clancy, who are attending school in Chatham, spent Sunday at home.

The granolithic walks in town are progressing rapidly. They are a great improvement over the old board walks. saving the corporation a great deal

of repair money.

Last evening the football club played a practice game with the Sny team on the latter's grounds. We hope a team will be organized, as there is plenty of material in town from which to form a club.

SAMPLE OF WHAT SATISFAC TION A GAS RANGE GIVES.

P. S. Coate, Esq., Mgr. Chatham Gas Co. Dear Sir.—

Having used a gas range for the past two years, I am in a posi-tion to state that for economy, speed either one, or the whole of the above and cleanliness, it exceeds all other means of cooking. Anyone desiring very essential features of housekeep-ing, should not hesitate in the use of one without delay.

Yours. (Sed.) WILLIAM BLIGHT.

MR. FRENCH'S FUNERAL.

The funeral of the late Peter French, of Chatham township, took place Mon-day afternoon to Arnold's burying day afternoon to Arnoid's burying ground, River road. The services at; the obsequies were conducted by the Baptist minister at Louisville. The pall-bearers were, Thos. Grant, Mr. Bond, Thos. Gray, David Arnold, Jas. Commode and R. W. Holmes. Eight children survive their father. Six of them reside in Chatham township. The other two are Rufus, of Grand Rapids, and James, employed by Geo. Stephens & Co., of this city.

I FEAR NO FOE.

I fear no foe in shining armor,
Though his lance be swift and keen,
But I fear and love the zlamor
Through thy drooping lashes seen.
Be I clad in casque and tasses, Do I perfect cuirass wear, Love through all my armor passes To the heart that's hidden there.

I fear no foe in shining armor, Though his lance be swift and keen. But I fear and love the glamor Through thy drooping lashes seen.

Would I fend a blow so given?
Would I raise a hand to stay?
Though my heart in twain be riven.
And I perish in the fray.
I fear no foe except the glamor.
Of the eyes. I long to see;
I am here, love, without armor,
Strike, and captive make of me.

I fear no foe, etc. -Edward Oxenford.

For Three Years. Nights Itching and Burning Terrible. Wife Suggests CUTICURA. Uses it. Presto! What a Change.

Feels Like Kicking Doctors for Three Years' Suffering.

Three Years' Suffering.

The itching and burning I suffered in my feet and limbs for three years were terrible. At right they were worse, and would keep me awake a greater part of the night. I consulted doctor after doctor, as I was travelling on the road most of my time, also one of our dity doctors. None of the doctors knew what the trouble was. I got a lot of the different samples of the medicited I had been using. I found them of so many different kinds, that I concluded I would have to go to a Cincinnati hospital before I would get relief. I had frequently been urged to try Cutioura Remedis, but I had no faith in them. My wife finally prevailed upon me to try them. Presto! What a change. I am now cured, and it is a permanent cure. I feel like kicking some doctor or myself for suffering three years when I could have used Cutticura remedies.

Sept. 11, 1898. H. JENKINS, Middicboro, Ey.

BABY'S FACE SOLID SORE

My little nephew, John Stanton, was afflicted with the worst sores I ever saw all over his body. His head and face at times were a solidecab and he suffered dreadfully. He was a pitiable sight. His father used all the remedies that he heard of, and doctored with all the doctors. He wore at ar cap, slso, which did no good, but yot no relief until he used the CUTICURA (ointment) and CUTICURA SOAP. Now he is a clean, healthy child.

March 3, 1888. P. E. FOLIZ, Pugh's Run, Va.

CUTICURA Begins with the Blood and Ends with The Skin and Scalp.

That is to say, CUTICUEA RESOLVENT, greatest of blood purifiers and humor expeliers, purifies the blood and circulating fluids of HUMOR GERES, and thus removes the cluse, while warm baths with CUTICUEA SOAT, and gentle anointings with CUTICUEA (cluthent), greatest of emollient skin cures, cleanse the skin and scale of crusts and scales, allay itching, burning, and inflammation, soothe and heal. Thus are speedly, permanently, and economically cured the most torturing, disguring humors of the skin, scalp, and blood, with loss of hair, when all other remedies fail.

Sold throughout the world. POTTER D. AND C. CORP., Sole Props., Boston, "How to Cure Every Liumor," free. SAVE YOUR SKIN Hands and Har by using Curicums Boar.

Quality has much to do with the value of some things, but the man with plenty of common sense has no reason to complain.

A Poor Millionaire

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 55c. Money back if not satisfied. Sold by A. I. McCall & Co., druggists.

"What is a synonym?" asked 's "Please, sir," said the lad, "it's word you can use in place of another if you don't know how to spell the

other one.'

