How to Secure Best Results from Fertilizers

Basic Slag, in itself is not a complete fertilizer, as it only supplies Phosphoric Acid and Lime. In order to derive the full benefit from the Slag, Potash (and in some cases Nitrogen) must be used with it, since the same underlying principle demands for plants as well as for animals a "balanced ration." In Great Britain the beneficial effects from a combination of Basic Slag and Potash are so well known that the term "Slag and Potash" is one with which every farmer is familiar. Old Country experience with these materials has been amply confirmed by numerous experiments conducted in the Maritime Provinces. We can supply you with all high grade fertilizer materials, Potash, Nitrate of Soda, Acid Phosphate, Basic Slag, etc., at lowest prices. You can mix these yourself at home and save 25 to 40 per cent. in fertilizer cost. Call and see us.

Personal Mention.

Contributions to this department will be glad to receive. Miss Nettie Cohoon is visiting in Berwick, the guest of her friend, Mrs. Gladys Reed. Mrs. R. E. Harris, who has been visiting her daughter, Mrs. Kennedy, in Quebec, returned home last week. Rev. M. H. Henry, of Upper Canada, has disposed of his farm there and leaves the Province shortly for Toronto, N. Y., where he and Mrs. Henry will reside with their son. Miss E. Marion Simpson, who has been spending the Easter holidays in Wolfville, left on Wednesday to return to Truro, where she is pursuing a course at the Provincial Normal School. Mrs. D. H. Simpson leaves on Saturday for Annapolis Royal, where she will deliver an address before the Baptist District meeting on "Mission Band Work." She will be away about two weeks. Mr. Ralph Donaldson, of Church Street, returned home on Wednesday morning from Guelph, Ont., where he has successfully finished another year at the Agricultural College. During the summer he will be engaged at the experimental orchards at Truro. Mrs. Newton Newcombe, Belcher Street, leaves by the steamer Atlantic on the twenty-fifth of this month for England, where she will meet her husband, who is returning from a two-year stay in Australia, where he has been the guest of his brother, Mr. and Mrs. Newcombe will spend six months on the continent before returning home. Mr. David R. Collins, a brother of Messrs. R. E. Collins and H. O. Collins, of this town, was recently elected an alderman of Lansing, Michigan. Mr. Collins is a native of Berwick and has been over thirty years a resident of Michigan, where he has filled for many years an important position in connection with the educational department of the state industrial school. Musical Stars Coming. Edwin Bower Hesser, the Boston Impresario, is in town on Tuesday to make final arrangements for his spring concert at the Opera House which is scheduled for Wednesday evening, May 13th. Mr. Hesser brought the operatic companies last spring and last fall, which were so keenly enjoyed by local music lovers. He told a representative of THE ACADIAN about his future plans for musical presentations in the Maritime Provinces. "Last spring," he said, "I introduced to you that phenomenal coloratura soprano, Mme. Evelyn Scotney, and her husband, Mr. Howard White, the greatest basso, as the stars of the aggregation. The other members, as I freshly stated at the time, were all young geniuses, who had just great things in store." "Public support," he continued, "was very loyal, and more than expenses were cleared on both tours. This leads me to hope that I will receive such support that each spring and possibly each fall I may bring to the Maritime Provinces some distinguished artists, and be assured of proper patronage. The plan which I wish to work out is that of an annual musical festival, either in the spring or in the fall, of each year, and then a separate tour of some artist in the operatic genre. Of course, it would be impossible to bring stars during the regular operatic seasons. And were it not for the fact that I contracted with Mme. Scotney and Mr. White a year ago for this tour, I could not have brought them. Mme. Scotney's success during the past season has been so marked that she has instantly become one of the most sought after stars on the stage today. During the past winter at the Boston Opera House, she sang the stellar roles in Lucia Di Lammermoor, Lakme, Rigoleto, La Traviata, and Martha, also Olympia, in The Tales of Hoffmann. She was wanted for the season of the Boston Opera Company in Paris this year, but cannot get there until after the close of my Canadian tour, in June. Instead of bringing several young singers as assisting artists this season, I decided to bring four artists of established worth, and to give a concert comprising many musical novelties never before heard in this region. Beside Mme. Scotney and Mr. White, who both created a tremendous sensation last spring, I am bringing the leading dramatic tenor of the Boston Opera Company, M. Alfredo Ramella, and the splendid prima donna contralto, Mme. Cass Sapia. The quartette from "Rigoleto" will be included in the program, which will be one of the artistic variations," added Mr. Hesser. "Monsieur John Craig Kelley will be the musical director, as on former tours. By special arrangement with Manager Black, I have arranged to present in concert form the complete second act—better known as "The Little Scene," from the grand opera "Martha," sung in English. In this Mme. Scotney shines in the title role—also known as Lady Harriet in the opera. She sings for the benefit of "Last Rose of Summer." Mr. Ramella is without a doubt the finest tenor ever brought to the Maritime Provinces. The rest for the "Martha" concert will be: Martha—Lady Harriet—Mme. Scotney; Nancy—Mme. Sapia; Pina—Mme. Sapia; Plunkett—Mr. White; and the chorus—Mr. Ramella."

