NEW BRUNSWICK CROPS 1910

The following statistics gathered by the Provincial Department of Agriculture show the crops for 1910, so far as statistics are gathered, to have been better than last year, with the single exception of the potato crop. The yield per acre of wheat was last year 18.5 bushels per acre, this year 19, of oats last year 29.1 bushels, this year 29.7, of buckwheat last year 24.7, this 24.6, of potatoes last year 187, bushels, this year 127, of turnips last year 511, this year 500.8. The hay crop, for which statistics are not gathered, was an unusually large one, running it is estimated fully 25 p. c. above the average crop.

The number of live stock kept on farms in December, 1910, compared to December, 1910, was as follows:

	1909.	1910.
Horses	57,715	61,042
Cattle	199,481	215,829
Sheep	145,274	147,489
Swine	70,010	80,021

The following are the crops and total yields of the crops for which statistics were gathered in the two years:

	1909		1910	
	Acres.	Bushels.	Acres.	Bushels.
Wheat	14,447	268,079	13,988	265,848
Oats	194,815	5,682,338	196,795	5,847,877
Buckwheat	56,735	1,405,785	56,305	1,390,717
Potatoes	47,853	8,968,998	47,744	6,067,276
Turnips	6,531	3,340,862	6,310	8,160,158

Pains That Make Misery

A Talk With Our Lady Readers.

Have you ever noticed how miserable and unhappy the little pains and aches make one? A stinging cut, badly chapped hands, nasty burn, a sore foot, a poisoned finger—none of them wounds or ailments ever likely to cause serious trouble, which come to every woman—and man too—and are just sufficient to take the edge off one's temper and give one a "grouch."

Zam-Buk is just the thing at such times. As soon as you put it on to a sore, a cut, a burn, or any skin injury, it stops the pain, and the smarting, and starts up healing. Don't make the mistake that because Zam-Buk is so widely used by medical men, by nurses, and for serious skin diseases and accidents, that it is only for serious cases. Keep it handy and use it immediately you get some trivial injury or have some little sores.

Mrs. Chas. H. Barrett, Harmony Road, Truro, N. S., says: "I had an ingrowing toe nail, which caused me acute agony. Sometimes the pain was so severe I could not sleep. It became so bad that I feared blood-poisoning had set in. I was advised to try Zam-Buk and bound up the sore toe with it. In a few days it was much easier, and I continued the treatment. The result is that the toe is sound and I have no more trouble with it. We always keep Zam-Buk in our house and I would strongly recommend it to every housewife."

Zam-Buk is just the thing, too, for the little ones. Pure in its composition, and herbal in nature, it is suitable for the most delicate skin. It also cures piles, eczema, varicose ulcers, cold sores, abscesses, blood poisoning, ring-worm, and all similar skin diseases. Sold everywhere at 50c a box, or post free from Zam-Buk Co., Toronto, upon receipt of price.

A RESUME.

(Campbellton Graphic)

The Town Council has nearly completed the extension of the water system along Andrew St. to the Relief houses on Matheson's Flat, a distance of several thousands of feet, including a pipe line on two streets adjacent to the Relief houses—as well as along a street leading off Andrew street, south of Wellington street.

The Sewerage System is also being extended along Andrew Street South to the brow of the hill. The work of excavation from both water and Sewerage is being carried on every day, notwithstanding the unusually severe weather which prevailed during the past few weeks.

Mr. S. D. Harriman, who has the contract for this work, deserves much credit for his undaunted pluck in continuing the work under such unfavorable conditions.

The great scarcity of laborers, together with the unusually high rate of wages which prevailed during the summer and autumn months, rendered this work utterly unpracticable at an earlier period.