In some of the Swiss valleys the inhabitants are all afflicted with goitre or "thick neck." Instead of regard-ing this as a deformity they seem to think it a natural feature of physical development, and tourists passing through the valleys are sometimes a natural and necessary condition of life. It is so, to a large extent, with what are called diseases of women. Every woman suffers more or less from irregularity, ulceration, debil tating drains, or female weakness, and this suffering is so common and so universal that many women accept it as a condition natural and necessary to their sex. But it is a condition as unnatural as it is unnecessary. The use of Dr. Pierce's Favorite Prescription strengthens the delicate womanly organs and regulates the womanly functions, so that woman is practical-ly delivered from the pain and misery which eat up ten years of her life-between the ages of fifteen and forty-"Favorite Prescription" makes omen strong and sick women

a rule the woman who is her own dreamaker gets into many bad

A 7 housand Tongues Could not express the rapture of Annie Springer, of Philadelphia, Pa., when Dr. King's New Discovery cured her of a hacking cough that for many years had made life a burden. DITCH SHOVELING

New Wrinkie That May Make Old Style Work Easy. Here is a new wrinkle about so

simple a matter as shoveling dirt into a ditch. You thought you knew all about that job before, but you didn't know this idea. The scheme is to turn the shovel over, having a man on one side of the ditch to push the shovel and on the other side of

NEW METHOD OF DITCH SHOVELING.

the ditch to pull the shovel by means of a pole fastened by a wire to the hase of the shovel handle. The picture makes it very plain. The ple-ture makes it very plain. The old ditcher who got up this idea finds it a great help, especially where the soil is heavy. He is a man who does ditching by contract, and who therefore knows what he is talking about. He says that two men working in this way will accomplish as much as three men working with shovels in the ordinary manner.

Necessity of Gravel.

A farmer having a large flock of chickens about his barns and feed lot wished to improve the stock se sent to a reliable breeder and purchased two pure-bred males. They were fine birds and the gentlemen did not regret the price he paid in securing them. He turned them out with his other chickens and gave them no further attention. In a few days he noticed that they did not seem to be loing well, that they were less active than his other chickens in seekng food. He then made a point of eding them regularly, but still they drooped and at last one of them died. He thought he would try to find out the cause of its death and did so. Upon opening it he found the gizzard and the passage leading to it filled with undigested matter. It was hard and baked, and the organs were much distended. Upon examining the material closely he found that there was a total lack of all grinding matter. There was no sand, gravel or stones in the mass. He felt that he had found the cause. The other cock was so far gone that he had little hope of saving him, but went immediately and got a box of bounded clam shells and gravel and set it before the bird. It commend ed picking at it immediately and in week's time was as healthy a

The birds had been always penned up and fed, with a box of grit furnished them to run to whenever they needed it, and when they were turn ed out to rough it with the other fowls they did not know where to find the grinding matter. Had a box been furnished them both would have jeered by the goitrous inhabitants, because they are without this offensive sand or a box where a supply of swelling. Thus a form of disease may become so common that it is regarded even where left to run at large. Old even where left to run at large. Old broken dishes and crockery pounded fine is the best kind of stuff for

FASHION 5218.

The Wonderful Aged Sow That Took First at London in 1899.

Fashion, 5218, 1st prize aged sow at London, 1899. Of immense eighing 800 lbs. in September last. She nursed a litter of 12 pigs in

FASHION.

April last. She is of great length and depth, and has a beautiful head as shown by cut. The property of T. A. Cox, Brantford, Ont. Distention and Rupture.

Distension and rupture of the stomach usually arise from too much food imperfectly masticated, or from the horse being put to collar work imin liately after a heavy meal. The sy, ptoms are abdominal pain, eructations of gas and food, fetid breath, profuse perspiration, cold legs and ears and great prostration. The animal sits on its haunches like a dog. The freatment (of the former disease) consists in diffusable stim-ulants, such as other, ammonia, oil of turpentine, whichever is nearest at hand, always given in linseed accompanied with brisk rubbing with a brush or wisp of straw over the abdomen and enemas of warm water and soap by the rectum. If the latter disease no treatment is of any

Science of Winter Feeding. Feed the cattle, dairy cows and all, plenty of good fodder; it is a roughage without a superior in the fodder kingdom, and the rougher the better. Grass is short now and winter feeding will be inaugurated at once. Remember, the modern live once. atock grower feeds for a purpose; if he is preparing animals for beef he feeds rations that will 'fatten; if for milk he gives a milk-producing diet, if for bone and muscle he meter out clover hay, bran, oats and the like. Let us have a good reason for feeding certain rations, and better results will come from efforts in this direction.

Care and Feed of Horses. The stomach of horses and mules should not be overloaded. They should not be fed immediately before

starting on a long journey, and moldy corn should always be avoided. Feed three times a day each from a separate manger. The amount needed by each animal can only be determined by observation. Cor and oats mixed with plenty of goo hay and fodder with an occasions bran much will keep the animal
