CALLED MODERN ST. FRANCIS

Charles Caleb Pierce Tramped and Preached Through California 42 Years—Welcomed Everywhere.

Memories of a host of picturesque figures in the history of California are evoked by the centennial of the missionary society of the Episcopal church, which was celebrated November 6. The mind goes back to that morning in January, 1848, when Jim Marshall picked up some bits of yellow metal in the tail-race below Sutter's mill up in the Sacramento valley, and the cry of "Gold!" like the shot fired at Lexington, was heard round the world. The rush of the '49ers followed, and in the vanguard was Rev. Flavel Scott Mines, who erected the first church building on the Pacific coast, Trinity church, San Francisco, which was opened on October 28, 1849. Probably no name has a more lasting place in California annals, however, than that of Charles Caleb Pierce, called by Bishop Moseland "a modern St. Francis," who, beginning his missionary career in 1851, devoted his life to the people of El Dorado county. Without private means and according to accept a salary, Pierce established headquarters in a rude parish church at Placerville. Sunday always found him there. Regularly each Monday morning he packed his bag with religious literature and "hit the trail." Six days a week, week in and week out, he walked over the county, averaging 60 miles each week, every house his home, a place at the table of whatever house he visited or a spare bed always being certain wherever he happened to be. He always traveled on foot. His charity was unbounded, and he was the friend and helper of all.

For 42 years he tramped and preached about El Dorado county, and in all that time he never left the county but twice, and on both occasions against his will. Then, March 15, 1908, the news flashed through the county, "Father Pierce is dead!" Universal mourning followed.

Hogs Plow Orchard.

Hogs take the place of plows and harrow in the cultivation of one of the best producing small apple orchards in Ontario. Most orchardists plow and replot and harrow and ditch the land between the rows of trees. J. W. Tuttle of Currie merely turns in a drove of hogs.

"When I bought my farm, four years ago," said Mr. Tuttle, "the orchard had been allowed to grow wild. I gathered only three bags of apples that fall. In the spring I sprayed and pruned the trees and turned 80 hogs into the orchard. They rooted for their living all summer.

"By fall every foot of soil had been turned up by their snouts. The land looked as if it had been plowed. And it had, for these four-legged plows had done a thorough job and had gone as deep as a plowshare. I gathered 32 barrels of apples that season. That was the direct result of plowing and manuring my land with hogs."

"Next year I got 85 barrels and the third year 200 barrels. This year I have more than 200 barrels."—Detroit News.

BOARD OF TRADE

At a meeting of the Newcastle Board of Trade, held last Wednesday evening in the Town Hall for the purpose of considering the advisability of sending delegates to Amherst, N. S., on Friday to attend the joint meeting of Maritime Province Board of Trades, in connection with having the C. N. R. Atlantic Division extended to Montreal, it was decided not to send delegates and a resolution was passed urging that Sir Henry Thornton be given a free hand to put the C. N. R. on a paying basis.
