(Continued from first page.) Government contract at their own price. Yet Mr. Macoun stated that the above contract was all the business he ever did for the Pawtucket Company.

PAID IN ADVANCE.

As to the \$70,000 copper contract Mr. Macoun admitted that he got his pay before the larger part of the goods were tested or even delivered. A competing tenderer, who offered copper at a lower price, was refused the contract because he required pay on delivery, while the Government held in this case that there should be no pay until the copper had been received and tested.

GOVERNMENT OBSTRUCTION CONTINUED.

Government late Friday night accepted Opposition advice, and put through a supply bill to pay employees on the intercolonial, in the customs and post office service, on the canal and in other public employment. Mr. Gordon has repeatedly invited the Ministers to take this vote with that for the Militia and the Mounted Police. Mr. Fielding refused to do so until he can get all other votes which require discussion and have not been explained. So every man who had to wait for his pay should know that it is because of this refusal. Mr. Paterson rushed off to the Ontario election campaign and told the people that the Opposition was refusing pay to public servants, when he had got his vote on the plea that if it were passed the cheques might be issued the next day. The cheques were not issued because the Government held back the supply bill.

SUPPLY BILL AT LAST.

But Friday night a supply bill for more than \$31,000,000 was introduced, and passed the three readings and committees in ten minutes, though any member could have stopped it by objecting to suspension of the rules. This gives effect to all votes taken in supply, and contains an advance payment on account of one eighth of those items not voted in committee. The service is now provided for until July.

THE ELECTION BILL.

Mr. Foster explained that the Opposition stood by the position first taken in respect to the election bill, but that negotiations between the leaders on that question had made such progress that the Conservatives were ready to assist the speaker in his present difficulties. No definite announcement can be made at this stage, but it is supposed that the Government will either abandon altogether the objectionable clauses of the election bill, or change them so that they will be free from objection as an interference with the voters' list. It is expected that the clause destroying the secrecy of the ballot will disappear, that interference with British Columbia will be abandoned, and that in Manitoba the intervention will be reduced to a judicial re-arrangement of names where Dominion and Provincial subdivisions are not the same.

NOTES.

There are vague threats of the introduction of a closure system, so that "the rule of the majority" may be established, and discussion cut short. Sir Wilfrid Laurier has not advocated this change, but has left it to less responsible colleagues. The Premier easily foresees that his own party will soon be in the minority, and he remembers that in 1896 a closure law would have made his tactics impossible. The Privilege Committee has failed to find out what became of the Stansfeld-by-election records, miss-

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

Hood's Sarsaparilla

To cure catarrh, treatment must be constitutional—alterative and tonic. Hood's Sarsaparilla is a powerful purifier of the blood, and a tonic to the system. It is the only medicine that cures catarrh, and builds up the whole system.

Have You Suspected Your Kidneys as the Cause of Your Trouble

If you have backache, swelling of the feet and ankles, frequent or suppressed urine, painful sensation when urinating, speaks floating before the eyes, great thirst, brick-dust deposits in the urine, or anything wrong with the urinary organs, then your kidneys are affected.