Two and a Half Hours on Operating Table

Specialist Could Not Remove Stone in the Bladder. GIN PILLS PASSED IT. JOHNSVILLE, P. Q. "During August last, I went to Montreal to consult a specialist as I had been suffering terribly with Stone in the Bladder. He decided to operate but said the stone was too large to remove and too hard to crush. I returned home and was recommended by a friend to try GIN PILLS. They relieved the pain. I took two boxes and went back to the specialist. He said the stone was smaller but he could not remove it although he tried for two hours and a half. I returned home and continued to take GIN PILLS, and to my great surprise and joy, I passed the stone. GIN PILLS are the best medicine in the world, and because they did me so much good, I will recommend them as the best of any medicine. I passed a stone the size of a walnut. I passed it all in one day, and money back if they fail to give relief. Sample free. National Drug & Chem. Co. of Canada, Limited, Toronto."

Good Fruit.

The most successful fruit growers of the Annapolis Valley have for years followed the practice of applying Murine of Potash mixed with Basic Slag and Bone Meal, or other Phosphate fertilizer, to their orchards, depending on a crop of clover to supply the necessary Nitrogen and Humus. There is no doubt that the adoption of this ideal system is directly responsible to the remarkable color and quality of Nova Scotia apples, which features have gained for them so many awards and established their enviable reputation in the markets of Britain. We can supply you with all high grade fertilizer materials, Potash, Nitrate of Soda, Acid Phosphate, Basic Slag, etc., at lowest prices. You can mix these yourself at home and save 25 to 40 per cent. in fertilizer cost. Call and see us.

Sun Life's Annual Report.

The report of the Sun Life Assurance Company of Canada, which appears in this issue, puts forth two very interesting claims that are now made by the management. One is that the Sun Life Assurance Co., of Canada, now occupies the premier position among Canadian Life Assurance Companies; and the other is that outside of companies issuing industrial policies, the Sun Life of Canada now does a larger new Life Assurance business than other company incorporated in the British Empire. The actual new business done in 1913 (paid in cash) amounts to the huge sum of \$34,290,916.79, an increase over 1912 of \$3,476,507.53. The strength of the company is shown by its enormous assets, which now total over \$55,000,000, and the total surplus of \$5,754,000. The total surpluses in force at the end of 1913 amounted to \$4,235,995.00, an increase of \$1,184,000.00 over the previous year. To anyone interested in insurance these figures must prove of considerable interest, and particularly to policy holders in the Sun Life of Canada, in Canada, the Sun Life is very popular in the Maritime Provinces, and has a well organized force in this field who, along with the management, policy holders and shareholders, are to be congratulated on the exceptionally good report of 1913.