Complete surveys and plans have been made of a considerable portion of the town and placed on file in the office of the Town Clerk. In all cases where practicable, streets have been slightly widened and straightened. Preparations are also under way for the paving of Water and Gerrard streets. The Town Council is receiving considerable praise, and justly so, for the very large amount of Civic work which they have accomplished within the past few months, with the very limited means at their disposal, (something less than eight thousand dollars of insurance money, and out of this amount the whole of the ordinary current expenditure of the town had to be paid.) Not one dollar of outside aid has been received or expended in any part of the town's corporate work, with the exception of a donation of 250 feet of hose, 2 car loads of cement, the free use of an electric generator for the winter months, and one hundred dollars from the Union of N. B. Municipalities, for all of which the town is deeply grateful. Fire Insurance Companies are offering very low rates on brick buildings within the town. As low as 50 cents and even 45 cents on the hundred dollars having been already secured on brick buildings. Fire insurance all over the town is reported to be very much lower here now than in Moncton and other Provincial cities. Citizens who at first considered the Town Council's Action in passing the fire district Bye-Law somewhat drastic and even unwarranted are now loud in their praises of the new building regulations—When Water street will be all built up with fire proof buildings, such as those which have already been erected, it will continue to be the main business thoroughfare of the town, where all the banks, Post Office, Custom house, and most of the legal and Financial offices are already located. A large number of magnificent residences have been erected in various sections of the town within the past few months and several are in course of construction. Most people who had a one and one-half story building before the fire, have erected two story buildings on their old foundations. This is a step in the right direction, as it provides perpendicular walls in all rooms in the upper flat instead of leaning ones, which were not only more expensive to construct, but did not allow for the proper placing of furniture, wall pictures, etc.

The very high prices charge for lumber during the past few

months retarded building operations very considerably, but persons proposing to build during the coming summer are taking advantage of the winter months to negotiate for better prices on building material, in order to be ready for an early start in the spring. Not more than a dozen electric light and telephone poles survived the fire of July 11th, and now both electric light and telephone services are in full operation throughout the town. New electric light poles have been erected and fully equipped with all necessary line wires and other accessories for distributing current on the following streets, viz: Water, Gerrard, Ramsay, Ritchie, Pleasant, Queen, Prince William, Celar, Andrew, King, Dalhousie, Bay View, McMillan, Chapel, Union, Victoria, Arran, Athel, Central, Patterson, Stanley, Arzyle, Wellington, Albert, Rosebury, Aberdeen, Adam, Dufferin, Landsdowne, Duke, O'Leary, Sugar Loaf, Duncan, Cromwell, and George streets. Street lamps of an improved type have also been placed at public corners on several of the streets and have been in operation for the past two months. These lights are quite an improvement on the former ones, besides costing very much less to install and using only a fraction of the current required by their predecessors. Most of the buildings in the town are now using the electric light and meters have already been installed in the majority of them. The new Power House which was erected on the site of the old one is, of course only a temporary building and will have to be replaced by a more up-to-date structure in the near future. The two Power House engines, which were considerably damaged by the fire, have been returned to the makers, and one of them rebuilt and again put in commission on the old stand where it is now in service.

INTERCOLONIAL RAILWAY TENDER

Sealed tenders, addressed to the undersigned, and marked on the outside "Tender for Buildings", will be received up to and including Wednesday, February 15th, 1911, for the purchase and removal from the railway property of certain buildings in the town of Chatham, N. B.

CONDITIONS

The Railway reserves the materials in foundations below the sills of the buildings.

The buildings must be entirely moved off the Railway property on or before the first day of May next.

A plan showing the location of the buildings and descriptive list may be seen, and forms of tender and specification for removal, may be obtained at the office of the chief Engineer, Moncton, N. B., and also at the office of the station master at Chatham, N. B.

A tender made for all or any of the buildings.

Each tender must be accompanied by a cheque equal to the amount of the tender. This cheque must be marked "Accepted" by the bank on which it is drawn, and made payable to the Honorable Minister of Railways and Canals.

If the tender is not accepted the cheque will be returned.

The Railway Department will not be bound to accept the highest or any tender.

All the conditions of the specification must be complied with.

A. W. CAMPBELL,
Chairman Government Railways
Managing Board.
